Mark Pollins Director of Water Enforcement USEPA OECA 1200 Pennsylvania Ave NW MAIL CODE 2246A Washington, DC 20460

Re: Consent Decree 09-cv-283-PB Monthly Report on Compliance for April 2020 City of Portsmouth, New Hampshire

Dear Mr. Pollins:

In accordance with Consent Decree 09-cv-283-PB, Section V, item paragraph 20, dated August 12, 2009 and as amended by Consent Decree Modification filed July 2, 2012 and approved by the Court on February 15, 2013 and as amended by Consent Decree Second Modification, Section III, item paragraph 6, filed on April 1, 2016 and approved by the Court on September 28, 2016 the City of Portsmouth is submitting this monthly report on compliance.

The Consent Decree Second Modification requires the filing of monthly reports as follows: Within 30 days after the end of each month, the City shall submit a written report to EPA, the State, and CLF for the preceding month that shall include a description or reporting of the following: i) status of required construction, including major work items completed in the preceding month; ii) projected work items to be undertaken in the next month; iii) project percent complete based on payments to Contractor for work completed; iv) project percent complete based on time elapsed; v) status of all required permit applications; vi) status of Consent Decree milestones including identifying any problems encountered or anticipated, together with the proposed or implemented solutions; and vii) the monthly average discharge concentrations of total nitrogen for the preceding month, as required in Paragraph 8.b.ii of the Second Modification.

The Consent Decree, First Modification, Second Modification and Third Modification along with such Monthly Reports on Compliance shall be posted on the City's internet site, and maintained accessible to the public online until termination of the Consent Decree. In addition to the submission of Reports on Compliance, the Parties will participate in quarterly meetings or conference calls, if scheduled by EPA, to review the City's compliance with the terms of the Consent Decree.

i. Status of required construction including major work items completed in the preceding month

Work completed by the Contractor in the month of **April 2020** is as follows:

- Completed installation of the sump at the Mechanical Room in the existing Sludge Processing Building (new Operations/Lab Building) lower level
- Completed application of liquid hardener on the floors in the BAF Building
- Completed installation of perimeter handrails on Gravity Thickener No. 2
- Completed installation of the waterproofing membrane and rigid insulation on the upper level of the Operations/Lab Building

ii. Projected work items to be undertaken in the next month

Ongoing work by the Contractor through the month of May 2020 includes the following:

- Continue minor electrical, HVAC, and plumbing punch list work at the Headworks Building, Grit Building, Solids Building, and BAF Building
- Continue integration of the BAF control system with the plant's SCADA system
- Continue startup of the BAF and the biomass development phase, and continue to calibrate and tune control loops
- Continue to export excavated materials and demolition materials off-site
- Continue PCB encapsulation in the existing Sludge Processing Building (new Operations/Lab Building) lower level
- Continue structural steel baseplate installation on the first floor of the Operations/Lab Building
- Begin placement of concrete topping slab and containment curbs and pads at the Operations/Lab Building
- Continue construction of the brick shelf for the Operations/Lab Building brick façade
- Continue construction of ramps and stairs at the Operations/Lab Building
- Begin installation of structural steel, roof joists, and metal roof deck at the Operations/Lab Building
- Continue installation of CMU walls at the Operations/Lab Building lower level
- Begin installation of brick masonry façade at the Operations/Lab Building lower level
- Begin installation of metal stud walls at the Operations/Lab Building upper level
- Complete outstanding work and startup Gravity Thickener No. 2 mechanism
- Continue final grading, landscaping, and installation of the vegetated maintenance corridor
- Continue replacement of the exterior fencing

Important Note – The above list represents work that was scheduled for May 2020. Due to the Covid-19 pandemic and the impact of the declaration of states of emergency and issuance of executive orders, both at the state and federal level and guidance issued for social distancing, the work described above has been impacted to greater and lesser degrees depending on the trade involved. The consequences of these changes are still unfolding.

