Impact on the Operating Budget

Description of box labeled “Impact on Operating Budget” is as follows:

1. Reduce: Will Generate Revenue and/or Reduce Operating Cost

The project will generate some revenue to offset expenses and/or will reduce operating costs.

2. Negligible: < \$5,001

The project will generate less than \$5,001 per year in increased operating expenditures.

3. Minimal: \$5,001 to \$50,000

The project will generate between \$5,001 and \$50,000 per year in increased operating expenditures.

4. Moderate: \$50,001 to \$100,000

The project will generate between \$50,001 and \$100,000 per year in increased operating expenditures.

5. High: \$100,001+

The project will generate \$100,001 or more per year in increased operating expenditures.

SECTION I: INTRODUCTION

What is the CIP?

The Capital Improvement Plan (CIP) is both a financial and infrastructure planning tool that sets forth a multi-year schedule and financing strategies for accomplishing public capital projects that both maintain safe, quality city infrastructure and assist in the achievement of Citywide Goals.

Careful development of and adherence to the CIP ensures that needed facilities are provided within the City's financial capability. In combination with the annual City budget, the CIP has a significant impact on the allocation of fiscal resources and is thus one of the most important documents considered by both the Planning Board and the City Council.

What is the Purpose of the CIP?

- Implement needed improvements on a scheduled basis by:
 - Providing a comprehensive picture of the City's major development needs;
 - Coordinating activities of various City departments and agencies; and
 - Assisting with implementing recommendations of the City's Master Plan.
- Guides the allocation of fiscal resources by:
 - Establishing fiscal priorities for projects; and
 - Balancing the use of funding sources.
- Help plan for future City expenditures by:
 - Discouraging piecemeal improvements and duplication of expenditures.
- Ensure that needed facilities are provided within the City's financial capability by:
 - Informing the taxpayers of anticipated future improvements; and
 - Helping to schedule major projects to reduce fluctuations in the tax rate.
- Maintains an accessible and inclusive process for City residents by:
 - Welcoming residents to submit project requests during the CIP process;
 - The 6-year plan lays out upcoming capital needs and informs residents to proposed future major capital expenditures; and
 - Public input opportunities allow the public to comment on how capital monies are spent.

What qualifies as a CIP project?

A capital improvement project is defined as a major fiscal expenditure that typically falls into one or more of the following categories:

- ✓ Land acquisition;
- ✓ Construction or expansion of a public facility, street, utility, or public infrastructure;
- ✓ Rehabilitation of a public facility or public infrastructure provided the cost is \$50,000 or more;
- ✓ Design work or planning study related to a capital project or implementation of the Master Plan;
- ✓ Any item or piece of equipment, non-vehicular in nature, that costs more than \$50,000 and has a life expectancy of five (5) or more years; or
- ✓ Replacement and purchase of vehicles that have a life expectancy of more than five (5) years or cost more than \$50,000.

What is Infrastructure?

Infrastructure is the basic physical structures and facilities (i.e. city buildings, roads, sewer pipes, water systems, parks, etc.) needed for the operation of a municipality. Infrastructure impacts the public health, safety, and quality of life of the City's Community.

How is the CIP organized?

- Introduction – Introduces the document and its content to the reader and assists them in locating the information they desire for each proposed project.
- Method of Financing – Describes each of the funding sources proposed to enable the completion of each CIP Project.
- Financial Summary – Detail financial summaries of the proposed projects within this document including an overall summary, capital outlay (general fund, pay-as-you-go funding), and debt schedule (borrowing).
- Project Element Sheets – Each project is featured in a one-to-two-page element sheet that details key information such as project timing, cost, and funding source. Projects are divided into six (6) different categories.
- Appendices:
 - *Appendix I - Citizen Requests* - All Citizen requested projects are listed in this appendix and feature, the Submitter's name and Project Requested as well as Staff Assessments regarding that request.
 - *Appendix II - NHDOT Portsmouth Projects* – This appendix features a list of projects occurring within the Portsmouth city limits but are funded and operated by the State of New Hampshire.
 - *Appendix III - Studies Listed within the CIP* – This appendix is a list of the studies cited throughout the document (many of which are linked to the studies posted online).
 - *Appendix IV - Historic Document Restoration Index* – A list of the City's Permanent Financial Documents requiring restoration as well as their proposed costing for restoration and preservation.
 - *Appendix V - Ward Maps* – Maps of each of the five (5) city wards: Each ward features a Facilities & Parks Map and a Sewer & Water Facilities Map as well as a list of streets in each ward.

Capital Improvement Plan Projects - the CIP Projects are split into six (6) distinct sections:

(VE) Vehicles and Equipment Projects that fund the purchase of a vehicle or piece of non-vehicular equipment.	(BI) Buildings and Infrastructure Projects that support or augment the infrastructure of the City's buildings, parks, playgrounds, and more.
(IS) Information System Projects that include the purchase or improvement of the information technology needs of the City.	(TSM) Transportation Systems Management Projects that invest in the City's vehicular, bicycle and pedestrian throughways.
(EF) Enterprise Funds Projects that support or expand the City's infrastructure to provide high quality drinking water and/or collect wastewater.	(COM) Combined Funding Projects Projects that require more than one funding source (General Fund, Enterprise Fund).

What information is on the Project Elements Sheet?

Each projects has its own Project Elements Sheet featuring a wealth of information about each individual project proposal. The sample sheet below has numbers indicating specific features about the elements sheet that are described in detail below.

VE-07-FD-01: Ambulance Replacement Program

③ Department	Fire Department
④ Project Location	Station 2 (2010 Lafayette Road)
⑤ Project Type	Replacement or Purchase of Vehicle
⑥ Commence FY	Ongoing
⑦ Priority	O (ongoing or programmatic)

CAPITAL IMPROVEMENT PLAN FY 25-30 185

The FY25 Capital Improvement Plan (CIP) Process

The CIP Process

The Capital Planning process is coordinated by the Finance and Planning Departments under the direction of the City Manager.

Who develops the CIP?

Portsmouth Residents

City of Portsmouth residents are invited to submit projects to the Capital Improvement Plan. Submissions are analyzed by applicable departments and are submitted for review by a subcommittee of the City Council. The Subcommittee determines which projects should be placed in the capital plan within the allotted time frame. All Citizens Requests are listed in Appendix I of the CIP.

Departments and Divisions

City staff utilize studies, master plans, needs assessments and other Capital Planning documents to determine capital needs. Staff also review regulatory requirements and the public health needs of the City and submit appropriate projects to ensure compliance.

In addition to submitting new capital projects, staff reassess all existing and/or ongoing CIP projects on an annual basis. Each year, every project is updated as needed for changes to project costs, timeline or scope. Significant changes to the funding requests or timeline of a project from the prior year's CIP are noted on the project sheet.

Prioritization of the Projects

After City Department Heads submit their capital project requests, an Advisory Committee of the Planning Board meets with department representatives to review these requests. The committee then evaluates and prioritizes each request and makes recommendations to the Planning Board.

The following factors are considered when prioritizing projects:

- **Project requirements** – Is the project required to meet legal, compliance, or regulatory requirements?
- **Timing** – How soon does the project need to be implemented to address the needs identified?
- **Strategic alignment** – To what extent is the project aligned with other City projects, policies, processes?
- **Public value** – How much value does the outcome of this project provide to the general public? How much public support is there for implementing this project?
- **Finance planning** – Is the project fundable in the time frame identified, are there available funding sources for this project?

Why are projects removed from the Capital Improvement Plan?

CIP projects remain in the document while they still require funding. Projects are removed from the document for two reasons:

- 1) The Project has been fully funded. No fully funded projects remain in the document.
- 2) The project is no longer feasible, desired within the timeline, or needs a re-evaluation/rework before being part of the Capital Improvement Plan.

As the majority of projects move forward from planning (CIP) to implementation they are placed on the City's project page on the website: portsnh.co/projects

The Finance Department incorporates the Advisory Committee's recommendations into a recommended Capital Improvement Plan which is reviewed and recommended to the City Council for Adoption by the Planning Board.

