

531 Islington Street Dunkin Donuts

Dear Historic District Commission,

April 3, 2022

It's hard to tell if there will be any positive historical changes to the exterior of the building based on **Plan A3.3**. It looks like vertical lines of beige accordion wrap will become horizontal with pinks and oranges added to them. The tan walls will become gauntlet gray. The middle orange line will stay and the top will be replaced by a charcoal gray line. The windows look like they are staying the same. Front sign will remove the word donuts.

Included below are pictures of other Dunkin Donuts, to assist with some ideas which could be incorporated into the presented design a little. The first picture is in Hanover, NH.

Sincerely,

Elizabeth Bratter