Projected work to be completed by the Contractor in the month of May 2020 includes the following:

- Complete PCB encapsulation in the existing Sludge Processing Building (new Operations/Lab Building) lower level
- Complete construction of ramps and stairs at the Operations/Lab Building
- Complete structural steel baseplate installation on the first floor of the Operations/Lab Building
- Complete placement of concrete topping slab and containment curbs and pads at the Operations/Lab Building
- Complete outstanding work and startup Gravity Thickener No. 2

Important Note – The above list represents work that was scheduled for May 2020. Due to the Covid-19 pandemic and the impact of the declaration of states of emergency and issuance of executive orders, both at the state and federal level and guidance issued for social distancing, the work described above has been impacted to greater and lesser degrees depending on the trade involved. The consequences of these changes are still unfolding.

iii. Project percent complete based on payments to Contractor for work completed The following table provides a summary of the Contractor's requests for payment, and the resulting percent complete:

| Original Contract Value | 72,785,545.00 |
|--------------------------------|-----------------|
| Change Order 1 – January 2017 | 367,290.42 |
| Change Order 2 – May 2017 | 546,722.46 |
| Change Order 3 – August 2017 | 93,838.31 |
| Change Order 4 – December 2017 | 162,869.20 |
| Change Order 5 – May 2018 | 249,828.16 |
| Change Order 6 – December 2018 | 292,031.11 |
| Change Order 7 – April 2019 | 169,138.30 |
| Change Order 8 – October 2019 | 112,659.75 |
| Change Order 9 – May 2020 | 242,419.68 |
| Contract Value Total | \$75,022,342.39 |

| Payment Application No. | Work Conducted Through | Amount | Payment Application No. (continued) | Work Conducted Through (continued) | Amount | Cumulative Amount | % Complete Based on Contract Value Total |
|-------------------------------|------------------------------|----------------|--|---|----------------|----------------------|---|
| 1 | 09/30/2016 | \$1,393,500.00 | 23 | 07/31/2018 | \$1,250,957.12 | | |
| 2 | 10/31/2016 | \$2,855,100.00 | 24 | 08/31/2018 | \$2,351,471.12 | | |
| 3 | 11/30/2016 | \$1,717,330.09 | 25 | 09/30/2018 | \$1,402,132.42 | | |
| 4 | 12/31/2016 | \$1,374,011.19 | 26 | 10/31/2018 | \$1,382,568.22 | | |

| | | | | | | \$69,843,392.51 | 93.10% |

Project percent complete based on time elapsed

The contract time to the EPA required milestone for the <u>BAF treatment system</u> <u>completion</u> is 1186 calendar days. The total value of the contract (item iii) is based on the City's contractual milestone for <u>project substantial completion</u> is 1398 calendar days.

The <u>BAF treatment substantial completion</u> was achieved on December 31, 2019. As of April 30, 2020 the project is 93.6% complete based on the <u>project substantial</u> <u>completion date</u> of June 30, 2020. The Contractor's most recent schedule update showed a project substantial completion date in December 2020. The City is working with the Contractor to review the schedule. Any adjustments to the project substantial completion date will not impact any Consent Decree milestones.

iv. Status of all required permit applications

There are no pending permit applications.

v. Status of Consent Decree milestones including identifying any problems encountered or anticipated, together with the proposed or implemented solutions

The construction contract with Methuen Construction Company, Inc. was executed on August 25, 2016. A summary of all milestones required by the Consent Decree Second Modification is provided in the table below.

| Milestone | Date | Status |
|--|--------------------|---------------------|
| Execute Contract to Construct Unarradas | July 1, 2016 | |
| Execute Contract to Construct Upgrades | September 1, 2016* | August 25, 2016 |
| Submit Two Additional Milestones for EPA | | |
| Review and Approval | December 1, 2016 | November 29, 2016 |
| Additional Milestone 1: Transfer of the existing | | |
| SCADA system to the new Headworks Building | November 21, 2017 | October 18, 2017 |
| Additional Milestone 2: Startup and testing of the | | |
| Secondary Influent Pump Station in the new Solids | | |
| Building | May 9, 2019 | May 7, 2019 |
| PAE Substantial Completion | December 1, 2019 | |
| BAF Substantial Completion | December 31, 2019 | December 31, 2019** |
| Achieve Compliance with NPDES Permit Limits | April 1, 2020 | April 1, 2020*** |

