**Water Treatment Plant Deconstruction and Demolition
Bid Proposal #06-14**

INVITATION TO BID

Sealed bid proposals, **plainly marked, Water Treatment Plant Deconstruction and Demolition Project**, Bid Proposal #06-14 **on the outside of the mailing envelope as well as the sealed bid envelope**, addressed to the Finance/Purchasing Department, City Hall, 1 Junkins Avenue, Portsmouth, New Hampshire, 03801, will be accepted until **1:30 p.m. September 25, 2013** at which time all bids will be publicly opened and read aloud. A mandatory pre-bid meeting will be held at **2:30 p.m., September 10th, 2013** beginning at the City DPW, 680 Peverly Hill Road, Portsmouth, NH, and proceeding to the two demolition sites.

This project consists of deconstruction of the salvageable materials, and demolition of the remaining structure of the old Filter Building at the Portsmouth Water Treatment Plant in Madbury, NH. Specifically, the work includes removal of hazardous materials (including asbestos), selective salvage of valuable equipment, scrap, and recyclable building materials, and compaction and leveling of the site to grade. As an add/alternate, bidders are asked to make a proposal on the removal of six (6) large carbon filtration vessels from a City-owned building on Pease Tradeport.

Specifications may be obtained from the City's web site: www.cityofportsmouth.com. As-builts for the Filter Building can be obtained. Questions may be addressed by visiting the Finance/Purchasing Department on the third floor at the above address, or by calling the Purchasing Coordinator at 603-610-7227. Addenda to this bid document, if any, including written answers to questions, will be posted on the City of Portsmouth website under the project heading.

Work may begin in accordance with the Notice to Proceed with work completed within 45 days once commenced. Liquidated damages shall be assessed at \$100.00 per day.

Bidders must determine the quantities of work required and the conditions under which the work will be performed. Bidders must have at least five (5) years of experience in the demolition profession.

The City of Portsmouth reserves the right to reject any or all bids, to waive technical or legal deficiencies, to re-bid, and to accept any bid that it may deem to be in the best interest of the City.

Each Bidder shall furnish a bid security in the amount of ten percent (10%) of the bid. The Bid Security may be in the form of a certified check drawn upon a bank within the State of New Hampshire or a bid bond executed by a surety company authorized to do business in the State of New Hampshire, made payable to the City of Portsmouth, N.H.

INSTRUCTIONS TO BIDDERS

BIDDING REQUIREMENTS AND CONDITIONS

1. Special Notice to Bidders and Addenda

Appended to these instructions is a complete set of bidding and general contract forms. These forms may be detached and executed for the submittal of bids. The plans, specifications, and other documents designated in the proposal form will be considered as part of the proposal, whether attached or not.

The bidders must submit a statement of bidder's qualifications, if requested, subsequent to bid opening but prior to award.

Addenda to this bid document, if any, including written answers to questions, will be posted on the City of Portsmouth website at <http://www.cityofportsmouth.com/finance/purchasing.htm> under the project heading. Addenda and updates will NOT be sent directly to firms. Contractors submitting a bid should check the web site daily for addenda and updates after the release date. Firms should print out, sign and return addenda with the proposal. Failure to do so may result in disqualification.

2. Interpretation of Quantities in Bid Schedules

The quantities appearing in the bid schedule are approximate only and are prepared for the comparison of bids. Payment to the contractor will be made only for actual work performed and accepted in accordance with the contract. Any scheduled item of work to be done and materials to be furnished may be increased, decreased or omitted as hereinafter provided, and no claim for loss, anticipated profits or costs incurred in anticipation of work not ultimately performed will be allowed due to such increase or decrease.

3. Examination of Plans, Specifications and Site Work

The bidder is expected to examine carefully the site of the proposed work, the plans, standard specifications, supplemental specifications, special provisions and contract forms before submitting a proposal. The submission of a bid shall be considered conclusive evidence that the bidder has made such examination and is satisfied as to the conditions to be encountered in performing the work and as to the requirements of the contract. It will be conclusive evidence that the bidder has also investigated and is satisfied with the sources of supply for all materials.

Plans, surveys, measurements, dimensions, calculations, estimates and statements as to the condition under which the work is to be performed are believed to be correct, but the contractors must examine for themselves, as no allowance will be made for any errors or inaccuracies that maybe found therein.

4. Familiarity with Laws

The bidder is assumed to have made himself or herself familiar with all federal and state laws and all local by-laws, ordinances and regulations which in any manner affect those engaged or employed on the work or affect the materials or equipment used in the work or affect the conduct of the work, and the bidder, if awarded the contract, shall be obligated to perform the work in conformity with said laws, by-laws, ordinances and regulations notwithstanding its ignorance thereof. If the bidder shall discover any provision in the plans or specifications which is in conflict with any such law, by-law, ordinance or regulation the bidder shall forthwith report it to the engineer in writing.

5. Preparation of Proposal

- a) The bidder shall submit its proposal upon the forms furnished by the Owner. The bidder shall specify a lump sum price in figures, for each pay item for which a quantity is given and shall also show the products of the respective prices and quantities written in figures in the column provided for that purpose and the total amount of the proposal obtained by adding the amount of the several items. All words and figures shall be in ink or typed. If a unit price or a lump sum bid already entered by the bidder on the proposal form is to be altered it should be crossed out with ink, the new unit price or lump sum bid entered above or below it and initialed by the bidder, also with ink.
- b) The bidder's proposal must be signed with ink by the individual, by one or more general partners of a partnership, by one or more members or officers of each firm representing a joint venture; by one or more officers of a corporation, by one or more members (if member-managed) or managers (if manager-managed) of a limited liability company, or by an agent of the contractor legally qualified and acceptable to the owner. If the proposal is made by an individual, his or her name and post office address must be shown, by a partnership the name and post office address of each general and limited partner must be shown; as a joint venture, the name and post office address of each venturer must be shown; by a corporation, the name of the corporation and its business address must be shown, together with the name of the state in which it is incorporated, and the names, titles and business addresses of the president, secretary and treasurer.

6. Nonconforming Proposals

Proposals will be considered nonconforming and may be rejected in the Owner's sole discretion for any of the following reasons:

- If the proposal is on a form other than that furnished by the Owner, or if the form is altered or any portion thereof is detached;
- If there are unauthorized additions, conditional or altered bids, or irregularities of any kind which may tend to make the proposal or any portion thereof incomplete, indefinite or ambiguous as to its meaning; or
- If the bidder adds any provisions reserving the right to accept or reject an award, or to enter into a contract pursuant to an award.

7. Proposal Guaranty

No proposal will be considered unless accompanied by a bid bond, surety, or similar guaranty of the types and in an amount not less than the amount indicated in the Invitation to Bid. All sureties shall be made payable to the "City of Portsmouth". If a bid bond is used by the bidder it shall be:

- In a form satisfactory to the Owner;
- With a surety company licensed, authorized to do business in, and subject to the jurisdiction of the courts of the State of New Hampshire; and
- Conditioned upon the faithful performance by the principal of the agreements contained in the sub-bid or the general bid.

In the event any irregularities are contained in the proposal guaranty, the bidder will have four business days (not counting the day of opening) to correct any irregularities. The corrected guaranty must be received by 4:00 p.m. If irregularities are not corrected to the satisfaction of the Owner, the Owner, in its sole discretion, may reject the bid.

8. Delivery of Proposals

When sent by mail, the sealed proposal shall be addressed to the Owner at the address and in the care of the official in whose office the bids are to be received. All proposals shall be filed prior to the time and at the place specified in the invitation for bids. Proposals received after the time for opening of the bids will be returned to the bidder, unopened.

9. Withdrawal of Proposals

A bidder will be permitted to withdraw his or her proposal unopened after it has been submitted if the Owner receives a request for withdrawal in writing prior to the time specified for opening the proposals.

10. Public Opening of Proposals

Proposals will be opened and read publicly at the time and place indicated in the invitation for bids. Bidders, their authorized agents, and other interested parties are invited to be present.

11. Disqualification of Bidders

Any or all of the following reasons may be deemed by Owner in its sole discretion as being sufficient for the disqualification of a bidder and the rejection of his proposal:

- More than one proposal for the same work from an individual, firm, or corporation under the same or different name;
- Evidence of collusion among bidders;
- Failure to submit all required information requested in the bid specifications;
- Unqualified to complete the work as demonstrated by previous project experience and reference checks;
- Lack of competency or of adequate machinery, plant or other equipment, as revealed by the statement of bidders qualification or otherwise;
- Uncompleted work which, in the judgment of the owner, might hinder or prevent the prompt completion of additional work if awarded;
- Failure to pay, or satisfactorily settle, all bills due for labor and materials on former contracts;
- Default or unsatisfactory performance on previous contracts;
- Less than five (5) years of experience in the demolition profession;
- Failure to be licensed by the State of New Hampshire to work on elevators; or
- Such disqualification would be in the best interests of the Owner.

AWARD AND EXECUTION OF CONTRACT

1. Consideration of Proposals

a) After the proposals are opened and read, they will be compared on the basis of the total price for all sections of work to be charged to perform the work and any such additional considerations as may be identified in the bid documents. The results of such comparisons will be immediately available to the public. In case of a discrepancy between the prices written in words and those written figures, the prices written in words shall govern. In case of a discrepancy between the total shown in the proposal and that obtained by adding the products of the quantities of items and unit bid prices, the latter shall govern.

b) The Owner reserves the right to reject any or all proposals, to waive technicalities or to advertise for new proposals, if, in the sole discretion of the Owner, the best interest of the City of Portsmouth will be promoted thereby.

