

Addendum #1

RFP #45-15  
Data Management Software – Sewer Division

Issued: February 2, 2015

This addendum forms part of the original document marked: RFP#45-15 “Data Management Software – Sewer Division.”

The following questions have been asked and answered:

Q: Is your organization looking for a LIMS?

A: As stated in the RFP the City is seeking to implement a wastewater data management software application to consolidate information for the purposes of regulatory reporting and data analysis at its Wastewater Treatment Facilities. The data management software request is not limited to the laboratory component.

Q: How many users would access the system concurrently?

A: Four users.

Q: On page 5, Part 2” Complete Vendor Customer References Form” does this mean that the “Vendor Customer References” –page 6 needs to be completed using the original form and is it necessary to put all references on one form?

A: Page 6 “Vendor Customer References” does need to be completed and submitted as part of your proposal. Vendors may make a replica of page 6 within their proposal for each reference, or may use the original page 6 for each reference. All the references do not need to be on one page.

Please acknowledge this addendum within your proposal. Failure to do so may subject a vendor to disqualification.