* At the request of the City of Portsmouth, all parties agreed that the Contract Execution Date could be revised to September 1, 2016 to allow more time for bidding and to accommodate the Portsmouth City Council's review of barging alternatives prior to contract execution. The Contractor's schedule for completion was reduced to accommodate the modified contract execution delay.

** The BAF substantial completion date was extended by approval from the EPA in a letter dated December 9, 2019. Documentation is provided in the December 2019 Monthly Report on Compliance and available online.

*** On May 15, 2020 the City filed its first Discharge Monitoring Report (DMR) with the EPA for the upgraded Peirce Island WWTF establishing compliance with the 2007 NPDES permit limits as required by the Consent Decree. That report is attached to this report. Data is collected twice weekly during the month, analyzed, and then reported electronically by the 15th of the following month.

vi. The monthly average discharge concentrations of total nitrogen for the preceding month, as required in Paragraph 8.b.ii of the Second Modification.

The average concentration of effluent total nitrogen in the month of April 2020 was 11.6 mg/L TN. The report is attached and was submitted with the City's Discharge Monitoring Report (DMR) for NPDES Permit NH0100234.

As requested by the EPA, Consent Decree Mitigations, as required in Section IV, Paragraph 8, of the Consent Decree Second Modification, will be outlined in this monthly report.

<u>ATTACHMENT A:</u> A summary of the City's mitigation initiatives is provided detailing the status of each initiative.

<u>ATTACHMENT A1</u>: A summary of the City's commitments to date as required in Paragraph 8.e., Water Quality and Ecosystem Health Project, of the Consent Decree Second Modification.

<u>ATTACHMENT A2</u>: Supplemental Compliance Plan Sewer Separation Projects per Consent Decree, Section IV, Paragraph 12.c. On January 24, 2018, EPA, with NHDES concurrence, approved the updated CSO Supplemental Compliance Plan and implementation schedule as contained in the plan.

These monthly construction reports are posted on the City's wastewater website at: <u>https://www.cityofportsmouth.com/publicworks/wastewater/resources</u>

As required by the Consent Decree:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations. Please contact me at (603) 766-1416 if you have any questions or require additional information.

Sincerely,

Artho

Peter H. Rice, P.E. Director of Public Works

April 25, 2020 and bids were received May 19, 2020. Contract award is pending. Crews from the Department of Public Works continued to clear brush and trees within the

Crews from the Department of Public Works continued to clear brush and trees within the project area to insure that tree removal work was completed within the timeframe dictated by the Alteration of Terrain (AOT) permit.

d) Sagamore Avenue Sewer Extension Project: Implement a sewer extension project to provide public sewer service to approximately 83 existing parcels adjacent to or near Sagamore Avenue with the intent to improve water quality in Sagamore Creek.

| Current Status: | Anticipated Completion Date: |
|-----------------|------------------------------|
| FINAL DESIGN | TO BE DETERMINED |
| - | |

Comments: Design engineering is underway. Design progress has been slowed due to need for City Council action which has been delayed. The City has requested an extension of time from EPA to commence construction due to the delay in getting final approval from the City Council on various project elements.

City staff prepared an online survey for property owners to determine how many properties would connect to the sewer at the time of construction and to better understand existing conditions. The deadline for survey responses is May 8, 2020. This information will be helpful as the City Council considers project costs and cost apportionment.

e) Water Quality and Ecosystem Health Project:

| Current Status: | Anticipated Completion Date: |
|-----------------|------------------------------|
| ONGOING | N/A |
| Comments: | |

The City of Portsmouth has continued to coordinate with members of Great Bay 2020 and CLF regarding funding commitments for 2020. Expenditures and the current list of commitments are documented on Attachment A1.

