

ADDENDUM NUMBER 1:

**RFP#72-15
MUNICIPAL SOLID WASTE & RECYCLING SERVICES**

Issued: June 19, 2015

This Addendum forms part of the original document marked: **RFP #72-15 Municipal Solid Waste & Recycling Services.**

The following questions have were asked and answered.

- What is the permit to transfer tonnage from recycling center?
 - 30 tons of material per day, or 210 a week.
- Is it necessary to provide hazardous waste permit for insurance requirements?
 - Page 7, last sentence of the first paragraph “Contractor shall also maintain such additional insurance as may be required by the State of New Hampshire for hazardous waste transporters.” Since we are just asking for providers to handle solid waste and recycling, we can delete the hazardous waste requirement.
- Can you provide existing contracts and their pricing for both hauling and disposal?
 - Existing contracts and pricing are public records and can be obtained under right to know by contacting legal.
- Can you provide the pre-proposal meeting sign in sheet?
 - Yes – see attached.
- Will the proposals be open to the public?
 - No. The proposal information will be available to the public after an award had been made.
- Please provide spreadsheet of weights for MSW and Single Stream Recycling.
 - See attached.
- On the RFQ page 5 under section 3 Services: Hauling of MSW, Bulky Waste and Recyclables from the City’s Recycling Center and Schools. What schools and what is the current level of service? (Front load containers or roll off containers)
 - Schools with recycling are Little Harbor, Dondero, New Franklin, Portsmouth Middle School and Portsmouth High School. They all currently have one 6 to 10 yard front loading dumpster with the exception of the High School which has two dumpsters. We are open to suggestions for containers other than front loading dumpsters.

All else remains unchanged.

Please acknowledge this addendum within your proposal. Failure to do so may subject a bidder to disqualification.

End of Addendum #1
