After the start of school, the School Department has the right to add in-district students to existing route structures without additional cost, providing the total number of students is within the parameters of this Contract and the requested change or addition can be handled within the capacity of the existing system and the assigned vehicle(s). Any necessary route changes that require additional cost for the system shall be discussed with and approved by the School Department prior to implementation. The Contractor shall be allowed three working days following the mutually agreed upon request to implement the requested change. When a route change is requested because extreme conditions exist which affect the welfare of a student or his/her family, the Contractor shall make an effort to accommodate the School Department-approved change in less than three days.

The School Department has the right to request maintenance on any bus it believes to be in need of service; however, the maintenance and care of the vehicles shall be the responsibility of the Contractor. Vehicle age is determined by subtracting the chassis year of the vehicle from the year of the contract (calculated on September 1st of each year). For example, a bus with a 2009 chassis year, at the beginning of this contract period (7/1/17) would be considered 8 years old. Vehicle ages will be calculated each contract year and the Contractor will provide the School Department with a detailed fleet listing by September 15th of each school year stipulating that they meet this age criteria.
- E. The Contractor shall work with the School Department throughout the term of the contract to explore future technology and vehicles that might assist the School Department or the residents.

In such cases the Contractor shall work with the School Department's representative and any other appropriate enforcement agency to resolve existing issues as quickly as possible. The Contractor shall enforce the reasonable rules and regulations of the School Department as they pertain to student transportation and shall abide by the provisions of NH RSA 189:9-a.
