

PEIRCE ISLAND COMMITTEE MEETING MINUTES APRIL 27 2021

1. We were told that the restoration of the existing trails would be done in the future after people started using them over the summer, it will be done as a maintenance project.
2. Terry gave an update on the lower parking lot and the areas that are to be reseeded.
3. We all agreed that the fence should be 42" chain link and the committee would try to get volunteer help to brush out the short section of trail going down the hill instead of putting it out to bid.
