Chairperson Emerson convened the meeting and recognized Mr. Moore who provided a summary to date of the process for the Public Service Agency Grant program for FY 2010-2011. He noted that a final entitlement grant figure was still not yet known and that, as a result, the Committee may choose not to make its final recommendations at this time, but wait until a subsequent budget meeting to be held in early April.

A discussion about the merits of each application for funding was held. The committee agreed all of agencies who submitted applications were worthy agencies that perform valued services for people who earn eligible incomes. A discussion related to the limited availability of funds also took place. At the end of the meeting, no final decision was made related to a recommendation for the award recipients.

Chairperson Emerson adjourned the meeting at 7:00 p.m.
