xvi. DISTRICT REPORTS:

1. NANCY ROY – PRINCIPAL, RJL ACADEMY – Principal Roy shared the following update with the Board:

   The Robert J. Lister Academy had the honor of receiving the President’s Community Partner Award from Great Bay Community College. This award and others are sponsored by the Campus Compact for New Hampshire, a consortium of NH colleges and universities. Bryan Mascio, (college transition course teacher), one of our students in the college transition program, and Principal Roy were treated to a wonderful luncheon and award ceremony at the Crown Plaza in Nashua. It was a nice affirmation of the work being accomplished.

   RJL Academy’s SMART Goal: All students will reduce the number of developmental courses required for them, as indicated by their pre/post accuplacer scores.

   At the end of semester 1, staff re-assessed students using the accuplacer and found that 42% of students had reduced their developmental courses by one course. The Academy was also pilot testing the advancer learner program, which is aligned to the accuplacer test and compared accuplacer scores prior to the advancer learner program and after the advancer learner program. Principal Roy found a significant bump in scores, especially in math for 68% of students.

   Unfortunately, even with that amount of point movement, 26% of students still were unable to make the cut score for the next level of developmental course. 32% made minimal movement on the accuplacer scores and had similar low scores in both math and reading. This group of students needs the most intensive skill intervention to move their learning forward.

2. JOHN STOKEL – PRINCIPAL, PORTSMOUTH MIDDLE SCHOOL – Principal Stokel shared the following information with the Board:

   A letter was received from Johns Hopkins University:

   *We’d like to share some good news with you. Portsmouth Middle School is a “Top 10 School” for the state of New Hampshire in the 2009 Johns Hopkins University Center for Talented Youth Talent Search. We hope this achievement will be a source of pride for you, your staff, students and families.*

   *We’re very thankful for your participation, of course, but we are also mindful of what this award says about your school. It means your academic program is producing a high number of high-achieving students. It also indicates that you look out for your students’ best interests by recommending other resources (like CTY) for them and their families to investigate.*

   Mr. Stokel then provided Board members with some school highlights and an update on PLC’s (Professional Learning Communities).
3. **PAULA WENSLEY – DIRECTOR, SPECIAL SERVICES** – Ms. Wensley shared an update on PLC’s from elementary schools, the Portsmouth Middle School and Portsmouth High School’s Special Educational staff members.
