

**NORTH CEMETERY
Maplewood Avenue
Portsmouth, NH**

In 1907 a text was published from the work of Oliver Horton Locke who had recorded dates from some 2000 of the oldest tombstones in Portsmouth. North Cemetery was included in this effort. Around 1954, John Eldridge Frost added to Locke's work. Mr Frost noted the markers in sequence which became invaluable in identifying the location of missing markers.

Both of these studies were included in this project to update data.

North Cemetery and Union Cemetery are adjacent to each other.