The CIP is conveyed to the City Council for a work session, a public hearing, and adoption in accordance with City Charter requirements. Projects are reviewed and prioritized in accordance with state and federal laws, public health and safety needs, City infrastructure plans and the City Council's Citywide Goals. After adoption, all applicable projects (those that affect the upcoming budget cycle) are conveyed from the Capital Improvement Plan to the City Manager's Proposed Budget. These Capital items are then reviewed and prioritized throughout the budget process and finalized in tandem with the Budget adoption process.

All projects that are in the Capital Improvement Plan but are not fully funded in the upcoming budget year may change in the subsequent Capital Plan due to changes in the project's cost, timeline, scope, or priorities.

Changing the CIP

It is vital to remember that the CIP is both a budgeting tool and a planning tool that looks well into the future. The document is not static, even after its adoption, but remains fluid and nimble to adjust with each passing year for a number of reasons (i.e. project costs change, timeline change due to other projects, policy changes, funding capabilities, priority changes, etc.). In order for the CIP to remain relevant and effective, it must reflect these changes.

How is the CIP changed?

Changes Made by Department Heads/City Staff:

- Before the start of the new CIP cycle, the City Manager asks the departments to review every project and adjust the costs, timeline or other parameters with up-to-date information. If the changes are drastic, they are noted on the project's element sheet.

Changes Made by the Planning Board

- The Planning Board Advisory Committee may recommend changes to the Capital Improvement Plan after they review the projects with the departments.
- The Planning Board may request changes of the departments during their work session. These changes must be voted on and agreed to by a majority of the Board Members.

Changes Made by the City Council

- The City Council may vote on changes to the CIP during their Work Session or Adoption of the CIP. A councilor can make a motion to change, add, or subtract a project in any way but it must be adopted by a majority of the council in order to amend the document.
- The City Council may make adjustments to the CIP during the budget process, especially to those projects that affect the budget year in question, through a majority vote of the council.

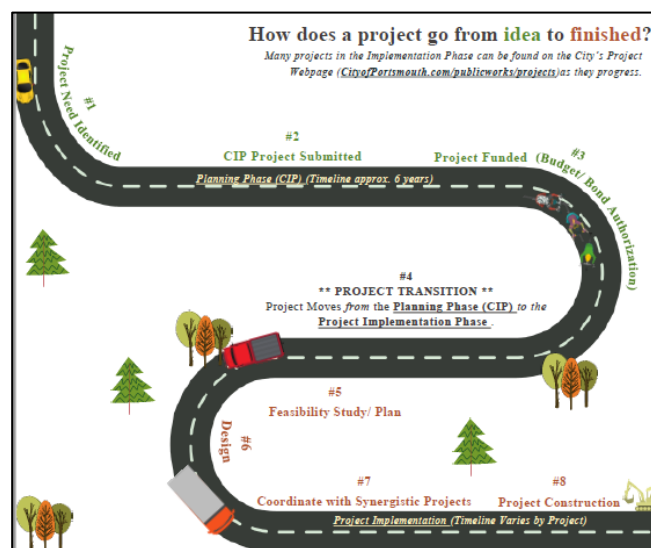

The CIP's Relation to the Budget

The Capital Improvement Plan is a vital part of the City's budget process. It is important to note that the document itself does not appropriate nor promise any funding to any projects. Approval of the CIP by the Planning Board or the City Council does not grant final approval for any, or all, of the projects contained in the plan. Instead, these actions demonstrate acknowledgement of the plan for these upcoming community capital needs by the Planning Board and City Council. Future year appropriations will be revisited in subsequent capital plans and budget processes.

The capital plan is instrumental to the development of the annual budget. Projects proposed for funding by the General Fund for the upcoming fiscal year are included in the budget process for review by the staff and, eventually, by the City Council. The City Council can add, subtract or alter the capital plan throughout the budget process through a majority vote of the Council. The capital plan is finalized after the passing of the budget in June. This finalized capital plan only speaks to the funding and plans for the upcoming fiscal year, no funds are committed to future fiscal years. Projects that require bonding (borrowing) are required to come back before the council for additional borrowing authorizations and two-thirds (2/3) vote by the City Council.

What Happens to a Project after the CIP?

- After a project is fully funded through the Capital Planning process, its element sheet is removed from the Capital Improvement Plan.
- Projects that are funded transition to the implementation phase (see the Quick Guide for more explanation on next steps). The implementation phase includes a multitude of phases including the planning/feasibility study phase, design, permitting, coordination with other projects and/or entities, and project construction. Not every project is able to seamlessly travel this path without sometimes going back for further funding or repeating a phase (such as planning/studies) for necessary information.
- Many projects then receive their own project page on the City's website that allow residents to sign up for project updates. portsnh.co/projects

New Projects Added to the CIP in FY25

These are projects that are being introduced for the first time in this FY25 CIP. Not all of the new FY25 projects are proposed to be funded in FY25.

FY25 Project Number	Project Name
Vehicles and Equipment (VE)	
VE-25-FD-03	Vehicle Replacement - Marine 1
VE-25-FD-06	Vehicle Replacement - Engine 3
VE-25-PD-09	Taser Replacement Cycle
VE-25-PD-10	In-Cruiser & Handheld Radars
Buildings and Infrastructure (BI)	
BI-25-FD-13	Fire Station 1 - Roof Replacement
BI-25-SC-18	Renovation of Portsmouth Career & Technical Education Center
BI-25-LI-22	Historic Artifact Conservation and Storage Assessment
BI-25-ED-24	Public Art Trust Fund
BI-25-HL-25	Sheltering & Public Health Resources
BI-25-PW-36	Peirce Island Recreation Improvements
BI-25-PW-52	Hanover Garage Structural Improvements
Transportation System Management (TSM)	
TSM-25-PW-63	Constitution Avenue Multi-Use Path
Combined Funding Projects (COM)	
COM-25-PW-99	Lafayette Park and Monroe Street Drainage Improvements

Projects That Did Not Move Forward From FY24 → FY25

This is a list of projects that were part of the FY24 Capital Improvement Plan but are not found in the FY25 Plan. Reasons for their removal are also listed.

FY24 Project Number	Project Name	Reason for Removal from the CIP
Vehicles and Equipment (VE)		
VE-21-FD-06	Self-Contained Breathing Apparatus (SCBA) Replacement	This project was funded in FY24 (Capital Outlay).
VE-23-FD-07	Cardiac Monitors	This project was funded in FY24 (ARPA Funding).
Buildings and Infrastructure (BI)		
BI-16-PD-11	Police New Facility - Land Acquisition	All New Police Facility proposed locations are all on City-owned Property thus land acquisition funds are not needed. This project page featured no funding (past or future) and was removed.
BI-24-LI-14	Library Courtyard Renovation	This project was funded in FY24 (ARPA Funding).
BI-24-SC-17	Fit-up of Community Campus Space for Robert J Lister Academy	Funding authorized in July of 2023 but not yet bonded.
BI-21-PL-23	Trail Development Projects	This project was funded in FY24 (Capital Outlay).
BI-05-PL-24	McIntyre Federal Office Building Development	This project was removed, as no future funding was needed.
BI-24-PW-48	Foundry Place Parking Offices	Funding authorized in July of 2023.
Information Systems (IS)		
IS-24-IT-51	Expansion and Improvement of Network	This project was funded in FY24 (ARPA Funding).
IS-24-IT-53	Document Management System	This project is no longer moving forward.
IS-24-FD-54	Fire Department Software Upgrades	This project was funded in FY24 (Non-Operating/General Fund)
Transportation System Management (TSM)		
TSM-17-PL-63	Elwyn Park Traffic Calming and Pedestrian Improvements	Funding authorized in July of 2023.
TSM-23-PL-64	Borthwick Avenue Bike Path	Funding authorized in July of 2023.
TSM-19-PW-68	Sagamore Avenue Sidewalk	Funding authorized in July of 2023.
Enterprise Funds (EF)		
EF-18-WD-86	Water Division - New Groundwater Source	Funding authorized in July of 2023.
EF-24-WD-89	Water Division - Greenland Well Treatment	Funding authorized in July of 2023.
EF-24-WD-90	Water Division - Dover Water Emergency Interconnection	Funding authorized in July of 2023.
EF-20-SD-97	Sewer Division - Woodbury Avenue Sewer Separation	Funding authorized in July of 2023.
Combined Funding Projects (COM)		
COM-23-PW-102	Edmond Avenue	Funding authorized in July of 2023.
COM-03-PW-107	Islington Street Improvements	Funding authorized in July of 2023.
COM-17-PW-108	Union Street Reconstruction	Funding authorized in July of 2023.