2. Award of Contract

Within 30 calendar days after the opening of proposals, if a contract is to be awarded, the award will be made to the lowest responsible and qualified bidder whose proposal complies with all the requirements prescribed. The successful bidder will be notified, in writing, mailed to the address on his or her proposal, that his or her bid has been accepted and that the bidder has been awarded the contract.

The award shall not be considered official until such time that a Purchase Order, fully executed contract or an award letter has been issued by the Finance Director. No presumption of award shall be made by the bidder until such documents are in hand. Verbal notification of award is not considered official. Any action by the bidder to assume otherwise is done so at his/her own risk and the City will not be held liable for any expense incurred by a bidder that has not received an official award.

Determination of the lowest bidder will be based on the Base bid, or the Base Bid with any combination of Add Alternates the City deems to be in its best interest, for the work described on the bid proposal form.

Contract award is dependent upon available funds.

3. Cancellation of Award

The Owner reserves the right to cancel the award of any contract at any time before the execution of such contract by all parties without any liability of the Owner.

4. Return of Proposal Guaranty

All proposal guaranties, except those of the three lowest bidders, will be returned upon request following the opening and checking of the proposals. The proposal guaranties of the three lowest bidders will be returned within ten days following the award of the contract if requested.

5. Contract Bond

At the time of the execution of the contract, the successful bidder shall furnish:

- Labor and materials payment bond in the sum equal to 100 percent of the contract amount.

At the time of project completion, the Owner may, in its sole discretion, permit the Contractor to substitute a maintenance bond in lieu of holding retainage for the entire guaranty period. If a bond is furnished it shall meet the following criteria:

- The bond shall be in an amount equal to 20 percent of the contract amount. Such bond shall guarantee the repair of all damage due to faulty materials or workmanship provided or done by the contractor. The guarantee shall remain in effect for a period of one year after the date of final acceptance of the job by the Owner.

Each bond shall be: (1) in a form satisfactory to the Owner; (2) with a surety company licensed and authorized to do business and with a resident agent designated for services of process in the State of New Hampshire; and (3) conditioned upon the faithful performance by the principal of the agreements contained in the original bid. All premiums for the contract bonds are to be paid by the contractor.

6. Execution and Approval of Contract

The successful bidder is required to present all contract bonds, to provide proof of insurance, and to execute the contract within 10 days following receipt of the City's notification of acceptance of the bid. No contract shall be considered in effect until it has been fully executed by all parties.

7. Failure to Execute Contract

Failure to execute the contract and file an acceptable bond within 10 days after notification of acceptance of bid shall be just cause for the cancellation of the award and the forfeiture of the proposal guarantee which shall become the property of the Owner, not as a penalty, but in liquidation of damages sustained. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised as the Owner may determine at its sole discretion.

PROPOSAL FORM

Water Treatment Plant Deconstruction and Demolition Project

CITY OF PORTSMOUTH, N.H.

To the City of Portsmouth, New Hampshire, herein called the Owner.

The undersigned, as Bidder, herein referred to as singular and masculine declares as follows:

1. All interested in the Bid as Principals are named herein;
2. This bid is not made jointly, or in conjunction, cooperation or collusion with any other person, firm, corporation, or other legal entity;
3. No officer, agent or employee of the Owner is directly or indirectly interested in this Bid;
4. The bidder has carefully examined the sites of the proposed work and fully informed and satisfied himself as to the conditions there existing, the character and requirements of the proposed work, the difficulties attendant upon its execution and the accuracy of all estimated quantities stated in this Bid, and the bidder has carefully read and examined the Drawings, Agreement, Specifications and other Contract Documents therein referred to and knows and understands the terms and provisions thereof;
5. The bidder understands that the quantities of work calculated in the Bid or indicated on the Drawings or in the Specifications or other Contract Documents are approximate and are subject to increase or decrease or deletion as deemed necessary by the Portsmouth Engineer. Any such changes will not result in or be justification for any penalty or increase in contract prices; and agrees that, if the Bid is accepted the bidder will contract with the Owner, as provided in the Contract Documents, this Bid Form being part of said Contract Documents, and that the bidder will supply or perform all labor, services, plant, machinery, apparatus, appliances, tools, supplies and all other activities required by the Contract Documents in the manner and within the time therein set forth, and that the bidder will take in full payment therefore the following item prices; and
6. It is the intention of this contract that the items listed above describe completely and thoroughly the entirety of the work as shown on the plans and as described in the specifications. All other items required to accomplish the above items are considered to be subsidiary work, unless shown as a pay item.

PROPOSAL FORM (continued)

Contract award contingent upon available funding.

ADD ALTERNATES

At the owner’s option, and in accordance with the General Conditions, the following Alternates and Unit Prices shall be used for additions and/or deletions to the Scope of Work, and shall be inclusive of furnishing and installing of material, labor, trucking, overhead, profit, equipment, hoisting, engineering, scaffolding, power hookups, protection, shop drawings, taxes, permits, appliances, delivery and supervision and shall remain in effect until completion of the contract.

The Owner will inform the Contractor which Alternates, if any, will be added to the Base Bid prior to contract execution and bonding.

ADD ALTERNATES:

Bid Alternate #1: Deconstruct and remove six (6) carbon filtration and their supports, valves, piping and attachments as identified and marked by City of Portsmouth at the existing water treatment facility located on Grafton Road in Portsmouth. The vessels will contain approximately 50,000 pounds of non-hazardous granulated carbon which the contractor must remove and will become the contractor’s property upon removal.

\$ _____

Bid Alternate #2: Deconstruct and remove six (6) carbon filtration vessels and their supports, valves, piping and attachments as identified and marked by City of Portsmouth at the existing water treatment facility located on Grafton Road in Portsmouth. The vessels will contain approximately 50,000 pounds of non-hazardous granulated carbon which the contractor must remove and stockpile on site at a location identified by the City of Portsmouth.

\$ _____

Bid Alternate #3: Deconstruct and remove six (6) carbon filtration vessels and their supports, valves, piping and attachments as identified and marked by City of Portsmouth at the existing water treatment facility located on Grafton Road in Portsmouth. The vessels will be empty of material.

CONTRACT AGREEMENT

Water Treatment Plant Deconstruction and Demolition Project

THIS AGREEMENT made as of the ___th day of _____ in the year 2013, by and between the City of Portsmouth, New Hampshire (hereinafter called the Owner) and _____ hereinafter called the Contractor),

WITNESSETH; that the Owner and Contractor, in consideration of the mutual covenants hereinafter set forth, agree as follows:

ARTICLE I- Work - The Contractor shall perform all work as specified or indicated in the Contract Documents. The Contractor shall provide, at his expense, all labor, materials, equipment and incidentals as may be necessary for the expeditious and proper execution of the Project.

ARTICLE II - ENGINEER - The Director of Public Works or his authorized representative will act as Engineer in connection with completion of the Project in accordance with the Contract Documents.

ARTICLE III - CONTRACT TIME - Work will begin in accordance with the Notice to Proceed and work shall be completed within 45 days.

ARTICLE IV - CONTRACT PRICE - Owner shall pay Contractor for performance of the work in accordance with the Contract Documents as shown under item prices in the Bid Proposal. Contract Amount:
\$ _____

ARTICLE V - PAYMENT - Partial payments will be made in accordance with the Contract Documents. Upon final acceptance of the work and settlement of all claims, Owner shall pay the Contractor the unpaid balance of the Contract Price, subject to additions and deductions provided for in the Contract Documents.

ARTICLE VI - RETAINAGE - To insure the proper performance of this Contract, the Owner shall retain certain amounts in the percentage of the Contract Price and for the time specified as provided in the Contract Documents.

ARTICLE VII - LIQUIDATED DAMAGES - In event the Contractor fails to successfully execute the work within the specified contract time the Owner shall assess the Contractor liquidated damages in the amount of **one hundred dollars (\$100)** for each calendar day beyond the specified completion date for each section of work. Liquidated damages shall be deducted from the Contract Price prior to final payment of the Contractor.

CONTRACT AGREEMENT (continued)

ARTICLE VIII – CONTRACT DOCUMENTS – The Contract Documents which comprise the contract between Owner and Contractor are attached hereto and made a part hereof and consist of the following:

- 8.1 This Agreement
- 8.2 Contractor's Bid and Bonds
- 8.3 Notice of Intent to Award, Notice to Proceed
- 8.4 Instruction to Bidders
- 8.5 General Requirements, Control of Work, Temporary Facilities, Measurement and Payment
- 8.6 Insurance Requirements
- 8.7 Standard and Technical Specifications
- 8.8 Bid Alternates (if any), Scope of Work
- 8.9 Drawings, if any
- 8.10 Special Provisions, if any
- 8.11 Any modifications, including change orders, duly delivered after execution of this Agreement.

ARTICLE IX – TERMINATION FOR DEFAULT – Should contractor at any time refuse, neglect, or otherwise fail to supply a sufficient number or amount of properly skilled workers, materials, or equipment, or fail in any respect to prosecute the work with promptness and diligence, or fail to perform any of its obligations set forth in the Contract, Owner may, at its election, terminate the employment of Contractor, giving notice to Contractor in writing of such election, and enter on the premises and take possession, for the purpose of completing the work included under this Agreement, of all the materials, tools and appliances belonging to Contractor, and to employ any other persons to finish the work and to provide the materials therefore at the expense of the Contractor.

ARTICLE X – INDEMNIFICATION OF OWNER – Contractor will indemnify Owner against all suits, claims, judgments, awards, loss, cost or expense (including without limitation attorneys fees) arising in any way out of the Contractor's negligent performance or non-performance of its obligations under this Contract. Contractor will defend all such actions with counsel satisfactory to Owner at its own expense, including attorney's fees, and will satisfy any judgment rendered against Owner in such action.

