Note: Vendor inadvertently entered on their price proposal page \$191,665.00 for the truck which actually is the price of the truck minus the trade-in amount of 10,000.00. Included in the bid was the actual quotation showing the truck total as \$201,665.00. The total price of \$198,916.00 is the price of the truck minus the trade-ins plus warranties. The total price of \$198,916.00 is correct and was entered correctly as the total bid amount