SECTION II: METHOD OF FINANCING

(Where the Money Comes From)

Capital improvement projects are funded from a variety of sources. These funding sources include: General Fund (GF) Capital Outlay; Federal/State Grants; Bond or Lease; Revenues (Parking, Water and Sewer); State Revolving Loan Fund (SRF), and Public Private Partnerships (PPP).

General Fund (Capital Outlay) (GF)

- Funded from General Fund Revenues, includes the money raised by the local property tax for a given year;
- Its entire cost is paid off within the year; and
- The intent is to budget approximately 2% of the previous Fiscal Year General Fund total Budget to address City General Fund priorities.

Federal/State Grants (Fed/State)

- One source of grants is from other levels of government, for example, the Environmental Protection Agency, the NH Department of Health and Human Services, U.S. Housing and Urban Development, NH Department of Environmental Services, and the NH Department of Transportation;
- Generally, these Federal and State sources provide an outright grant or matching funds to go with locally raised funds; and
- The City also pursues non-governmental private grants when applicable.

General Obligation Bonds (Leases/Bonds)

- Bonds are used to finance major municipal capital projects;
- These are issued for a period of time generally extending from ten to thirty years during which time principal and interest payments are made;
- They are secured by the full faith and credit of the Municipal Government;
- This type of payment has the advantage of allowing the costs to be amortized over the life of the project and of allowing taxpayers or rate payers to pay a smaller amount of the project's cost at a time;
- However, they do commit the City's resources over a long period of time and decrease the flexibility of how yearly revenues can be utilized;
- The City's bonding capacity is a limited resource;
- All projects that are to be bonded should meet minimum eligibility criteria and must have a useful life of at least equal to the bond terms; and
- **Projects that are funded through bonds must go through an additional process, after the adoption of the CIP and the budget, of authorization by the City Council after a public hearing.**

Revenues (Enterprise Funds)

- The City has two established Enterprise Funds (Water and Sewer);
- The needs for these two divisions are met through the revenues raised from providing that particular service; and
- Utilizing this funding source has no impact on the City's tax rate.

Revenues (Special Revenue Funds)

- The City has a Parking and Transportation Fund (Special Revenue Fund);
- Revenues derived from the City's parking functions are transferred to this fund in order to operate the City's parking and traffic related activities; and
- Utilizing this funding source has no impact on the City's tax rate.

State Revolving Loan Fund (SRF/SRLF)

- This is a program offered through the NH Department of Environmental Services for the purpose of providing low interest rate funding for approved water pollution control projects;
- State approval of applications does not bind the City to any of the individual projects but does lock into a low interest rate loan;
- Upon completion of projects, the loan becomes a serial bond payable by the City of Portsmouth Sewer or Water Fund to the State of NH; and
- In addition, the City applies for State Aid Grant (SAG) funding to assist in repaying SRF loans up to 30% of the total project cost.

Public Private Partnership (PPP)

- This method of financing involves joint funding of a particular project between the City and one or more private sector or non-governmental partners; and
- This method is used for projects that will benefit the partners and help to minimize costs to local taxpayers.

It Is Important To Note . . .

Deciding on which method of financing should be selected for a given project is dependent on a number of factors.

These include the cost of the project, its useful life, the eligibility of the project to receive funds from other than local taxes, long-term and short-term financial obligations of the City and a project's relative priority in terms of implementation.

The Capital Improvement Plan seeks to maximize the potential benefits from all revenue sources.

This page is intentionally blank.

SECTION III: FINANCIAL SUMMARY

Section III contains useful summary information detailing the specifics of the Capital Plan. These include the following:

1. Overview
2. Capital Improvement Plan Summary, all funds (FY 25-30);
3. A graph displaying the FY 2025 Distribution of Capital Improvement Plan Funding (Non-Enterprise Funds);
4. General Fund, Capital Outlay Projects only (FY 19-25);
5. Computation of Legal Debt Margin as of June 30, 2023;
6. Long-Term Debt Service Forecast Model (General Fund);
7. Projected Net Long-Term Debt Service as a Percentage of the General Fund Budget;
8. Long-Term Debt Service Forecast Model (Parking Fund);
9. Long-Term Debt Service Forecast Model (Debt Service Fund);
10. Long-Term Debt Service Forecast Model (Water Fund);
11. Long-Term Debt Service Forecast Model (Sewer Fund); and
12. Long-Term Debt – Outstanding Balance (All Funds).

I. VEHICLES AND EQUIPMENT

VE-07-FD-01: Ambulance Replacement Program

Department	Fire Department
Project Location	Station 2 (2010 Lafayette Road)
Project Type	Replacement or Purchase of Vehicle
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Reduce (will reduce operating costs)

Description: This project continues the CIP Rolling Stock Replacement Program for the City's ambulances. The City's 2017 Ambulance is scheduled for replacement in FY26. Funds for this vehicle include the purchase of the vehicle with a complete set-up including radio, lettering, striping, and equipment. One-third of the total cost of the vehicle is requested each year with a purchase after the third year.

VE-14-FD-02: Vehicle Replacement – Fire Engine #4

Department	Fire Department
Project Location	Station 1 (170 Court Street)
Project Type	Replacement or Purchase of a Vehicle
Commence FY	2025
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Reduce (will reduce operating costs)

Description: This project continues the CIP Rolling Stock Replacement Program for large apparatus. This allocation will purchase a new, custom rescue pumper with a 4-person cab with medical compartments, five-hundred (500) gallon water tank, 1,500 GPM pump, and related equipment to replace the 2006 Emergency One pumper. Funding would provide a complete vehicle set-up including radio, lettering and striping as well as equipment.

Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This project is to plan for the replacement of Marine #1. The Coast Guard is looking at its staffing challenges and subsequently lifesaving missions and may require more assistance from local partners. This project would be to increase the safety of the operating platform for crews on the water. The Fire Department is working regionally to address potential coverage issues in the marine environment and this project will address any shortfalls.

Improves Quality of or Provides Added Capacity to Existing Services	
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This project will continue the practice of replacing personal protective clothing every five (5) years so that all personnel have a primary and secondary set of structural firefighting gear that is no more than ten (10) years old as required by NFPA 1851. Best practices of firefighter cancer prevention allows each firefighter to have a secondary set of gear so that an acutely soiled set can be cleaned while the firefighter remains on duty and in service.

The funds are dispersed over a 3-year period to match the recommended replacement of existing gear. One-third of the members will replace gear for three (3) consecutive years.

Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: In 2018, a 7-member resident sub-committee assessed "the pros and cons of requiring PPD officers to use body-worn cameras" and concluded not to purchase BWC at that time. Since then, however, developments throughout the state, in the form of the Governor's Commission on Law Enforcement Accountability (LEACT), and the legislature enacting a fund to assist with the initial purchase costs of BWC, influenced a recent decision to revisit this project. In October 2021, the Police Commission adopted a [set of recommendations](#) to "improve police practices." These recommendations were the result of a year-long collaboration between the police staff, the Police Commission, and a newly formed Portsmouth Resident Advocacy Group. The recommendation under 5(d) of the [document](#) is to re-assess the feasibility of Body Worn Cameras (BWC). This project is anticipated to include staff, equipment, and vendor services. The department will evaluate vendors, products, services, and price to meet the expectations of the PPD and the public. We will seek grants to offset the cost of this project.