ARTICLE XI – PERMITS – The Contractor will secure at its own expense, all permits and consents required by law as necessary to perform the work and will give all notices and pay all fees and otherwise comply with all applicable City, State, and Federal laws, ordinances, rules and regulations.

ARTICLE XII – INSURANCE – The Contractor shall secure and maintain, until acceptance of the work, insurance with limits not less than those specified in the Contract.

ARTICLE XIII – MISCELLANEOUS –

- A. Neither Owner nor Contractor shall, without the prior written consent of the other, assign, sublet or delegate, in whole or in part, any of its rights or obligations under any of the Contract Documents; and, specifically not assign any monies due, or to become due, without the prior written consent of Owner.
- B. Owner and Contractor each binds himself, his partners, successors, assigns and legal representatives, to the other party hereto in respect to all covenants, agreements and obligations contained in the Contract Documents.
- C. The Contract Documents constitute the entire Agreement between Owner and Contractor and may only be altered amended or repealed by a duly executed written instrument.

- D. The laws of the State of New Hampshire shall govern this Contract without reference to the conflict of law principles thereof.
- E. Venue for any dispute shall be the Rockingham County Superior Court unless the parties otherwise agree.

IN WITNESS WHEREOF, the parties hereunto executed this
AGREEMENT the day and year first above written.

LABOR AND MATERIAL PAYMENT BOND

(This format provided for convenience, actual Labor and Material Bond is acceptable in lieu, if compatible)

Bond Number _____

KNOW ALL MEN BY THESE PRESENTS:

that _____

as Principal, hereinafter called Contractor, and _____ (Surety Company) a corporation organized and existing under the laws of the State of

_____ and authorized to do business in the State of New Hampshire hereinafter called Surety, are held and firmly bound unto the City of Portsmouth, N.H. Obligee, hereinafter called Owner, for the use and benefit of claimants as herein below defined, in the

amount of _____ Dollars (\$ _____), for the payment whereof Principal and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, firmly by these presents.

WHEREAS, Principal has by written agreement dated _____ entered into a

contract with Owner for _____ in accordance with drawings and specifications prepared by the Public Works Department, 680 Peverly Hill Road, Portsmouth, N.H. 03801 and the Community Development, 1 Junkins Avenue, Portsmouth, NH 03801, which contract is by reference made a part hereof, and is hereinafter referred to as the Contract.

NOW, THEREFORE, THE CONDITION OF THIS OBLIGATION is such that the Principal shall promptly make payment to all claimants as hereinafter defined, for all labor and material used or reasonably required for use in the performance of the Contract and for the hire of all equipment, tools, and all other things contracted for or used in connection therewith, then this obligation shall be void, otherwise it shall remain in full force and effect, subject however, to the following conditions:

(1) A claimant is defined as one having a direct contract with the Principal or, with a subcontractor of the Principal for labor, material, equipment, or other things used or reasonably required for use in the performance of the Contract. "Labor and material" shall include but not be limited to that part of water, gas, power, light, heat, oil and gasoline, telephone service or rental of equipment applicable to the Contract.

(2) The above named Principal and Surety hereby jointly and severally agree with the Owner that every claimant as herein defined, who has not been paid in full before the expiration of a period of ninety (90) days after the date on which the last of such claimant's work or labor was done or performed, or materials were furnished by such a claimant, may sue on this bond for the use of such claimant, prosecute the suit by final judgment for such sum or sums as may be

LABOR AND MATERIAL PAYMENT BOND (continued)

justly due claimant, and have execution thereon. The Owner shall not be liable for the payment of any such suit or any costs or expenses of any such suit, and principal and surety shall jointly and severally indemnify, defend and hold the Owner harmless for any such suit, costs or expenses.

(3) No suit or action shall be commenced hereunder by any claimant:

(a) Unless Claimant, other than one having a direct contract with the Principal, shall have given notice to all the following:

The Principal, the Owner and the Surety above named, within six (6) calendar months after such claimant did or performed the last of the work or labor, or furnished the last of the materials for which said claim is made, stating with substantial accuracy the amount claimed and the name of the party to whom the materials were furnished, or for whom the work or labor was done or performed. Such notice shall be served by mailing the same by registered mail or certified mail, postage prepaid, in an envelope addressed to the Principal, Owner, and Surety, at any place where an office is regularly maintained for the transaction of business, or served in any manner in which legal process may be served in the State of New Hampshire save that such service need not be made by a public officer.

(b) After the expiration of one (1) year following the date on which Principal ceased all work on said contract, it being understood, however, that if any limitation embodied in this bond is prohibited by any law controlling the construction hereof, such limitation shall be deemed to be amended so as to be equal to the minimum period of limitation permitted by such law.

(c) Other than in a State court of competent jurisdiction in and for the county or other political subdivision of the State in which the project, or any part thereof, is situated, or in the United States District Court for the district in which the project, or any part thereof, is situated, and not elsewhere.

(4) The amount of this bond may be reduced by and to the extent of any payment of payments made in good faith hereunder, inclusive of the payment by Surety of mechanics' liens which may be filed on record against said improvement, whether or not claim for the amount of such lien by presented under and against this bond.

Signed and sealed this _____ day of _____, 20____. In the presence of:

(Witness) BY: _____
(Principal) (Seal)

(Surety Company)

(Witness) BY: _____
(Title) (Seal)

LABOR AND MATERIAL PAYMENT BOND (continued)

Note:

If the Principal (Contractor) is a partnership, the Bond should be signed by each of the partners.

If the Principal (Contractor) is a corporation, the Bond should be signed in its correct corporate name by its duly authorized Officer or Officers.

If this bond is signed on behalf of the Surety by an attorney-in-fact, there should be attached to it a duly certified copy of his Power of Attorney showing his authority to sign such Bonds.

There should be executed an appropriate number of counterparts of the bond corresponding to the number of counterparts of the Agreement.

MAINTENANCE BOND

At the Owner's election, a maintenance bond may be substituted for retainage at the completion of the project. If the Owner permits a maintenance bond, it shall be in the amount of Twenty **Percent (20%)** of the contract price with a corporate surety approved by the Owner. Such bond shall be provided at the time of Contract completion and shall guarantee the repair of all damage due to faulty materials or workmanship provided or done by the Contractor. This guarantee shall remain in effect for a period of one year after the date of final acceptance of the job by the Owner.

CONTRACTOR'S AFFIDAVIT

STATE OF _____:

COUNTY OF _____:

Before me, the undersigned, a _____
(Notary Public, Justice of the Peace)

in and for said County and State personally appeared, _____
(Individual, Partner, or duly authorized representative of Corporate)

who, being duly sworn, according to law deposes and says that the cost of labor, material, and equipment and outstanding claims and indebtedness of whatever nature arising out of the performance of the Contract between

CITY OF PORTSMOUTH, NEW HAMPSHIRE

and _____
(Contractor)

of _____

Dated: _____

has been paid in full for Construction of: **Water Treatment Plant Deconstruction and Demolition Project**

(Individual, Partner, or

INSURANCE REQUIREMENTS

Insurance shall be in such form as will protect the Contractor from all claims and liabilities for damages for bodily injury, including accidental death, and for property damage, which may arise from operations under this contract whether such operation by himself or by anyone directly or indirectly employed by him.

AMOUNT OF INSURANCE

- A) Comprehensive General Liability:
Bodily injury or Property Damage - \$2,000,000
Per occurrence and general aggregate
- B) Automobile and Truck Liability:
Bodily Injury or Property Damage - \$2,000,000
Per occurrence and general aggregate
 - b) Additionally, the Contractor shall purchase and maintain the following types of insurance:
 - c)
 - A) Full Workers Comprehensive Insurance coverage for all people employed by the Contractor to perform work on this project. This insurance shall at a minimum meet the requirements of the most current laws of the State of New Hampshire.
 - B) Contractual Liability Insurance coverage in the amounts specified above under Comprehensive General Liability.
 - C) Product and Completed Operations coverage to be included in the amounts specified above under Comprehensive General Liability.

ADDITIONAL INSURED

All liability policies (including any excess policies used to meet coverage requirements) shall include the City of Portsmouth, New Hampshire as named Additional Insured.

- 1) The contractor's insurance shall be primary in the event of a loss.
- 2) The Additional Insured endorsement must include language specifically stating that the entity is to be covered for all activities performed by, or on behalf of, the contractor, including the City of Portsmouth's general supervision of the contractor.
- 3) City of Portsmouth shall be listed as a Certificate Holder. The City shall be identified as follows:

City of Portsmouth
Attn: Legal Department
1 Junkins Avenue
Portsmouth, NH 03801

GENERAL REQUIREMENTS

SCOPE OF WORK

1. INTENT OF CONTRACT

The intent of the Contract is to provide for the construction and completion in every detail of the work described. The Contractor shall furnish all labor, materials, equipment, tools, transportation and supplies required to complete the work in accordance with the terms of the Contract. The Contractor shall be required to conform to the intent of the plans and specifications. No extra claims shall be allowed for portions of the work not specifically addressed in the plans and specifications but required to produce a whole and complete project, such work will be considered subsidiary to the bid items.

2. INCIDENTAL WORK

Unless specifically excepted in the Bid or Technical Specifications, incidental work items for which separate payment is not measured includes, but is not limited to, the following items:

- a. Daily clean up after job
- b. Signs
- c. Mobilization/Demobilization
- d.. Cooperation with other contractors and utility companies.

