Mr. Marchand informed the Council that every $1.00 leveraged has a return of up to $10.00 in private and corporate dollars.

Lisa Newman spoke regarding the importance of the Young Heroes Program and the benefits her son Michael received being part of the program. She informed the City Council that Michael spent his Saturdays thru out the winter months with kids from all over the seacoast participating in this program to learn about a variety of issues that affect all of us. Ms. Newman advised the City Council that when a child knows that they can make a real difference in making their world a better place, they feel more confident and more in control of what is going on around them and who they associate with.

He informed the City Council that the men’s softball organization he is affiliated with uses the field and he assists with maintaining the field.

Carol Chellman asked the City Council to let the discussion of eminent domain regarding the Peirce Property focus on the facts. She said that the Peirce Property is not a taking of land but the removal of a restriction from the deed. It is important to note, that this is City land.

Bill St. Laurent, Association of Portsmouth Taxpayers, said the proposed Teachers’ contract on for approval this evening is generous and expressed concern with the 10-year rolling COLA (cost of living adjustment). He said the Association feels that the Council is rushing this contract through and residents cannot afford continued increases in the future.

Allen Nelson spoke to the Peirce Property and said that the deed has been pushed to its recreational limits. He informed the City Council that he has spoken with the Attorney General’s office regarding the Peirce Property and they indicated that the eminent domain process can be done but in no way are they implying that they agree. Mr. Nelson advised the City Council that there are other alternatives available rather than the Peirce Property and urged them to explore the options.

Erik Anderson said he feels that contract negotiations are extremely guarded from the public until completed with virtually no public participation or knowledge of the negotiations. In this concept your approval of any contract as a Council binds an obligation with the costs passed on to the taxpayer. He said we are all aware that the collective bargaining contracts of the City consume 85+ percent of annual budget costs, these renewals represent one of the most important events from a fiscal perspective. He advised the City Council that he feels there should be future improvements to this process.
Dr. Mitchell Shuldman, School Board Chair, requested the City Council to approve the Teachers’ contract, as presented. He spoke to the major points of the contract as follows:

Wayne Barrows expressed concern regarding eminent domain but indicated that in the case of Portsmouth Middle School this realty practice makes perfect sense. He said preliminary contact with the heirs of the Peirce family has indicated the surviving family members likely would not oppose the school expansion onto Alumni field if the City was able to compensate the losted recreational area. He suggested that the City use the roughly $2 million dollars it will cost to adequately compensate the Alumni field value and tear down the Lafayette School and expand and improve one of the City’s recreational gems.

Councilor Kennedy asked what this would mean in real dollars if this contract was not approved prior to September 1st. Negotiator Flygare said it would cost the City $189,000.00 per teacher which would equate to $9,000,000.00 if this contract was not passed by September 1st.

2. Report Back Re: USS New Hampshire Commissioning Celebration

Deputy City Manager Hayden said the USS New Hampshire submarine is scheduled to arrive at the Portsmouth Naval Shipyard on or some time after October 17, 2008 and the Commissioning ceremony is scheduled for Saturday, October 25, 2008.

City staff met last week with Doug Bates and Renee Riedel of the Commissioning Committee, and Michael Warhurst of Prescott Park to discuss the activities proposed by the Commissioning Committee. She advised the City Council that we will continue to work with the Commissioning Committee as they further develop their proposed activities. A summary of the proposed celebration activities is as follows:
a) Event parking requests:

- Request to allow remote viewing of the commissioning from Four Tree Island, Prescott Park.
- Request for permission to park vehicles at Portsmouth High School and the Masonic Temple and to place appropriate signage to direct people to parking lots.

b) Request for temporary installation of a Jumbotron viewing screen on Four Tree Island or Prescott Park for remote viewing of the commissioning ceremony.

c) Event Banners: The Commissioning Committee has requested permission to hang event banners including sponsors’ names on poles in the city.

d) Request that the City of Portsmouth officially adopt the submarine.

e) Request for use of city parks for event fundraising with area non-profits.

f) Media correspondence and relations and letter from Mayor in official commissioning program.

Deputy City Manager Hayden referred to the memorandum by City Attorney Sullivan regarding pole banners. She said that the concern relates to the first amendment principle that once the City has allowed any location to be used as a public forum for expressive conduct, such as a banner, then the City must thereafter allow that forum to be used by any party for expressive conduct without reference to the content of that expression. She further stated that Mr. Bates understands the issues relating to the banners and has no objection to the City’s ruling on this matter.

Assistant Mayor Blalock moved to accept the report back including the City Attorney’s recommendation with regard to banners, and refer the aforementioned requests to the City Manager with power. Seconded by Councilor Pantelakos.

Informational Items

Atlantic Heights Re: New Traffic Circulation Pattern

Deputy City Manager Hayden said the City Council adopted an ordinance on March 18, 2008, regarding the new traffic pattern. This City ordinance allowed the City Manager to determine the effective date upon completion of the first phase and report back this date to the City Council and City Clerk so that it would become part of the adoption of the ordinance. The new traffic circulation pattern in Atlantic Heights will take affect on August 4, 2008.

Councilor Smith advised the City Council that this was endorsed by the Neighborhood Association and the Traffic & Safety Committee.

Report Back Re: Timeline for Acquiring the Property to the Left of the Middle School

City Attorney Sullivan spoke to the timeline provided regarding the Peirce restriction as it relates to the proposed Middle School renovation. He reported that the acquisition process will likely take about 6 to 9 months from the date on which the City Council votes to commence the process. Given the nature of restrictive covenants in general and the role that Division of Charitable Trusts plays, it is not possible to simply negotiate with the Division of Charitable Trusts a voluntary relinquishment of the deed restriction. However, based on preliminary discussions with the Division of Charitable Trusts, the Division is aware of no grounds for objection to a taking based on necessity and the proposed public use of Alumni Field to expand the existing Portsmouth Middle School. In addition, preliminary contact by the Legal Department with one of the heirs of the original grantors suggests that the heirs may have no objection to the expansion of the middle school onto Alumni Field if there is adequate compensation in the form of new park and recreation lands to offset the loss. If the Council votes to adopt the condemnation resolution, the City staff will have Alumni Field appraised in the manner prescribed by law. The City already has an appraiser, Harvey Cohen, MAI, approved by the Director of Charitable Trusts available to appraise the property as preliminary efforts were made to appraise the property several years ago when the encroachment of the existing Middle School onto the Alumni field property was discovered.

Councilor Spear inquired as to the time line for the building process. City Attorney Sullivan responded that building cannot commence until the acquisition of the land is completed.

Deputy City Manager Hayden advised the City Council that this matter will be placed on the August 18th City Council agenda for action.