VE-25-PD-09: Taser Replacement Cycle

Department	Police Department
Project Location	Police Department (Junkins Avenue)
Project Type	Equipment (non-vehicular)
Commence FY	2025
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: Tasers are a "less than lethal" tool officers carry and, at times, use to de-escalate situations. Originally, tasers cost about \$700-\$800 a piece and had a solid life-cycle (10-12 years). With the evolution of taser technology, the unit has become very sophisticated, is more accurate, having what is akin to a minicomputer. The unit can also detail each deployment and can also be connected to a Police Officer's body camera.

The improvement in the taser's technology comes at a cost and a shorter life cycle (5 years). The average cost for a taser bundle is now approximately \$7,100 each.

Tasers are deployed to all sworn and auxiliary officers. These devices also required a lot of training and residual training for split second use.

Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The biggest complaint by Portsmouth residents relates to cars speeding on the city roadways. The Police Department dedicates resources to tackle this problem to keep the streets safe. In-cruiser and Handheld Speed Radars are the best tool for enforcement activities. The current units have become antiquated and are at the end of their 8 to 10-year life cycle. The department is requesting to replace twelve (12) in-cruiser radars and two (2) hand-held devices.

Responds to a Citywide Goal or Submitted Resident Request	Y

Description: This piece of equipment will provide a proven and safe method to pre-treat roads for winter. Brine is commonly used in anti-icing operations. It is made by mixing salt in water to approximately a 23% solution by weight (23% salt / 77% water). This type of treatment contributes less salt to local water bodies. The equipment will assist in the City's compliance with the Municipal Separate Storm Sewer System (MS4) permit.

II. BUILDINGS AND INFRASTRUCTURE

BI-24-FD-12: Fire Station Security Upgrade

Department	Fire Department
Project Location	Fire Station 1 , Station 2 and Station 3
Project Type	Equipment, non-vehicular
Commence FY	2024
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Minimal (\$5,002 to \$50,000)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This project provides safety and security to the staff of the Fire Department in addition to securing the inventory and assets of the Department. The goal is to hire a consultant to help identify needs, the appropriate technology, and potential future needs of the Fire Department and then utilize this data to identify and install a security system for the storerooms, offices and public entrances of the buildings. This new security system would require the use of a key card or fob to grant authorized access. The system would also add cameras in addition to tying in existing cameras to the security system. Additionally, computer software and hardware to support the system and its anticipated growth will be identified.

Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: The results of the space needs study conducted in FY14 determined the current Police facility no longer meets the needs of the Department. This project would fund the design and construction of a new facility after a site selection study and conceptual design are complete.

In FY22, \$1,400,000 was approved in the CIP to fund the preliminary designs once prospective sites were chosen. In FY23, an additional \$2,800,000 was allocated to complete the pre-construction process and provide the necessary documents and information needed to make a final decision regarding construction (this funding was approved as part of the budget process but has yet to be authorized).

Note: The cost estimates provided are based on those provided in a prior study and the pricing is escalated to the FY24 /estimated rates.

Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: A 2014 space needs study of the police facility identified deficiencies in the space allocated to the police department, as well as, operational deficiencies in function. In addition, a 2018 public presentation from a public safety architect provided insight into some of the unique needs and requirements of a police facility. Although a funding request for a new facility has been included in the CIP plan since 2015, other citywide projects have had to take precedence. A new police facility is still the goal, and preliminary steps have been taken with monies appropriated for this effort.

In the interim, the current facility has needed significant repair and upgrades to make it safe and functional. Although initial projects were identified in FY21, the funding has been used to cover mold and asbestos abatement, and restoration of the areas after the contaminated materials were removed. Luckily, some of the restoration work overlapped with projects originally identified. With the abatement project coming to a close in FY23, the department will resume working on the projects that have been on hold. It should be noted: if the police department moves into a new facility, all the necessary repairs done to the current facility will benefit any city department moving into the space.

The remaining projects include: upgrade HVAC filtration in the range, security, ADA compliance, server room upgrade, RDC (redundant/disaster recovery center) upgrade at Fire Station II, dispatch upgrade, updating old lighting throughout the PPD, evidence processing and submittal areas upgrade, renovation of former generator rooms for equipment storage, archive space, and gym area, K9 office conversion, and upgrade back parking lot surface and security fencing.

Description: The [Portsmouth Career Technical Education Center](#) is co-located on [Andrew Jarvis Drive with Portsmouth High School](#). The program is an important element of ensuring students graduate college and career ready. The State of New Hampshire capital budget supports renovation of CTE facilities on a roughly 25-year rotation. The 30-31 biennium is expected to bring that support to Portsmouth. Renovation will include safety and security upgrades, updating of classroom and lab spaces, and introduction of facilities to support new programming initiatives to match needs in the labor market.

Responds to a Citywide Goal or Submitted Resident Request	Y

Description: In FY18, the CIP funded the rehabilitation of the first permanent document storage area (City archive) within City Hall. This Permanent Records Room features a new waterless [Inergen® Gas Fire Suppression System](#) (nitrogen 52%/argon 40%/carbon dioxide 8%), local temperature control and monitoring, humidity monitoring and archival quality shelving for many of the City's oldest and most important and legally required records not located in the City Clerk's vault. The facility also features a separate document quarantine area for documents contaminated with mold, red rot or maladies that may potentially spread to healthy documents. The Archive houses records from many departments including the City Clerk, Finance, Planning, Public Works, Human Resources, Trustees, and the Fire Department. The documents in this room range from the 1700's to current permanent records. All funding requests help with the expansion and continued maintenance of the current facility in addition to the relocation or building of a future archival space.

Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: By law, the City is required to keep certain types of documents in perpetuity (i.e. tax warrants, assessing information, city council records, etc.). These historic/permanent documents, ranging in age from 20 – 300+ years, are not in current city use day-to-day by City Staff, and are being stored in the City Hall archive. Many of these permanent records are showing signs of maladies including red rot and mold that increase the rate of deterioration. The requested funds will be utilized to restore/preserve these permanent documents as well as scan them for preservation purposes to digital format (pdf/a) and/or microfilm. The monies requested fund both City Clerk and Finance Department Archival Records preservation. The total amount of funds needed to preserve the contaminated documents, overtime, will continue to grow as preservation costs increase and is likely to last decades with the current funding plan. In October FY24 the Finance Department was awarded its 7th consecutive MoosePlate Grant from the NH State Library to preserve additional documents (\$9,695.80), bringing the total of grant funding to \$65,474. A list of documents with current preservation needs can be found in Appendix IV.

BI-24-FI-21: Disposition of Municipal Records

Department	Finance Department/ City Clerk
Project Location	City Hall (1 Junkins Ave)
Project Type	Other
Commence FY	2018
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: Per RSA 33a, the City is required to keep many records in perpetuity. A number of these records are still actively utilized by staff on a day-to-day basis and are not held in the City's Archive. Many of these records are original paper copies of records that have no digital backup of any kind. This project would provide funds to scan these documents to a PDF/A format (as required by NH State law for permanent record storage) as a digital backup in the case of damage, destruction or theft of the original paper documents. The purpose of this project is to not only ensure compliance with the NH RSA but to also ensure continuity of services in the case of an emergency or disaster that links access to the paper originals.

BI-25-LI-22: Historic Record Artifact Conservation and Storage Assessment

Department	Public Library
Project Location	Citywide
Project Type	Other
Commence FY	2025
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: A conservation assessment is a necessary first step in creating a public/private archival facility. It will determine the scale and scope of the collections held by multiple city departments including Finance, City Clerk, Library, Legal, School Department, Police and Fire, along with collections held by the Portsmouth Athenaeum, Strawberry Banke and the Portsmouth Historical Society. The storage assessment (funded in FY26) will help in dictating needs for a potential public/private shared archival facility for the City and aforementioned organizations. This public/private facility would reduce redundancies and make a more cost-effective long-term solution to the broad shared interests in protecting Portsmouth history for future generations.