3. ALTERATION OF PLANS OR OF CHARACTER OF WORK

The Owner reserves the right, without notice to Surety, to make such alterations of the plans or of the character of the work as may be necessary or desirable to complete fully and acceptably the proposed construction; provided that such alterations do not increase or decrease the contract cost. Within these cost limits, the alterations authorized in writing by the Owner shall not impair or affect any provisions of the Contract or bond and such increases or decreases of the quantities as a result from these alterations or deletions of certain items, shall not be the basis of claim for loss or for anticipated profits by the contractor. The contractor shall perform the work as altered at the contract unit price or prices.

4. EXTRA WORK ITEMS

Extra work shall be performed by the Contractor in accordance with the specifications and as directed, and will be paid for at a price as provided in the Contract documents or if such pay items are not applicable then at a price negotiated between the contractor and the Owner or at the unit bid price. If no agreement can be negotiated, the Contractor will accept as payment for extra work, cost plus 15% (overhead & profit). Costs shall be substantiated by invoices and certified payroll. If the Owner determines that extra work is to be performed, a change order will be issued.

5. CHANGE ORDERS

The Owner reserves the right to issue a formal change order for any increase, decrease, deletion, or addition of work or any increase in contract time or price. The contractor shall be required to sign the change order and it shall be considered as part of the Contract documents.

6. FINAL CLEANING UP

Before acceptance of the work, the contractor shall remove from the site all machinery, equipment, surplus materials, rubbish, temporary utility connections, temporary structures, barricades and signs. All parts of the work shall be left in a neat and presentable condition. On all areas used or occupied by the contractor, regardless of the contract limits, the bidder shall clean-up all sites and storage grounds.

The items prescribed herein will not be paid for separately, but shall be paid for as part of the total contract price.

7. ERRORS AND INCONSISTENCY IN CONTRACT DOCUMENTS

Any provisions in any of the Contract Documents that may be in conflict with the paragraphs in these General Requirements shall be subject to the following order of precedence for interpretation.

1. Technical Specifications will govern General Requirements.
2. Plans and/or Shop Drawings will govern Technical Specifications, and General Requirements.

CONTROL OF WORK

1. AUTHORITY OF ENGINEER

(a) All work shall be done under supervision of the Engineer and to his satisfaction. The Engineer will decide all questions which may arise as to the quality and acceptability of materials furnished and work performed and as to the rate of progress of the work; all questions that may arise as to the interpretation of the plans and specifications; and all questions as to the acceptable fulfillment of the Contract by the Contractor.

(b) The Engineer will have the authority to suspend the work wholly or in part for such periods as he may deem necessary due to the failure of the Contractor to correct conditions unsafe for workers or the general public; for failure to carry out provisions of the Contract; for failure to carry out orders; for conditions considered unsuitable for the prosecution of the work, including unfit weather; or for any other condition or reason deemed to be in the public interest. The Contractor shall not be entitled to any additional payments arising out of any such suspensions.

(c) The Owner reserves the right to demand a certificate of compliance for a material or product used on the project. When the certificate of compliance is determined to be unacceptable to the Engineer, the Contractor may be required to provide engineering and testing services to guarantee that the material or product is suitable for use in the project, at its expense (see Sample of Certificate of Compliance).

2. PROTECTION AND RESTORATION OF PROPERTY AND LANDSCAPES

(a) The Contractor shall be responsible for all damage or injury to property of any character, during the prosecution of the work, resulting from any act, omission, neglect, or misconduct in his manner or method of executing the work, or at any time due to defective work or materials, and said responsibility will not be released until the project shall have been completed and accepted.

(b) When or where any direct or indirect damage or injury is done to public or private property by or on account of any act, omission, neglect, or misconduct in the execution of the work, or as a result of the failure to perform work by the Contractor, the Contractor shall restore, at its own expense, such property to a condition similar or equal to that existing before such damage or injury was done, by repairing rebuilding, or otherwise restoring as may be directed, or the Contractor shall make good such damage or injury in an acceptable manner.

(c) If the Contractor fails to repair, rebuild or otherwise restore such property as may be deemed necessary, the Owner, after 48 hours notice, may proceed to do so, and the cost thereof may be deducted from any money due or which may become due the Contractor under the contract.

(d) The Contractor shall use every precaution to prevent injury or damage to wires, poles, or other property of public utilities; trees, shrubbery, vegetation, and fences along and adjacent to the right-of-way, all underground structures such as pipes and conduits, within or outside of the right-of-way; and the Contractor shall protect and carefully preserve all property marks until an authorized agent has witnessed or otherwise referenced their location.

3. MAINTENANCE DURING CONSTRUCTION

The Contractor shall maintain the work during construction and until the project is accepted. This maintenance shall constitute continuous and effective work prosecuted day by day, with adequate equipment and workers to ensure that the structure is kept in satisfactory conditions at all times.

CONTROL OF WORK (continued)

4. SAFETY PRECAUTIONS

Upon commencement of work, the Contractor shall be responsible for initiating, maintaining and supervising all safety precautions necessary to ensure the safety of employees on the site, other persons who may be affected thereby, including the public, and other property at the site or adjacent thereto.

5. PERMITS

Other than the building (demolition) permit from the Town of Madbury, it will be the responsibility of the Contractor to obtain all permits required for this project, and for the operation of equipment in, or on, all city streets and public ways associated with this project.

6. BARRICADES, WARNING SIGNS AND TRAFFIC OFFICERS

(a) The Contractor shall provide, erect and maintain all necessary barricades, suitable and sufficient lights, danger signals, signs and other traffic control devices, and shall take all necessary precautions for the protection of the work and safety of nearby Building Occupants and the public. Work Areas shall be protected by effective barricades and signage. Obstructions shall be illuminated during hours of darkness. Suitable warning signs shall be provided to control and direct traffic in a proper manner, as approved by the engineer.

(b) The Contractor will be held responsible for all damage to the work due to lack of adequate controlling devices.

The work prescribed herein will not be paid for separately but will be paid for as part of the Contract Price unless specifically appearing as a bid item.

TEMPORARY FACILITIES

1. STORAGE FACILITIES

(a) The Contractor shall not store materials or equipment in a public right-of-way beyond the needs of one working day. Equipment and materials shall be stored in an approved location.

(b) The Contractor shall protect all stored materials from damage by weather or accident and shall insure adequate drainage at and about the storage location.

(c) Prior to final acceptance of the work all temporary storage facilities and surplus stored materials shall be removed from the site.

2. SANITARY FACILITIES

The Owner shall provide the Contractor with reasonable access to toilet facilities for the use of the workers employed on the work.

3. WATER FACILITIES

The Owner shall provide the Contractor with reasonable access to water facilities for construction operations.

4. TEMPORARY ELECTRICITY

The Owner shall provide the Contractor with reasonable access to electrical power necessary for construction operation at the site.

MEASUREMENT AND PAYMENT

1. MEASUREMENT OF QUANTITIES

(a) All work completed under the contract will be measured according to the United States standard measure.

(b) The method of measurement and computations to be used in determination of quantities of material furnished and of work performed under the contract will be those methods generally recognized as conforming to good engineering practice. Unless otherwise stated all quantities measured for payment shall be computed or adjusted for "in place" conditions.

(c) Unless otherwise specified, longitudinal measurements for area computations will be made horizontally, and no deductions will be made for individual fixtures having an area of 9 square feet or less. Unless otherwise specified, transverse measurements for area computations will be the dimensions shown on the plans or ordered in writing.

(d) Structures will be measured according to lines shown on the plans or as ordered unless otherwise provided for elsewhere in the specifications.

(e) In computing volumes of excavation, embankment, and borrow, the average end area method will be used. Where it is impracticable to measure by the cross-section method, acceptable methods involving three-dimensional measurement may be used. When measurement of borrow in vehicles is permitted, the quantity will be determined as 80 percent of the loose volume.

(f) In computing volumes of concrete, stone and masonry, the prismoidal method will be used. The term "ton" will mean the short ton consisting of 2,000 pounds avoirdupois.

(g) Except as specified below, all materials that are measured or proportioned by weight shall be weighed on scales which the Contractor has had sealed by the State or by a repairman registered by the Commissioner of Agriculture. All weighing shall be performed in a manner prescribed under the Rules and Regulations of the Bureau of Weights and Measures of the New Hampshire Department of Agriculture.

(h) Weighing of materials on scales located outside New Hampshire will be permitted for materials produced or stored outside the state, when requested by the Contractor and approved. Out-of-state weighing in order to be approved, must be performed by a licensed public weigh master or a person of equal authority in the state concerned on scales accepted in the concerned state.

(i) Each truck used to haul material being paid for by weight shall bear a plainly legible identification mark, and if required, shall be weighed empty daily at such times as directed.

(j) When material is weighed, the individual weight slips, which shall be furnished by the Contractor, for trucks, trailers, or distributors, shall show the following information: the date; the project; the material or commodity; the dealer or vendor; the Contractor or Subcontractor; the location of the scales; the vehicle registration number or other approved legible identification mark; the tare and net weights, with gross weights when applicable; and the weigher's signature or his signed initials.

(k) The right is reserved to weight any truck, trailer, or distributor, at locations designated, before and after making deliveries to the project.

MEASUREMENT AND PAYMENT (continued)

(l) Bituminous materials will be measured by the gallon or ton.

(m) When material is specified to be measured by the cubic yard but measurement by weight is approved, such material may be weighed and the weight converted to cubic yards for payment purposes. Necessary conversion factors will be determined by the Owner.

(n) The term "lump sum" when used as an item of payment will mean complete payment for the work described in the item.

