

SCOPE OF WORK

_____ is soliciting proposals from firms and individuals (Applicants) and is seeking to hire an Advocate to provide professional lobbying services for the next biennium, January 2021 through December 2022.

The selected Applicant will include the following minimum services outlined below.

Responsibilities of Advocate: To represent the interests of the Coalition Communities 2.0 before the New Hampshire General Court during the 2021-2022 biennium. Specifically, the Advocate shall advocate for, provide information about and oppose selected bills which are introduced during the session that address education funding primarily through an increase in SWEPT and/or local property tax which would create an education funding formula that returns to a donor and receiver town education funding concept. The Advocate shall carry out their responsibilities consistent with the legislative rules governing the conduct of lobbyists in New Hampshire. It is further expected that, when necessary, the Advocate will participate remotely or be physically present at the legislature to attend hearings, discuss bills with legislative members, and testify on pending matters. The Advocate will regularly communicate on activities to the Joint Board of the Coalition Communities 2.0 and work with its members to create communication plans and strategies for messaging and outreach to oppose donor/receiver education funding legislation.
