ADDENDUM NUMBER 1:

Lafayette Road Pump Station Upgrade RFP #53-14

Issued: February 26, 2014

This Addendum forms part of the original document marked: RFP #53-14 Request for Proposal Design Engineering Services Lafayette Road Pump Station Upgrade

A. Available Information:

Information was not available at the pre-proposal meeting but was distributed by email after the meeting.

B. Man-Hour Level of Effort:

Consultant's man-hour level of effort shall include design related subconsultants (e.g. architectural, structural, geotechnical, etc.). Field services do not need to be included (e.g. survey, borings, etc.) in the man-hour level of effort.

C. Schedule:

Final schedule to be negotiated based on the final scope of services. Consultant does not need to meet the August 2014 schedule.

D. Additional Information:

All questions shall be submitted to Terry Desmarais, City Engineer, by 4:30 PM on February 28, 2014.

E. Questions - The following questions have were asked and answered at the meeting:

- Question #1 Does the existing force main need to be replaced?
- Answer #1 Replacement of the force main has not been considered at this time.

 Consultant should indicate if this is recommended. The capacity of the force main will need to be considered if significant changes in pump capacity are determined to be necessary.
- Question #2 Has a hazardous materials survey been conducted?
- Answer #2 The consultant can assume that a hazardous materials survey has not been conducted.
- Question #3 How much land area is available at the site?
- Answer #3 See attached figure from the City's GIS system.

F. Mandatory Pre-Bid Sign in Sheet

See attached Sign in Sheet from Mandatory Pre-bid Meeting.

Please acknowledge receipt of this addendum within your proposal. Failure to do so may subject a bidder to disqualification.

End of Addendum #1