(o) When a complete structure or structural unit (in effect, "lump sum" work) is specified as the unit of measurement, the unit will be construed to include all necessary fittings and accessories, so as to provide the item complete and functional. Except as may be otherwise provided, partial payments for lump sum items will be made approximately in proportion to the amount of the work completed on those items.

(p) Material wasted without authority will not be included in the final estimate.

2. SCOPE OF PAYMENT

(a) The Contractor shall receive and accept compensation provided for in the contract as full payment for furnishing all materials and for performing all work under the contract in a complete and acceptable manner and for all risk, loss, damage or expense of whatever character arising out of the nature of the work or the prosecution thereof.

(b) The Contractor shall be liable to the Owner for failure to repair, correct, renew or replace, at his own expense, all damage due or attributable to defects or imperfections in the construction which defects or imperfections may be discovered before or at the time of the final inspection and acceptance of the work.

(c) No monies, payable under the contract or any part thereof, shall become due or payable if the Owner so elects, until the Contractor shall satisfy the Owner that the Contractor has fully settled or paid all labor performed or furnished for all equipment hired, including trucks, for all materials used, and for fuels, lubricants, power tools, hardware and supplies purchased by the Contractor and used in carrying out said contract and for labor and parts furnished upon the order of said Contractor for the repair of equipment used in carrying out said contract; and the Owner, if he so elects, may pay any and all such bills, in whole or in part.

3. PAYMENT PROCEDURES

Submit Application for Payment after completion of Project closeout procedures with release of liens and supporting documentation. Include consent of surety to final payment and insurance certificates.

4. COMPENSATION FOR ALTERED QUANTITIES

(a) Except as provided for under the particular contract item, when the accepted quantities of work vary from the quantities in the bid schedule the Contractor shall accept as payment in full, so far as contract items are concerned, at the original contract unit prices for the accepted quantities of work done. No allowance will be made for any increased expense, loss of expected reimbursement, or loss of anticipated profits suffered or claimed by the Contractor resulting either directly from such alterations or indirectly from unbalanced allocation among the contract items of overhead expense on the part of the Bidder and subsequent loss of expected reimbursements therefore or from any other cause.

(b) Extra work performed will be paid for at the contract bid prices or at the price negotiated between the Owner and the Contractor if the item was not bid upon. If no agreement can be negotiated, the Contractor will accept as payment for extra work, cost plus 15% (overhead and profit). Costs shall be substantiated by invoices and certified payroll.

MEASUREMENT AND PAYMENT (continued)**5. PARTIAL PAYMENTS**

Partial payments will be made on a monthly basis during the contract period. From the total amount ascertained as payable, an amount equivalent to ten percent (10%) of the whole will be deducted and retained by the Owner until such time as the work receives final acceptance.

6. FINAL ACCEPTANCE

Upon due notice from the Contractor of presumptive completion of the entire project, the Owner or City Engineer will make an inspection. If all construction provided for and contemplated by the contract is found complete to his satisfaction, this inspection shall constitute the final inspection and the Owner or City Engineer will make the final acceptance and notify the Contractor in writing of this acceptance as of the date of the final inspection.

If, however, the City Engineer's inspection discloses any work in whole or in part, as being unsatisfactory, the Engineer will give the Contractor the necessary instructions for correction of such work, and the Contractor shall immediately comply with and execute such instructions. Upon correction of the work, another inspection will be made which shall constitute the final inspection provided the work has been satisfactorily completed. In such event, the City Engineer will make the final acceptance and notify the Contractor in writing of this acceptance as of the date of final inspection.

7. ACCEPTANCE AND FINAL PAYMENT

(a) When the project has been accepted and upon submission by the Contractor of all required reports, completed forms and certifications, the Owner will review the final estimate of the quantities of the various classes of work performed. The Contractor may be required to certify that all bills for labor and material used under this contract have been paid.

(b) The Contractor shall file with the Owner any claim that the Contractor may have regarding the final estimate at the same time the Contractor submits the final estimate. Failure to do so shall be a waiver of all such claims and shall be considered as acceptance of the final estimate. From the total amount ascertained as payable, an amount equal to ten percent (10%) of the whole will be deducted and retained by the Owner for the guaranty period. This retainage may be waived, at the discretion of the City, provided the required Maintenance Bond has been posted. After approval of the final estimate by the Owner, the Contractor will be paid the entire sum found to be due after deducting all previous payments and all amounts to be retained or deducted under the provisions of the contract.

(c) All prior partial estimates and payments shall be subject to correction in the final estimate and payment.

8. GENERAL GUARANTY AND WARRANTY OF TITLE

(a) Neither the final certification of payment nor any provision in the contract nor partial or entire use of the improvements embraced in this Contract by the Owner or the public shall constitute an acceptance of work not done in accordance with the Contract or relieve the Contractor of liability in respect to any express or implied warranties or responsibility for faulty materials or workmanship. The Contractor shall promptly remedy any defects in the work and pay for any damage to other work resulting therefrom which shall

MEASUREMENT AND PAYMENT (continued)

appear within a period of twelve (12) months from the date of final acceptance of the work. The Owner will give notice of defective materials and work with reasonable promptness.

(b) No material, supplies or equipment to be installed or furnished under this Contract shall be purchased subject to any chattel mortgage or under a conditional sale, lease purchase or other agreement by which an interest therein or in any part thereof is retained by the Seller or supplier. The Contractor shall warrant good title to all materials, supplies and equipment installed or incorporated in the work and upon completion of all work, shall deliver the same together with all improvements and appurtenances constructed or placed thereon by him to the Owner free from any claims, liens or charges. Neither the Contractor nor any person, firm or corporation furnishing any material or labor for any work covered by this Contract shall have the right to a lien upon any improvements or appurtenances thereon.

Nothing contained in this paragraph, however, shall defeat or impair the right of persons furnishing materials or labor to recover under any bond given by the Contractor for their protection or any rights under any law permitting such persons to look to funds due the Contractor in the hands of the Owner. The provisions of this paragraph shall be inserted in all subcontractors and material contracts and notice of its provisions shall be given to all persons furnishing materials for the work when no formal contract is entered into for such materials.

(c) At completion of the project, the Contractor to provide to the Owner written guarantee of one (1) year Workmanship warranty and a ten (10) year Manufacturer's warranty.

9. NO WAIVER OF LEGAL RIGHTS

(a) Upon completion of the work, the Owner will expeditiously make final inspection and notify the Contractor of acceptance. Such final acceptance, however, shall not preclude or stop the Owner from correcting any measurement, estimate, or certificate made before or after completion of the work, nor shall the Owner be precluded or be stopped from recovering from the Contractor or his Surety, or both, such overpayment as it may sustain by failure on the part of the Contractor to fulfill his obligations under the contract. A waiver on the part of the Owner of any breach of any part of the contract shall not be held to be a waiver of any other or subsequent breach.

(b) The Contractor, without prejudice to the Contract shall be liable to the terms of the Contract, shall be liable to the Owner for latent defects, fraud or such gross mistakes as may amount to fraud, and as regards the Owner's right under any warranty or guaranty.

10. TERMINATION OF CONTRACTOR'S RESPONSIBILITY

The termination of the contractor's responsibility shall occur whenever the improvement provided for by the Contract shall have been completely performed on the part of the Contractor and all parts of the work have been released from further obligations except as set forth in his bond and as provided in Section 8 above.

- - - END OF SECTION - - -

BID ALTERNATES

PART 1 - GENERAL

1.1 RELATED DOCUMENTS

- A. All of the Contract Documents, including the General Conditions, Bidding Documents, Contract Forms, Conditions of the Contract and, and General Requirements, apply to the work of this Section.
- B. Carefully examine all the Contract Documents for requirements that affect the work of this Section. The exact scope of this Section cannot be determined without a thorough review of all specification sections and other Contract Documents.

1.2 SUMMARY

- A. The Schedule of Alternates included in this Section lists all the Alternates that appear in the Contract Documents, and the Specification Sections, which are affected by each Alternate.
- B. For each of the alternates scheduled at the end of this Section, state the amount in the proposal to be added to or deducted from the Contract Sum for the work.
- C. Consult the individual Specification Sections for detailed requirements of each Alternate.

1.3 GENERAL INSTRUCTIONS

- A. Each Bidder shall be held fully responsible for examining the scope of the Alternates generally defined herein and for recognizing any modifications to his work caused by any Alternate.
- B. The Bid Alternate Price shall be complete cost, including overhead, profit, bonds, insurance, transportation, and all other costs connected with, or incidental to the work described.
- C. Alternates listed below in the Schedule of Alternates are listed in no particular order. The Contract will be awarded on the basis of the Base Bid only or the Base Bid plus Alternate 1, Base Bid plus Alternate 2, in any order the City deems in its best interest. Contract award contingent upon available funding.

1.4 ALTERNATES

- A. Definition: "Alternates" are alternate products, materials, equipment, systems, methods, units of work or major elements of the construction, which may, at the Authority's option and under the terms established by the Contract or Agreement, be selected for the work in lieu of the corresponding requirements of the Contract Documents.
- B. Alternate Requirements: A Schedule of Alternates is included at the end of this Section. Each alternate is defined using abbreviated language, recognizing that the Contract Documents define the requirements. Coordinate related work to ensure that work affected by each alternate is complete and properly interfaced with work of each selected alternate.

- C. Provide written proposals for each alternate on the Bid Form for Authority's consideration. Each proposal amount shall include the entire cost of the alternate portion of the work including overhead, profit, and other costs including cost of interfacing and coordinating the alternate with related and adjacent work.