BI-25-ED-23: Public Art Trust Fund

Department	Economic and Community Development Department
Project Location	Citywide
Project Type	Other
Commence FY	2025
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	
Alleviates Substandard Conditions or Deficiencies	
Eligible for Matching Funds with Limited Availability	Y
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: The Public Art Review Committee was established for the purpose of reviewing and making recommendations to the City Council on all issues related to Public Art on City property. This committee plans to apply for state and federal grants in the future. Many state and federal grants require matching funds from the applicant, and this is the primary purpose for this request.

BI-25-HL-24: Sheltering and Public Health Resources

Department	Health Department
Project Location	TBD
Project Type	Construction or Expansion of a New Public Facility or Public Infrastructure
Commence FY	2025
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: This Health Department CIP request is to address local sheltering capacity needs in a critical event. Specifically, the first \$250,000 is to cover an additional 204 durable medical-grade cots to outfit a shelter, and an additional two (2) Shelter Supply trailers to transport them, increasing our local sheltering capacity from 46 to 250 beds. This will also allow us to participate in a regional shelter if a critical event is too large to handle locally.

The next amount of funds requested will either be used to reinforce existing facility structures to increase the ability to safely shelter residents without taking critical infrastructure offline. This is vital for continuity of municipal operations and community recovery. The focus of assessment and reinforcement of existing structures for sheltering/evacuation purposes is to ensure any facility receiving residents is safe to withstand the emergency at hand, such as hurricane-force winds, ice/snow loads, severe rain events and seismic aftershocks; or to build a stand-alone facility for the storage, maintenance, inventory rotation, deployment and security of sheltering equipment and supplies. Potentially both will be needed.

Improves Quality of or Provides Added Capacity to Existing Services	
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This project funds the purchase of land that has been determined should protected for conservation and recreation. Ownership is usually sought to secure environmentally sensitive areas to purchase the development rights to a particular parcel, or for some municipal use. Protection may also be provided through the purchase of development rights by way of conservation easements and/or restrictions. Funds can be used as match for leverage on existing grant programs and to support and supplement the City's existing Conservation Fund. Acquisition of land is consistent with the goals and visions stated in the City Master Plan and Open Space Plan.

Where might rising groundwater impact marine and freshwater wetlands?

City of Portsmouth:

Approximately 9 km² (21%) is occupied by freshwater wetlands.

The depth of water in wetlands may increase – wetland type transition

Freshwater wetland area will increase:

- 3% by 2030;
- 10% by mid-century;
- 19 to 25% by the end of century.

Description: As identified in the Coastal Resilience Initiative, impacts to Municipal infrastructure will increase as the impacts of sea level rise and coastal flooding increase. A study which includes monitoring equipment to better understand the flow of groundwater over time will help identify where issues with infrastructure are going to occur. Additionally, monitoring equipment can serve as an early warning to detect where impacts are likely to occur in the short term.

Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: A master plan is a planning document that serves to guide the overall character, physical form and development of a community (RSA 674:2). It describes how, why, where and when to build or rebuild a city. It provides guidance to local officials making decisions on budgets, ordinances, capital improvements, zoning and subdivision matters, and other development-related issues. The Master Plan shall include, at a minimum, the following required sections:

- A vision section that serves to direct the other sections of the plan. This section shall contain a set of statements which articulate the desires of the citizens affected by the master plan, not only for their locality but for the region and the whole state. It shall contain a set of guiding principles and priorities to implement that vision.
- A land use section upon which all the following sections shall be based. This section shall translate the vision statements into physical terms. Based on a study of population, economic activity, and natural, historic, and cultural resources, it shall show existing conditions and the proposed location, extent, and intensity of future land use.

Portsmouth last updated their master plan in 2016. At that time, the community articulated a vision for the future of Portsmouth. This included key themes that included goals and strategies for advancing those the community values articulated in those themes. The plan also included focus growth areas where opportunities and challenges were explored, and actions were identified that would guide the development and transformation of those areas. Under RSA 674:3 Master Plan Preparation – revisions to the plan are recommended every five to ten years. Portsmouth is nearing the end of the planning horizon for the current Master Plan, Portsmouth 2025. The development of a master plan involves significant community involvement to ensure development of the community vision is inclusive and broadly representative. Staff anticipates in a 18-to-24-month process for completing the plan update. Funding would support professional services support for this community-wide process with consultant recruitment beginning in 2024.

BI-07-PW/NH-47: Sound Barriers in Residential Area Along I-95

Department	Public Works Department
Project Location	I-95 Corridor
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2019
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	Y
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: The purpose of this project is to mitigate sound pollution in neighborhoods along Interstate 95. The State of NHDOT has determined the north side of I-95 is eligible for funding, while the South side was deemed ineligible. Monies identified in this project will be used to investigate and implement sound barriers on the southern side. Any project would have to be built on City property or private property.

Description: Opportunities to bury overhead utilities were identified with Eversource, the local utility company, during a citywide reliability and needs assessment meeting. These projects will bury overhead utilities from Fleet Street at Hanover to State, as well as Deer Street at Market to Bow, Penhallow, and Daniel Street to Market Square. In addition, these steps will enable the eventual removal of the power lines over North Mill Pond.

IS-24-IT-54: Cybersecurity Enhancements

Department	IT Department
Project Location	Citywide
Project Type	Equipment (non-vehicular)
Commence FY	FY2024
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	Y
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: In order to improve cybersecurity, the city has assessed its technology environment and developed a remediation plan to address recommendations from Homeland Security CISA (Cybersecurity and Infrastructure Security Agency). This funding request is to address the CISA physical security recommendations. These recommendations apply to all 15 server and switch rooms/closets. These spaces need to be secured with (1) door card access (2) cameras (3) secure cable racks (4) color coded cabling (5) replacement of doors to eliminate windows giving visibility to the spaces, and (6) adequate reliable cooling.

Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: There are several different software utilized to perform the necessary financial functions of the city which need to be upgraded and/or expanded for Citywide efficiencies. Due to the size and cost of this project, it is recommended that this funding be spread out over several years with a phased in implementation commencing in FY25 for the City's major financial software, while other specialized software are introduced and upgraded concurrently. These upgrades will enable more efficiencies and the streamlining of the current payroll, accounts payable, cash receipting and other processes for all City Departments.

TSM-15-PL/NH-58: Hampton Branch Rail Trail (NH Seacoast Greenway)

Department	Planning and Sustainability Department
Project Location	Former Hampton Branch Rail Line
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2022
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Minimal (\$5,002 to \$50,000)

Description: A now abandoned rail corridor between Portsmouth and the Massachusetts border includes 3.6 miles in Portsmouth. This corridor has been designated as the future off-road route of the NH Seacoast Greenway. In 2019, the NH Department of Transportation acquired the rail corridor and also has secured some federal funding to convert it to a multiuse trail. Design and construction of the trail will be done through a collaboration between NHDOT and corridor communities. The project cost estimates assume that NHDOT will be responsible for initial design, permitting and engineering as well as construction costs to create a gravel trail base. The City's portion of the costs will include additional costs required to build a paved surface as well as any amenities such as trail access areas and interpretive signs. This should be reassessed in FY24 based trail progress.

TSM-08-PL/NH-61: US Route 1 New Sidepath Construction

Department	Planning and Sustainability Department and Public Works
Project Location	Constitution to Wilson and Ocean Road to White Cedar
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2022
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Minimal (\$5,001 to \$50,000)

Description: This project calls for the creation of a walkable and bike-able connection for neighborhoods and destinations along Route 1 through the construction of ten-foot sidepaths on each side of road in available NHDOT right-of-way. This will be a phased project to correspond with the [NHDOT Route 1 Corridor Project](#). Most of the project falls within NHDOT jurisdiction and requires coordination and permission from the state agency to implement and maintain. A separate but related project would add ADA-Compliant crosswalks and actuated pedestrian signals to cross Lafayette Rd at key intersections. Progress on this project is dependent upon NHDOT.

Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This project will be revisited in the updated [Citywide Bicycle and Pedestrian Master Plan](#). The project would complete a link in the City's bicycle network for the residential neighborhoods along Middle Road. Proposed improvements include bicycle lanes along Middle Road and a multi-use path along the north side of Greenland Road. Monies identified in FY26 are for the planning and design phase.

TSM-15-PW-66: Market Square Upgrade

Department	Public Works Department & Planning and Sustainability Department
Project Location	Market Square
Project Type	Rehabilitation of a Facility
Commence FY	2024
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: Market Square was constructed in 1977 with minor improvements having been completed over the years. Streets and buildings around the square have been updated but utility, sidewalk and lighting upgrades are now required. The Market Square study will be completed in FY25 and will inform Phase 1 capital investments in FY26. The intent of this study is to engage the community in a Citywide process that will allow us to better understand the vision, values, and funding priorities for Market Square through public outreach. This project will be implemented in multiple phases which are reflected in the funding requests for outyears FY28 and FY30. These phases will include streetscape improvements, pedestrian enhancements, and upgrades to water, sewer, drainage and will address citizen requests.

TSM-95-PW-67: Citywide Sidewalk Reconstruction Program

Department	Public Works
Project Location	Citywide
Project Type	Rehabilitation of a Facility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The Public Works Department completed a conditional sidewalk assessment of City maintained sidewalks. The assessment contains detailed information on seventy-four (74) miles of sidewalk. These sidewalks are not included in parks, fields and other City maintained facilities. The results give staff a clear depiction of the overall conditions. This project consists of sidewalks identified as poor to fair condition. Reconstruction work is based on need and execution is coordinated with other street and utility improvement projects.

TSM-95-PW-67: Citywide Sidewalk Reconstruction Program

PROPOSED CAPITAL IMPROVEMENTS ON EXISTING SIDEWALKS:

- Pannaway Manor – Phase 2
- Maple Haven - North
- Kensington Road
- Lawrence Street
- Mendum Avenue
- Summit Avenue
- Woodlands Area

The list above represents a backlog of high priority sidewalk projects as identified by the Conditional Sidewalk Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.

TSM-10-PW-68: Citywide Traffic Signal Upgrade Program

Department	Public Works Department
Project Location	Citywide
Project Type	Rehabilitation of a Facility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	Y
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The City continues to replace its antiquated signal systems. These replacements improve traffic flow, emergency response, safety, and efficiency at intersections. The upgrades include new traffic signals, controllers, improved compliance with pedestrian ADA requirements, and minor roadwork. FY25 monies will fund the intersection and signal upgrade work at Middle Street and Miller Avenue/Summer Street to align with that project's construction.

Totals		\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$100,000	\$600,000	\$600,000	\$1,200,000

TSM-11-PW-69: Citywide Intersection Improvements

Department	Public Works Department
Project Location	Citywide
Project Type	Rehabilitation of a facility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Description: [The Parking and Traffic Safety \(PTS\) Committee](#) receives numerous requests to address traffic volumes, vehicle speeds, and pedestrian safety. Many of these requests deal with street intersections which could be enhanced with minor modifications to the geometry of the streets at the intersections. This project would fund improvements to various intersections involving realignment, curbing, signage, and other traffic calming methods. These slight modifications would improve safety for both pedestrian and motor vehicle traffic. The Greenleaf Avenue and Lafayette Road intersection has been identified as a difficult intersection, which needs improvement.

TSM-16-PL-70: Russell/Market Intersection Upgrade

Department	Planning and Sustainability Department/Public Works Department
Project Location	Russell and Market Streets
Project Type	Rehabilitation of a Facility
Commence FY	2026
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Minimal (\$5,001 to \$50,000)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	Y
Timing or Location Coordinate with Synergistic Project	Y
Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The volume of traffic at the intersection of Russell Street and Market Street has increased over time. Traffic is expected to continue to increase due to nearby private development projects. Improvements are needed to address traffic flow and safety. This work would complement the recently completed Market Street Gateway Project. In addition, this project will progress in conjunction with the upcoming Market Street railroad crossing reconstruction project by NHDOT and coordinate with adjacent development.

Studies Identified & Useful Website Links:

- [FY24-FY29 CIP \(Prior Year\) Project Sheet](#)

Notes of Changes in Funding Plan from FY24-29 CIP:

Funding was changed to match the updated NHDOT 10-year plan funding and schedule.

Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: NHDOT has identified the need to upgrade the railroad crossing on Maplewood Avenue as well as the crossing on Market Street near its intersection with Russell Street. These hazard elimination projects, which are included in the NHDOT 10-year plan, include upgrade of the rail, the roadway approaches, drainage improvements and the need for protective devices at the crossing. A portion of a local match has been appropriated in previous programs.

Studies Identified & Useful Website Links:

- [FY24-FY29 CIP \(Prior Year\) Project Sheet](#)

Notes of Changes in Funding Plan from FY24-29 CIP:

Monies are needed to address these issues in conjunction with the NHDOT's 10-Year-Plan.

		FY25	FY26	FY27	FY28	FY29	FY30	Totals 25-30	6 PY's Funding	Totals

Other	0%							\$0	\$0	\$0
Revenues	0%							\$0	\$0	\$0
PPP	0%							\$0	\$0	\$0
	Totals	\$100,000	\$50,000	\$50,000	\$50,000	\$50,000	\$50,000	\$350,000	\$2,650,000	\$3,000,000

TSM-08-PW-73: Cate Street Bridge Replacement

Department	Public Works Department
Project Location	Cate Street
Project Type	Other (explained below)
Commence FY	2023
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This bridge is beyond its 50-year design life. It cannot handle heavy truck volumes and needs to be replaced. Residents have asked for the bridge to remain open if the median on Route 1 Bypass is extended past Cottage Street. This ensures emergency vehicle access to Portsmouth Hospital from the neighborhood. The City will continue to do temporary repairs until state funding is available for the bridge replacement.

Studies Identified & Useful Website Links:

- [Citywide Bridge Evaluation 2018](#)
- [FY24-FY29 CIP \(Prior Year\) Project Sheet](#)

Notes of Changes in Funding Plan from FY24-29 CIP:

Funding moved to outyear to reflect NHDOT timeline funding.

		FY25	FY26	FY27	FY28	FY29	FY30	Totals 25-30	6 PY's Funding	Totals
GF	0%							\$0	\$0	\$0
Fed/ State	78%				\$1,335,000			\$1,335,000	\$100,000	\$1,435,000
Bond/ Lease	22%				\$415,000			\$415,000	\$0	\$415,000

Revenues	0%							\$0	\$0	\$0
PPP	0%							\$0	\$0	\$0
	Totals	\$0	\$0	\$0	\$1,750,000	\$0	\$0	\$1,750,000	\$100,000	\$1,850,000

TSM-20-PW-74: Coakley-Borthwick Connector Roadway

Department	Public Works Department
Project Location	Coakley Road and Borthwick Avenue
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2026
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: To improve traffic flow on the Route 1 Bypass, a plan for intersection improvements has been designed. The signal at the intersection of Coakley Road, Cottage Street and the Route 1 Bypass may be removed and the median on the Bypass extended through the intersection prohibiting left turns. To provide left turn access to and from the Bypass for the users of Coakley Road, this project would construct a connector roadway between Coakley Road and Borthwick Avenue. This project is subject to NHDOT approval and would be contingent upon acquiring the necessary right-of-way.

Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: Residents have been calling for traffic calming throughout the City. This project addresses funding for calming measures in several areas. FY25 funding will be for projects on South Street and Middle Road. These measures may include reconfiguring the intersections. These changes would improve safety and access for pedestrians destined for Portsmouth High School and area playgrounds. Other locations with requests for traffic calming measures include Hoover Drive, State Street from Cass to Middle, Rockingham Avenue, Edwards Avenue, Elwyn Road, Little Harbor Road, Greenland Road, Dennett Street, New Castle Avenue and Miller Avenue.

