Market Street Sidewalk Enhancement Project

Public Notice

The City of Portsmouth's Public Works Department is planning on reconstructing the sidewalks on **Market Street** from Bow Street to Russell Street this spring.

We invite you to come and learn about the project at an informational meeting being held at City Hall in Conference Room A on February 22, 2010 at 6PM. Public Works officials will be there to discuss the project and answer any questions relating to it that you might have.

The plan is to install drainage for the road and building roof downspouts and install period lighting before replacing the sidewalk surface. The portion of Market Street from Deer to Russell will be narrowed in order to provide room for street trees and brick accent strips.

If you have questions or concerns you may contact Dave Desfosses at the Public Works Department at 766-1411.