1.5 SCHEDULE OF ALTERNATES

- A. Bid Alternate No. 1 – Remove six (6) large carbon filtration vessels from Pease Water Treatment Plant located on Grafton Rd, Portsmouth, NH.
 - 1. Work: Deconstruct and remove the tanks and their associated piping and support. Salvage as much of the material as possible, as described in the Base Bid information for Water Treatment Plant Deconstruction and Demolition Project. Added days may be added to the Contract Time to perform this Bid Alternate.
 - 2. Refer to the following Specification Sections for the work of Bid Alternate No. 1:
 - a) Section 011000 – “Summary”
 - b) Section 013000 – “Administrative Requirements”
 - c) Section 016000 – “Product Requirements”
 - d) Section 020500 – “Deconstruction”
 - e) Section 024119 – “Selective Structure Demolition”

SCOPE OF WORK

Contractor to furnish all labor and material required to demolish the old filter building at the Water Treatment Plant at Freshet Road, Madbury, NH. The demolition work will be based on the following detail of work:

A. BUILDING I.D:	Filter Building
B. BUILDING TYPE:	Concrete Block
C. CLASSIFICATION:	Municipal
D. FUNCTION:	Public Utility
E. SIZE:	12,777 gsf
F. DATE OF CONSTRUCTION:	1959 w/ 1973 addition
G. LEVELS:	Two floors above grade, one below
H. FOUNDATION:	Massive reinforced concrete
I. FAÇADE:	Brick and painted metal
J. DOORS:	Metal aluminum
K. WINDOWS:	Metal-framed single pane glass
L. ROOFING:	Built Up
M. VERTICAL CONVEYANCE:	One three-stop hydraulic elevator (decommissioned)
N. KNOWN HAZMAT:	Asbestos (in paint and transite panels) CFC (in a/c units and water cooler) Mercury (in bulbs and ballasts)

REUSE/RECYCLING GOAL

It is the Owner's goal that a maximum percent of the materials generated as waste during this project shall be recovered for salvage, reuse, or recycling, and that a minimum of the materials generated as waste shall be disposed of.

SUBMISSION OF PROPOSALS FOR DECONSTRUCTION AND WASTE MANAGEMENT

Complete deconstruction including:

1. Labor and equipment
2. Disposition by recycling or disposal of materials that are generated as waste during deconstruction (waste materials become property of contractor).

DEFINITIONS:

Deconstruction: The safe and systematic dismantling of a building or its components to reuse, resell and recycle items of value within.

Deconstruction Waste: Building materials and solid waste resulting from deconstruction operations that are not hazardous as defined in New Hampshire and EPA regulations. This term includes, but is not limited to, asphalt concrete, Portland cement concrete, brick, lumber, gypsum wallboard, cardboard and other associated packaging, roofing material, ceramic tile, carpeting, plastic pipe, and steel. The debris is identified in a subsequent Table of Recyclable Materials.

Deconstruction Plan: Plan generated by the Vendor that details and outlines all waste generated on site, management and disposition of waste and all recycling/ diversion/ reuse options. Plan will be used as the working document for disposition of all waste.

Recycling: The process of sorting, cleansing, treating and reconstituting materials for the purpose of using the altered form in the manufacture of a new product. Recycling includes the diversion of all materials from the landfill and includes the burning of wood waste as fuel. Recycling does not include burning, incinerating or thermally destroying of any other solid waste.

Reuse: The use, in the same or similar form as it was produced, of a material which might otherwise be discarded.

Salvage: Removal and preservation of useable building materials and products to be reused within the construction market.

Solid Waste Landfill: A landfill that accepts non-hazardous resources such as household, commercial, and industrial waste, resulting from construction, remodeling, repair, and demolition operations. A Solid Waste landfill must have a solid waste facilities permit from the State of New Hampshire.

SECTION 011000 - SUMMARY

PART 1 - GENERAL

1.1 SUMMARY OF WORK

- A. Deconstruct and demolish the old filter building at the water plant. Remove all necessary debris from the site, returning it to natural grade.
- B. After all materials are removed and the work site is leveled to grade, add no less than four inches (4") loam and seed the graded site.
- C. Hazardous material removal must be performed by Contractor. Contractor to remove and dispose of all hazardous materials, salvageable equipment and materials, and dispose of them in a legal, regulated manner. Contractor is responsible for the proper disposal of any hazardous materials removed during the work associated with this project.
- D. Contractor is responsible for obtaining all permits required for project, except as noted previously that the owner will obtain the demolition permit from the Town of Madbury.
- E. Work performed must meet all local & state building codes and requirements.

1.2 WORK RESTRICTIONS

- A. Owner may occupy space near the premises during construction. Clean up adjacent roadway areas and return to a useable condition at the end of each work period.
- B. During the project, Contractor will have limited use of area indicated as follows:
 - 1. All work will be done between 7:30 a.m. and 4:00 p.m., Monday to Friday. Weekend work must be formally requested, authorized by Owner in advance of any work.
 - 2. All work shall create minimal disruptions, if any, to city employees working in the water plant during time of construction.
- C. Welding and torch cutting within building is allowed with properly implemented exhaust and ventilation.
- D. Provide proper Federal, State, and local safety measures during demolition of all building components and handling of material.

1.3 WORK IN OTHER DIVISIONS AND BY OTHER CONTRACTORS

- A. The Owner shall provide for coordination of the activities of the Owner's own forces and of each separate contractor with the Work of the Contractor, who shall cooperate with them. The Contractor shall participate with other separate contractors and the Owner in reviewing their construction schedules. The Contractor shall make any revisions to the construction schedule deemed necessary after a joint review and mutual agreement. The construction schedules shall then constitute the schedules to be used by the Contractor, separate contractors and the Owner until subsequently revised.
- B. If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner or a separate contractor, the Contractor shall, prior to proceeding with that portion of the Work, promptly report to the Owner apparent discrepancies or defects in such construction that would render it unsuitable for such proper execution and results. Failure of the Contractor to so report shall constitute an acknowledgment that the Owner's or separate contractor's completed or partially completed construction is fit and proper to receive the Contractor's Work, except as to defects not then reasonably discovered.

SECTION 013000 - ADMINISTRATIVE REQUIREMENTS**PART 1- GENERAL****A. PROJECT MANAGEMENT AND COORDINATION**

- A. Conduct pre-demolition meeting onsite, prior to commencement of Project.
- B. Schedule and conduct progress meetings with Owner at Project site as needed, or as requested by Owner. Required attendance of each subcontractor or other entity concerned with current progress or involved with planning or coordination of future activities.

B. SUBMITTAL PROCEDURES

- A. Coordinate each submittal that require sequential activity.
 - 1. No extension of the Contract Time will be authorized because of failure to transmit submittals enough in advance of the Work to permit processing.
 - 2. Identify deviations from the Contract Documents.
 - 3. Submit three (3) copies of each submittal.
- B. Include the following information on each submittal:
 - 1. Project name.
 - 2. Date.
 - 3. Name and address of Contractor.
 - 4. Name and address of subcontractor or supplier.
- C. Owner will review each action submittal, mark as appropriate to indicate action taken, and return copies less those retained. Compliance with specified requirements remains Contractor's responsibility.
- D. Construction Schedule Submittal Procedure:
 - 1. Submit schedule within 10 days after date established for Commencement of the Work.
 - 2. Distribute copies to Owner and parties required to comply with dates.

PART 2 - PRODUCTS

2.1 ACTION SUBMITTALS – N/A

2.2 INFORMATION SUBMITTALS – N/A

END OF SECTION 013000

SECTION 01505 PROJECT WASTE MANAGEMENT

PART 1 - GENERAL

1.1 SUMMARY OF WORK

A. The disposition by recycling or disposal of materials that are generated as waste during deconstruction to attain the Owner's goal of a maximum amount of salvage, reuse, or recycling. Waste materials become property of contractor.

1.2 RELATED SECTIONS

A. SECTION 02050 - DECONSTRUCTION

1.3 MATERIALS OWNERSHIP

A. Demolished materials shall become the Contractor's property and shall be removed, recycled, or disposed from Project site by the Contractor in an appropriate and legal manner as dictated by the deconstruction plan approved by owner.

C. Arrange a meeting no less than fifteen (15) days prior to deconstruction with the Owner and Construction Manager to review any salvageable items to discuss Deconstruction Plan.

D. Storage or on-site sale of removed items or materials will not be permitted.

1.4 EXISTING CONDITIONS

A. The deconstruction contractor shall accept the building in the condition it exists **WHEN THEIR SCOPE OF WORK BEGINS.**

B. Asbestos has been identified in the building in spot locations. Contractor is responsible for all appropriate handling, reporting, monitoring and disposition of this material per State of New Hampshire regulations.

1. A copy of the survey identifying this material will be provided to the Contractor by the Owner prior to removal.

C. If at any time during deconstruction Contractor observes or suspects other hazardous material, work is to stop immediately. Owner's representative or Construction Manager shall be immediately notified and area is to be vacated.

1.5 DECONSTRUCTION WASTE MANAGEMENT PLAN

A. Prior to commencing the Work, estimate total Project waste to be generated.

1. Understand the types and quantities of materials under the Work that are anticipated to be feasible for on-site processing or source separation for re-use or recycling.

2. Understand the procedures that will be implemented to effect jobsite source separation, such as identifying locations where dumpsters for recyclable materials will be located, using signage to identify materials to be placed in dumpsters, etc.

3. Deconstruction Plan shall indicate how the Contractor shall achieve the maximum reuse/recycling rate noted at the beginning of this Section.

4. Deconstruction Plan will not otherwise relieve the Contractor of responsibility for adequate and continuing control of pollutants and other environmental protection measures.