TSM-94-PW-76: Street Paving, Management, and Rehabilitation

Department	Public Works Department
Project Location	Citywide
Project Type	Rehabilitation of a Facility
Commence FY	Ongoing
Priority	O (ongoing or programmatic)
Impact on Operating Budget	Negligible (<\$5,001)

Description: The [Pavement Condition Management Program](#) started in 1993. An annual report updating the city's pavement management system is completed as part of this program. The city's network of roads are evaluated, and comprehensive budget requirements are analyzed to develop road-paving programs and timelines. The report provides recommended funding to maintain street conditions at current levels. These are capital costs that are implemented over a two-year period with an expected lifespan of 20 years. The Public Works operational budget includes maintenance costs with an expected lifespan of 10 years. A list of streets needing improvement is on the next page.

TSM-11-PW-77: Pease International Tradeport Roadway Rehabilitation

STREETS LISTING:

- Airline Avenue
- Aviation Avenue
- Newfields Street
- Rochester Avenue
- Rye Street
- Miscellaneous

The list above represents a backlog of high priority pavement projects in the Pease International Tradeport as identified by the Pavement Management Index and other capital projects. The amount of work completed depends on available funds and construction bid prices.

TSM-15-PW-78: Junkins Avenue Improvements

Department	Public Works Department
Project Location	Junkins Avenue
Project Type	Upgrade of Existing Facilities
Commence FY	2023
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	Y
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: This project will be completed in conjunction with the replacement of failing drainage pipes and culverts located under the City Hall lower parking lot. The goal is to create a “complete street”, as defined in the Complete Streets Policy, which will also include work to be done on the South Mill pond trail sidewalk and area of Parrott Avenue.

Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The water distribution system consists of more than 150 miles of pipe. Many of the older pipes are 50 to 100 years old, undersized and at the end of their design life. Pipes are replaced programmatically as part of water specific capital projects, roadway reconstruction, and prior to annual paving. This item will fund the purchase of pipe, valves and associated materials used to replace those pipes. This project bonds the funding for large full road reconstruction projects.

Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: This CIP item accounts for the on-going need to repair and improve the conditions of our water storage tanks beyond routine painting. Currently the Lafayette Road Water Storage Tank needs painting, however, due to its very large capacity (7.5 MG) the water in this storage tank does not turnover and mix sufficiently. This causes declines in residual chlorine disinfectant. An engineering assessment needs to be performed to evaluate options for improving this tank's performance and minimizing water quality issues associated with inadequate mixing. Funds for tank improvement design are also included for planning purposes. After the engineering assessment, construction costs will be adjusted accordingly.

Identified in Planning Document or Study	
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	

Description: The City's surface water treatment facility located in Madbury began operation in 2011. Since that time, facility maintenance items have been covered by operational line-item budgets. After more than ten years of continuous operation, the facility is beginning to see wear that needs to be addressed with more than annual maintenance. These items include the replacement of the water treatment filter media, replacement of water pump drives, the purchase of a backup finished water pump, replacement of building siding, and the construction of a storage shed for equipment and spare parts.

Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	
Reduces Long-Term Operating Costs	Y
Provides Incentive for Economic Development	
Responds to a Citywide Goal or Submitted Resident Request	Y

Description: The Pease Treatment Facility was original constructed in the 1950s and was upgraded in the 1990s. Selected upgrades have been completed since the 1990s with the Headworks and primary clarifier project completed in 2021. Much of the facility has exceeded its useful lifespan and needs replacement. The City received an updated NPDES permit allowing for an increase in design flow rate from 1.2 million gallons per day to 1.77 million gallons per day. This increase in flow was to accommodate a request from Lonza Biologics for potential expansion of their manufacturing capacity. In February 2023, the City was notified that the request for an increase in flow was no longer required due to water conservation upgrades and manufacturing process changes completed by Lonza Biologics. Since no additional flow is required to accommodate Lonza's expansion needs, the City is changing its project scope to only include critical refurbishment of existing equipment. Initial engineering design for the necessary upgrades is underway. Funding under the bond category represents the costs to design and construct replacement of aged equipment at the existing facility. Costs are preliminary and will be refined as the design moves forward. The City is working to fund this project using revolving loan funds (SRF) to take advantage of principal forgiveness, lower interest rates and favorable construction financing.

EF-23-SD-88: Wastewater Reuse at Pease Wastewater Treatment Facility

Department	Public Works – Sewer Division
Project Location	Pease Wastewater Treatment Facility (WWTF) (Corporate Drive)
Project Type	Construction or Expansion of a New Public Facility or Public Infrastructure
Commence FY	2024
Priority	B (needed within 4 to 6 years)
Impact on Operating Budget	Negligible (<\$5,001)

Description: Reuse of wastewater is a sustainable and resilient initiative that can assist in reducing the impact of non-potable water demands on the drinking water system. Wastewater reuse requires additional levels of treatment and construction of a distribution system to carry the reuse water to the user. There are many applications for reuse water including, but not limited to, irrigation and water for cooling towers. This item covers the potential cost of a water reuse treatment and initial distribution system for the Pease Wastewater Treatment Facility. Prior year's funds will be to update a planning and feasibility study that will be used to inform costs and timing.

Responds to a Citywide Goal or Submitted Resident Request	

Description: The City owns and operates twenty wastewater pumping stations. The projected life span of a pumping station is twenty years. This project plans for the replacement or major rehabilitation of pumping stations and/or force mains that have not been included as separate projects in the CIP. The work will generally follow the recommendations detailed in the Wastewater Pumping Station Master Plan dated 2019. FY25 funding increase will be used to fund isolation and repair activities to improve reliability.

EF-22-SD-91: Sewer Service Funding For Sagamore Avenue Area Sewer Extension

Department	Public Works – Sewer Division
Project Location	Portions of Sagamore Ave & Wentworth House Road; Cliff Road , Walker Bungalow Road & Sagamore Grove
Project Type	Construction or Expansion of a Public Facility, Street or Utility
Commence FY	2022
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Negligible (<\$5,001)

Evaluation Criteria	Qualify?
Responds to Federal or State Requirement	
Addresses a Public Health or Safety Need	Y
Alleviates Substandard Conditions or Deficiencies	
Eligible for Matching Funds with Limited Availability	
Timing or Location Coordinate with Synergistic Project	
Identified in Planning Document or Study	Y
Improves Quality of or Provides Added Capacity to Existing Services	Y
Reduces Long-Term Operating Costs	
Provides Incentive for Economic Development	Y
Responds to a Citywide Goal or Submitted Resident Request	

Description: The City has advanced this project to gain pricing for the private side work for converting existing septic systems to a pumped sewer connection. Bids were received in August 2021 and pricing was found to be higher than anticipated. The project will be re-bid and updated price acquired. City staff will present updated rate information to the City Council to conclude an approach to the cost sharing proposal. This item sets aside funds in anticipation of City Council action.

EF-24-SD-93: Peirce Island Wastewater Treatment Facility

Department	Public Works – Sewer Division
Project Location	Peirce Island Wastewater Treatment Facility (200 Peirce Island Road)
Project Type	Equipment, Non-vehicular
Commence FY	2025
Priority	A (needed within 0 to 3 years)
Impact on Operating Budget	Moderate (\$50,000 to \$100,000)

Description: The Peirce Island Wastewater Treatment Facility was officially put online in the spring of 2020. Portions of the facility have been operational since an upgrade in 2015. The City is planning for the long-term improvements needed at this facility to address capital equipment replacement, permit modifications and operational needs over time. The FY25 funds are for a 3rd inclined screw press for sludge de-watering. This 3rd press will allow for redundancy to improve reliable sludge de-watering operations.

- [Long Term Control Plan Update 2010](#);
- [CSO Supplemental Compliance Plan 2017](#)
 - [Public Works Department](#)
- [FY24-FY29 CIP \(Prior Year\) Project Sheet](#)

Description: The City is moving forward with a sewer separation project on Fleet Street. It is required through the City's [Long Term Control Plan](#) and [Supplemental Compliance Plan](#). The project includes water, sewer, drainage upgrades along with full streetscape rework and other pedestrian enhancements. Funding for this work will come from the Water and Sewer Enterprise Funds and the General Fund.