ATTACHMENT A1 details financial commitments.

ATTACHMENT A1: WATER QUALITY AND ECOSYSTEM HEALTH PROJECTS

This document summarizes payments made for the City's obligations under the Consent Decree Second Modified (No. 09-cv-283-PB), Paragraph 8.e. This item requires a contribution of \$500,000 over a period of five years to support water quality and ecosystem health efforts related to the Great Bay Estuary.

| Projects | Vendor/Agent | Status | Payment Date | Payment Total |

| | | | TOTAL | \$ 358,813.67 |

ATTACHMENT A2: SEWER SEPARATION PROJECTS

This document identifies and summarizes six sewer separation projects and one infiltration and inflow project (Contract #1) approved by the EPA in a letter to the City dated January 24, 2018. EPA, with NHDES concurrence, approved the updated CSO Supplemental Compliance Plan and implementation schedule as contained in the plan. The City shall:

- complete the six sewer separation projects and the Contract No. 1 wastewater collection system rehabilitation projects by no later than October 2023;
- complete the LTCP update by no later than October 2025; and
- provide project status on all seven projects as part of the monthly reports on compliance it will be submitting pursuant to Paragraph 6.a. of the Consent Decree Second Modification.

Comments

The City has communicated with EPA regarding the need to reconcile the mass based limits in the 2007 permit with the approved treatment facility design flow. See attached cover letter for details. The City will continue to report based on the lower limits in the April 10, 2007 NPDES Final Permit as shown in the Discharge Monitoring Report but reaffirms that that reconciliation should be made to correct the discrepancy.

RE: NPDES Permit No. NH0100234 / Discharge No. 001A

Through the month of March 2020, the City of Portsmouth reported on compliance with the Consent Decree Interim Permit Limits. The EPA reset the Discharge Monitoring Form for the month of April 2020 based on the April 10, 2007 NPDES Final Permit. Beginning April 2020 (this reporting month) the City of Portsmouth Peirce Island WWTF begins reporting on compliance with the secondary treatment limits. The City has communicated with EPA regarding the need to reconcile the mass based limits in the 2007 permit with the approved treatment facility design flow. The 2007 permit mass limits for BOD and TSS were calculated based on a design flow of 4.8 MGD and are 1,201 lbs/d, 1,801 lbs/d, and 2,002 lbs/d for the average month, average week and maximum daily, respectively. The approved constructed treatment facility design flow is 6.13 MGD which would result in average month, average week and maximum daily, respectively. The approved constructed treatment facility BOD and TSS mass limits of 1,534 lbs/d, 2,301 lbs/d, and 2,556 lbs/d, respectively. The City will continue to report based on the lower limits in the April 10, 2007 NPDES Final Permit as shown in the Discharge Monitoring Report but reaffirms that that reconciliation should be made to correct the discrepancy.

In the month of April, the Peirce Island Wastewater Treatment Facility had no violations. The flow pacing of chemicals has resulted in an effluent with average removal of 95.7% BOD and 89.8% removal of total suspended solids (TSS). On April 5th there was a secondary bypass due to startup related troubleshooting of 0.01 MGD. On April 9th there was a secondary bypass due to high flow during a wet weather event of 0.36 MGD. On April 5th there was a fecal coliform concentration of 2419.6 MPN/100 mL. The nitrogen species sample results from Absolute Resource Associates, a contract lab, are included. The chlorine (Cl₂) detection limit is 0.05 mg/L and the plant reports less than the detection limit using Standard Methods 4500-CL-G Page 4-63 (colorimetric). Please call if you have any questions or need additional information.

Sincerely,

Terry Desmarais, P.E., City Engineer

ec: Stephanie Larson, NHDES Peter Conroy, Chief Plant Operator, Peirce Island WWTF