1.6 SUBMITTALS

A. Contractor's schedule for deconstruction and waste management.

B. Contractor's Interim Reuse, Recycling, and Disposal Report(s)

1. Submit Contractor's Interim Reuse, Recycling, and Disposal Report in accordance PROJECT SECTION 02050 with each application for progress payment. Failure to submit the form and its supporting documentation will render the application for progress payment incomplete and delay progress payments. Include manifests, weight tickets, receipts, and invoices for re-used and recycled materials, specifically identifying the Project:

- a. Crushing of asphalt, brick and concrete for use on-site or off-site.
- b. Reuse of building materials or salvageable items.
- c. Recycling of source-separated materials and mixed debris at identified recycling facilities.
- d. Disposal of demolition waste, and/or other materials at a landfill or transfer station.
- e. Other (describe).

2. Contractor's Interim Reuse, Recycling, and Disposal Report must quantify all materials generated in the Work and their means of disposition, whether disposed in a solid waste landfill, incinerated in a permitted waste-to-energy or other incineration facility, or diverted from disposal through recycling or reuse.

a. Report disposal or recycling either in tons or in cubic yards for aggregate, brick, and concrete. All other recycled material shall be reported in tons: if scales are available at disposal or recycling facility, report in tons; otherwise, scale in on route. Report in units for salvage items when no tonnage or cubic yard measurement is feasible.

b. Provide legible copies of weigh tickets, receipts, or invoices that specifically identify the project generating the material. Said documents must be from recyclers and/or disposal site operators that can legally accept the materials for the purpose of re-use, recycling, or disposal: All end markets will be pre-approved by owner.

c. Indicate project title, project number, progress payment number, name of the company completing the Contractor's Report and compiling backup documentation, the printed name, signature, and daytime phone number of the person completing the form, the beginning and ending dates of the period covered on the Contractor's Report, and the date that the Contractor's Report is completed.

C. Contractor's Final Reuse, Recycling, and Disposal Report

1. Submit Contractor's Final reporting material with any supplementary supporting data related to recycling and disposal. Include manifests, weight tickets, receipts, and invoices for re-used and recycled materials, specifically identifying the Project.

2. Contractor's Final Reuse, Recycling, and Disposal Report will quantify:

- a. Crushing of asphalt and concrete for use on-site or off-site.
- b. Reuse of demolition waste, building materials or salvageable items.
- c. Recycling of source-separated materials and mixed debris at identified recycling facilities.
- d. Disposal of demolition waste, and/or other materials at a landfill or transfer station.

1.7 RESOURCES

A. The following sources may be useful in developing the Deconstruction Plan:

1. Institution Recycling Network (IRN), 7 South State Street, Concord, NH 03301 (Phone: 603-229-1962. Contact: Matthew McKinney Email: mmckinney@ir-network.com. Web: (www.ir-network.com) (www.wastemiser.com). IRN provides comprehensive planning and recycling services for all of the

materials listed above, including selection and placement of recycling containers, source separation procedures, transportation, and access to markets.

B. Leadership in Energy and Environmental Design (LEED) Rating section of the US Green Building Council website: www.usgbc.org/leed

PART 2 - MATERIALS (Not Used)

PART 3 - EXECUTION

3.1 DECONSTRUCTION, SALVAGE, RE-USE, AND RECYCLING PROCEDURES

A. Qualifications: Company must be experienced and specialized in deconstruction and building material reuse. Deconstruction, hand demolition or building material reuse and salvage must be at least 50 % of the company's primary activity.

B. Supervisor must be on site at all times work is being performed. Deconstruction Company must have a written safety plan and supervisor must be familiar with plan. Supervisor is responsible for all posted safety signage and barricades as well as safety procedures.

C. Develop and implement procedures to re-use, salvage, recycle, or dispose of all demolition materials, based on the Contract Documents, estimated quantities of waste materials, and availability of recycling facilities. Procedures may include re-use, on-site recycling; source separated recycling, and/or mixed debris recycling efforts.

1. Identify materials that are feasible for salvage or re-use, determine requirements for site storage, and transportation of materials to salvage or recycling facility.

2. To the maximum extent practicable, source separate and re-use or recycle excavation and demolition materials including, but not limited to the following types:

- a. Asphalt
- b. Concrete, concrete block, concrete masonry units (CMU)
- c. Asphalt Concrete
- d. Brick
- e. Paper, including bond, newsprint, cardboard, mixed paper, packing materials, and packaging
- f. Cement Fiber Products, including shingles, panels, siding
- g. Paint
- h. Rigid Foam
- i. Glass
- j. Plastics
- k. Furnishings
- l. Carpet and Pad
- m. Beverage Containers
- n. Insulation
- o. Gypsum Wallboard including demountable partitions
- p. Porcelain Plumbing Fixtures
- q. Fluorescent Light Tubes and ballasts

- r. Metal (ferrous and non-ferrous) including rebar.
- s. Wood, including clean dimensional wood, pallet wood, plywood, oriented strand board (OSB), particle board and doors
- t. Other materials as specific to this job
- D. Become familiar with the conditions for acceptance of demolition materials at recycling facilities, prior to delivering materials.
- E. Deliver to facilities that can legally accept demolition materials for purpose of re-use, recycling, composting, or disposal.
- F. Develop and implement a program to transport loads of mixed (commingled) demolition or construction materials that cannot be feasibly source separated to a mixed materials recycling facility.

3.2 DISPOSAL OPERATIONS AND WASTE HAULING

- A. Legally transport and dispose of materials that cannot be re-used on-site or off-site or delivered to a source separated or mixed recycling facility to a transfer station or disposal facility that can legally accept the materials for the purpose of disposal.
- B. Use a permitted waste hauler or Contractor's trucking services and personnel.
- C. Do not burn, bury or otherwise dispose of rubbish and waste materials on project site.

3.3 RE-USE AND DONATION OPTIONS

- A. Implement a re-use program to the greatest extent feasible. Options may include:
 - 1. Waste Exchanges
 - 2. Outlets such as The Maine Housing and Building Material Exchange

END OF SECTION 01505

SECTION 017000 - EXECUTION AND CLOSEOUT REQUIREMENTS

PART 1 - GENERAL

1.1 CLOSEOUT SUBMITTALS (Not Applicable)

PART 2 - PRODUCTS (Not Applicable)

PART 3 - EXECUTION

3.1 EXAMINATION AND PREPARATION – (Not Applicable)

3.2 CUTTING AND PATCHING – (Not Applicable)

3.3 INSTALLATION – (Not Applicable)

3.4 FINAL CLEANING

Complete the following cleaning operations before requesting inspection for certification of Final Acceptance: Clean Project site, yard, and grounds, in areas disturbed by construction activities. Sweep paved areas; remove spills and foreign deposits.

3.5 CLOSEOUT PROCEDURES

- A. Final Acceptance: Before requesting Final Acceptance inspection, complete the following:
 - 1. Prepare a list of items to be completed and corrected (punch list), the value of items on the list, and reasons why the Work is not complete.
 - 2. Advise Owner of pending insurance changeover requirements, if any.
 - 3. Submit specific warranties and similar documents.
 - 4. Submit final total of salvaged material versus waste.
 - 5. Submit Record Drawings, if any, and similar final record information.
 - 6. Remove temporary facilities and equipment.
 - 7. Complete final clean-up requirements.
- B. Submit a written request for inspection for Final Acceptance. On receipt of request, Owner will proceed with inspection or advise Contractor of unfulfilled requirements. Owner will prepare a certificate of Final Acceptance after inspection or will advise Contractor of items that must be completed or corrected before certificate will be issued.
- C. Submit request for re-inspection when the Work identified in previous inspections as incomplete is completed or corrected. On receipt of request, Owner will proceed with

inspection or advise Contractor of unfulfilled requirements that must be completed or corrected before final invoice will be processed.

3.6 DEMONSTRATION AND TRAINING – (Not Applicable)

END OF SECTION 017000

SECTION 02050 - DECONSTRUCTION

PART 1 - GENERAL

1.1 SUMMARY OF WORK

- A. The systematic disassembly of the Filter Building for the purpose of attaining the Owners goal of maximum salvage, reuse, or recycling, of the buildings material.
- B. All work in this section will be done in conjunction with best practices of Construction Waste Management.

1.2 WASTE MANAGEMENT GOALS FOR THE PROJECT

- A. The Owner has established that deconstruction for this Project shall be carried out in such a way as to salvage for reuse and recycling the largest amount of material possible. Processes shall be employed that ensure the prevention of damage to these materials due to mishandling, improper storage, contamination, inadequate protection or other factors.
- B. The work of this section shall be performed in conjunction with Section 01505 Project Waste Management.
- C. The option for reuse of salvaged materials is: Resale by Contractor off site.

1.3 SECTION INCLUDES

- A. Preparation and protection of materials to be salvaged.
- B. Dismantling of designated items and materials.
- C. Storage of salvaged items and materials.
- D. Distribution and removal from site of salvaged items and materials.

1.4 RELATED SECTIONS

- A. SECTION 01505 - PROJECT WASTE MANAGEMENT

1.5 QUALIFICATIONS

- A. Salvage or Deconstruction Firm: Company experienced and specializing in performing the Work of this Section with documented experience in similar types of deconstruction work. Deconstruction, hand demolition or building material reuse and salvage must be at least 50 % of the company's primary activity.
- B. Qualifications of Workers: Provide a Supervisor who shall be present at all times during the deconstruction work and who shall be thoroughly familiar with the work required and who shall direct all work. Provide one (1) person on site who is responsible for maintaining the safety barriers and protection of the workers and the public.

1.6 REGULATORY REQUIREMENTS

- A. Conform to applicable codes and regulations for deconstruction of buildings, safety of adjacent structures, dust control, and disposal and removal of common and hazardous waste. Refer also to Article 1.6 of this section.
- B. Codes and Regulations: Complete all deconstruction work according to the requirements of Municipal Building Codes, New Hampshire Department of Environmental Services, and all Federal OSHA and EPA Codes.

- C. Obtain required permits from authorities having jurisdiction.
- D. Notify the Owner and affected utility companies before starting Work, and comply with their requirements.
- E. Do not close or obstruct safety exits, adjacent sidewalks, hydrants, parking or storage areas without prior approval of Owner.
- F. Conform to applicable regulatory procedures when discovering hazardous or contaminated materials not documented prior to this Contract.
- G. Licensed facilities: Only those brokerage, storage, transfer and disposal facilities which comply with the requirements of the State of New Hampshire.

1.7 EXISTING CONDITIONS

- A. The Contractor shall accept the site as it exists and will be responsible for all deconstruction work as required.
- B. Asbestos containing material (ACM) has been identified in spot locations in the building. Contractor is responsible for all appropriate handling, reporting, monitoring and disposition of this material per State of New Hampshire regulations.
- C. The Contractor shall visit the site at his own expense prior to the submission of bids and must take whatever time is required to ascertain existing site conditions and surrounding features related to the proposed deconstruction, and ensure himself that conditions are suitable for execution of the Work.
- D. Where concealed conditions are revealed to be other than those indicated in the Contract Documents, the Contractor shall immediately inform the Construction Manager or Owners representative should such variance of conditions result in a contemplated change to the cost of the work. Should an alternate method of deconstruction or change of materials be appropriate, the Owner shall give his decision before the Work proceeds.
- E. If during the course of deconstruction Work, the Contractor observes or suspects the existence of hazardous materials in areas of the structure or components of the buildings not previously noted, the Contractor shall immediately stop work in the immediate area and notify the Owner who will, under separate contract, remove or encapsulate the hazardous materials.
- F. Handle and dispose of all hazardous materials in accordance with the Federal, State and Municipal regulations.

1.8 DECONSTRUCTION PLANNING

Contractor to provide owner with a Deconstruction Plan which shall include:

- A. Quantities for materials to be salvaged for reuse, recycled and sent for disposal.
- B. Destination of materials listed in A. above.
- C. Deconstruction methodology and sequencing.
- D. Schedule for deconstruction.

1.9 MATERIAL HANDLING

- A. Materials Handling Procedures: Prevent contamination of materials to be salvaged and handle materials consistent with requirements for acceptance by designated facilities. Refer to Section 01505 Project Waste Management.
- B. Materials to be salvaged shall be handled in the same manner as for similar new materials.

1.10 COORDINATION AND COOPERATION

- A. The Contractor shall take every common and reasonable precaution to avoid damage and minimize interruption to adjacent property and services. All costs associated with making good any damage and/or providing temporary service or protection shall be borne by the Contractor.

1.11 SUBMITTALS

- A. Submit deconstruction plan prior to start of work. Materials shall be quantified using industry standard units of measurement of each item, as noted in the attached sample Deconstruction Material Audit form or on a Contractor generated form containing the same information.
- B. Project Waste Summary: The Contractor shall submit with the final Application for Payment a summary of waste materials salvaged, recycled and disposed of by the Project using the Deconstruction Material Audit form appended to this specification or a form generated by the Contractor containing the same information. Submitted with this form will be documentation (receipts/scale tickets/waybills) showing the quantities and types of materials diverted and disposed. Failure to submit this information will render the application incomplete and will result in hold back of the final payment. The Summary shall contain the following information:
1. For each material salvaged and recycled from the Project, include the amount (in cubic yards or tons or in the case of salvaged items state quantities by number, type and size of items) and the destination (i.e. recycling facility or used building materials yard). For each material land filled or incinerated from the Project, include the amount (in cubic yards or tons) of material and the identity of the landfill, incinerator and/or transfer station.

PART 2 - PRODUCTS (Not Used)

PART 3 - EXECUTION

3.1 PREPARATION

- A. Notify utility locator service DIG SAFE 1-888-344-7233 for area where Project is located before excavating.
- B. Do not interrupt existing utilities serving facilities occupied by Owner. Provide temporary utility services as needed.
- C. Unauthorized excavation consists of removing materials beyond indicated subgrade elevations or dimensions without direction by Architect. Unauthorized excavation and remedial work shall be at Contractor's expense.
- D. Shut-off, disconnect, cap-off and seal all plumbing, mechanical, and electrical services, in accordance with the requirements of the authorities having jurisdiction, before starting deconstruction.
- E. Clearly mark location of all salvaged material's storage areas and provide and erect barriers and security devices as required.

3.2 PROTECTION

- F. Conduct operations with minimum interference to public or private accesses. Maintain protected egress and access at all times.
- G. Provide and maintain all legal and necessary guards, railings and warning signs during the execution of the work to fully protect all persons and Owner from loss, damage, death or injury through the neglect, carelessness or incompetence of the Contractor or his employees or the condition or handling of equipment.
- H. It is the Contractor's responsibility to ensure that the methods and equipment used to deconstruct the various areas do not exceed the safe loading capacity of the structure or cause unnecessary damage to sections of the structure which will form part of the finished work. Engage the services of a Professional Engineer if necessary to ensure the safe deconstruction of the work.
- I. The Contractor shall assume full responsibility for the design and adequacy of any temporary shoring and/or bracing required during deconstruction. Include all necessary signs, barricades and screens as required for the safety of the structure, third parties and workmen.
- J. Prevent debris from blocking items including, but not limited to, surface drainage inlets and systems, elevators, mechanical and electrical systems which must remain in operation.
- K. Prevent overloading of any part of the building.

L. Provide temporary enclosures for securing off of work and the maintenance of any services necessary to the proper and efficient operation of the project

3.3 DISMANTLING AND SALVAGE REQUIREMENTS

A. Remove and store materials to be salvaged, in a manner to prevent damage. Store and protect in accordance with requirements for maximum preservation of material. Handle all salvaged materials as new materials.

B. Materials that cannot be salvaged for reuse shall be source separated for recycling including wood, metal, concrete and asphalt. Refer to the Deconstruction Waste Management Plan for detailed recycling procedures.

C. Remove materials that cannot be salvaged or recycled and dispose of in accordance with applicable codes at licensed facilities.

D. Do not bury materials on site unless it can be processed for use as fill, is authorized by the Owner and meets all applicable Federal, State and Municipal codes and policies.

E. Ensure that before and during deconstruction the structure is protected from damage until that part of the structure is ready to be deconstructed.

F. Where applicable, at locations where reinforcing bars have been cut during deconstruction, mark ends with flag tape and then paint ends of bars with a highly visible color zinc-rich paint or pre-approved alternate.

3.4 STORAGE OF SALVAGED MATERIALS

A. Salvaged materials shall be stored in the same manner as for similar new materials.

B. Provide security and protective measures to protect the salvaged material from mishandling, theft, vandalism and fire.

C. All materials produced during the dismantling of these structures will be separated and stored in areas to be designated by the Owner. Refer also to the Pre-demolition Audit and Deconstruction Plan.

3.5 DISTRIBUTION AND REMOVAL OF SALVAGED ITEMS AND MATERIALS

A. Remove materials from deconstruction promptly as the work progresses. Materials may not be sold at the site.

B. The Contractor will prepare a project summary to verify the destination and quantities on a material-by-material basis as identified in the Pre-demolition Material Audit. Refer to Article 1.11 SUBMITTALS of this Section and SECTION 01505.

END OF SECTION 02050

SECTION 024119 - SELECTIVE STRUCTURE DEMOLITION

PART 1 - GENERAL

1.1 SECTION REQUIREMENTS

- A. Comply with EPA and State regulations and hauling and disposal regulations of authorities having jurisdiction.
- B. Owner will occupy buildings nearby to demolition area. Conduct demolition so Owner's operations will not be disrupted.

PART 2 - PRODUCTS (Not Applicable)

PART 3 - EXECUTION

3.1 DEMOLITION

- A. Maintain services/systems indicated to remain and protect them against damage during selective demolition operations. Before proceeding with demolition, provide temporary services/systems that bypass area of selective demolition and that maintain continuity of services/systems to other parts of the building.
- B. Locate, identify, shut off, disconnect, and cap off utility services and mechanical/electrical systems serving areas to be selectively demolished. Owner to be notified and assist in coordination of such actions.
- C. Provide temporary barricades and other protection required to prevent injury to people and damage to adjacent buildings and facilities to remain.
- D. Provide and maintain shoring, bracing, and structural supports as required to preserve stability and prevent movement, settlement, or collapse of construction and finishes to remain or construction being demolished.
- E. Promptly remove demolished materials from Owner's property and legally dispose of them. Do not burn demolished materials. This includes any hazardous materials requiring disposal, encountered during this project.
- I. Welding and torch cutting within building only allowed with prior Owner approval, and properly implemented exhaust and ventilation.
- J. Provide proper Federal, State, and local safety measures and work space requirements during installation of all elevator components and handling of material.

3.2 SITE RECOVERY

- A. At the completion of the project, the site where the building formerly was must be restored to a natural grass pasture conforming to the slope of adjacent terrain.
- B. Rubblized concrete from the filter building may be used to fill the below grade cavity of the building's foundation. The concrete, or any rock/gravel fill used, must be uniform in size and compacted in three-foot lifts. No rebar is to remain in the concrete, if used.

- C. Fill no less than four (4) inches of the top layer on the site with loam, and seed the site with grass seed appropriate for the climate and shading.

END OF SECTION 024119