Given the scope of this project, it will need to be completed in phases. Phase 1, a new drain line from the [North Mill Pond](#), was addressed with FY24 Funding. Phase 2 will be the [Vaughan Mall](#) and upper [Congress Street](#) area. Phase 3 will be [Fleet Street](#) from [Hanover Street](#) to [Court Street](#) as well as a potential expansion of the project limits as determined during the design.

Downtown Aerial Utilities Underground (BI-21-PW-43) project is being funded to bury the Fleet Street overhead utilities. Market Square Upgrade project (TSM-15-PW-61) will be coordinated with this project.

Notes of Changes in Funding Plan from FY24-29 CIP:

Added funding to FY25 to prioritize and expedite Vaughan Mall corridor.

Studies Identified & Useful Website Links:

- [Stormwater Master Plan 2007](#)
- [Department of Public Works](#)
- [FY24-FY29 CIP \(Prior Year\) Project Sheet](#)

Description: The City owns and maintains storm drains, catch basins and outfalls. Many of these structures are failing and need upgrades. Drainage improvements are upgraded as part of specific capital projects, roadway reconstruction and prior to annual paving. In addition to pipe work, the existing stormwater ponds and swales need to be maintained.

Funding for this work will come from the Sewer Enterprise Fund and the General Fund.

Notes of Changes in Funding Plan from FY24-29 CIP:

Increase in funding due to upsurge in current construction bid costs

Appendix I. Citizen Requested Projects

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2025	Elwyn Drive	Extend proposed Elwyn Side Path to Rye Line or Tucker's Cove Neighborhood. Currently Oakwood and Regina St Neighborhoods are isolated from surrounding neighborhoods and walking paths by Elwyn Drive. Walking on Elwyn drive is dangerous due to little to no road shoulder, blind corners, and high-speed traffic. The bicycle and pedestrian plan listed the sidepath all the way to the rye border as high priority. As of the 2019 update this was still listed in the recommendations. As of today the elwyn sidepath is slated to go to harding road, but an update hasn't been provided in a few years. This proposal is to extend the path past harding road to Regina st or beyond to connect the Oakwood and Regina neighborhoods.	Ian Monk	55 Oakwood Drive Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation")
2025	Sherburne School	Renovation of this school to become a senior housing facility. It helps the affordable housing issue, while providing a downsize choice for elderly people looking to sell their houses and live in a smaller place. Priority given to Portsmouth residents. Adding a second floor in a structurally sound building also makes sense. The ball fields could remain and enhance the youthful activity surrounding this facility. The corner lot would be available for a compatible use. Many trees and benches throughout our city encourages people to connect! I can still dream.....	Donna Garganta	471 Colonial Drive Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This project submission does not qualify as a CIP Project. This type of decision is a Policy Decision that is to be made by the City Council.
2025	Portsmouth Traffic Circle	Modernize 1950s era single lane Portsmouth rotary to modern , high capacity 2 lane roundabout like the one in Lee at NH 125 and US 4 and in Keene at NH 9 and NH 12. The extra air pollution caused by all the traffic back ups is massively and needlessly increasing Portsmouth's carbon footprint. Not a very sustainable practice.	James Hewitt	726 Middle Road Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This project is a State Project with the New Hampshire Department of Transportation (NHDOT). This project is the highest priority project being requested to be added to the state's Ten Year Plan by the Rockingham Planning Commission. This is not an eligible project for the City.
2025	FW Hartford Drive & TJ Gamester Avenue	"Repair dangerous Woodlands sidewalks. The sidewalks in the Woodlands are in serious disrepair. There are numerous spots where city equipment has damaged the sidewalks, causing deep depressions and risk of serious injury. There is even a sharp metal shards sticking out of the junction of the two roads by one of the stop signs. City counselors have toured this and done nothing."	MJ Shoer	40 TJ Gamester Avenue Portsmouth, NH 03801	Existing CIP Projects	Although similar to other Woodland's sidewalk requests, this submission is maintenance related, including metal shards sticking from the sidewalk. This specific submission was forwarded to the City's Public Works - Highway Department to address. The sidewalk was found to be deficient in one area and repaired, with a 40-foot section re-paved. The remainder of the sidewalk work for this neighborhood has been added to the CIP future project list under the Sidewalk Reconstruction Program (FY24 Project # TSM-95-PW-69).
2025	Downtown	Public Bathrooms! Traveling to other US cities as well as European cities, Portsmouth negatively stands out in its lack of year-round public bathrooms. Expecting businesses to accommodate the need does not work as they limit usage to customers. Our town fails by not providing such a basic need.	Kathryn Brandin	495 Middle Road Portsmouth, NH 03801	Existing CIP Projects	This item is being incorporated into other public infrastructure upgrades including the City's Upcoming Market Square Upgrades.
2025	Woodlands neighborhood	The sidewalks in our neighborhood have fallen apart and are in need of repair and replacement. They get walked often and now people walk on the street rather than the sidewalk because of the safety hazard the sidewalks present. This is not safe for child or adults.	John Gonsalves	295 FW Hartford Drive Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.
2025	Sagamore Avenue	Sidewalks on Sagamore Avenue - To replace the broken sidewalk where it is asphalt and crumbling and add a sidewalk where it is missing. The safe and intact section ends around where the eSagamore apartments are located and the rest toward the bridge is non-existent. There are a lot of walkers, especially with the increase of residences and businesses on the avenue and the current sidewalk is crumbling, creating a tripping hazard. A crosswalk would also help where Jones intersects Sagamore near the entrance to the cemetery. It is used not only for walkers but also school kids going both to the High School and Little Harbor.	Laura Spelke	579 Sagamore Avenue Unit 87 Portsmouth, NH 03801	Existing CIP Projects	This project has already been funded in a prior year CIP (CIP FY24 Project # TSM-19-PW-68) and the project will move forward as soon as feasible.
2025	Woodlands Subdivision	Sidewalks are unsafe in dire need of replacement. There is broken concrete in many places. Some areas have been patched but surface is uneven. People are forced to walk in the street, which should not be a requirement when there are sidewalks for that purpose. Please add sidewalk replacement within the Woodlands community, especially Alling TJ Gamester, to your CIP for 2024. Thank you.	Cathy LaFata	520 FW Hartford Drive Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.
2025	State Street	Walking back from Prescott Park via State Street in the evening, I noticed State Street does not have very good lighting for pedestrian traffic. I was hoping there was a way to improve the lighting on State Street. Thanks.	Julie Gilston	203 Melbourne Street Portsmouth, NH 03801	Existing CIP Projects	This item is already funded through the City's Public Work's Department in its Annual Operating Budget in an ongoing manner. The Highway Department will review the brightness of these lights as part of this ongoing initiative.
2025	TJ Gamester Ave, FW Hartford Dr	Sidewalks on these two streets are in terrible shape. Please maintain the sidewalks we already have before making new sidewalks.	David Heller	95 TJ Gamester Ave Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2025	Haven Park Pleasant Street	Pedestrian crosswalk safety - Install path lighting along the length of the sidewalk bisecting Haven Park (Livermore to Edward Streets). The park has little interior lighting, and none along the sidewalk - it is very dark at night, making it unsafe to walk through. Particularly for pedestrians walking in the direction of Edward Street toward the Livermore Street exit of the park, vehicular traffic exiting Hancock Street blinds pedestrians with their headlights.	Mary Cline	395 Pleasant St Portsmouth, NH 03801	Eligible to be a CIP Project	City staff recommend this request for consideration as a potential future CIP project. Prior to formerly creating a CIP project a scope of work and public support should be detmined.
2025	Pleasant Street	Traffic Calming/Speed table installation - Traffic calming/ speed table installation needs to be implemented in the section of Pleasant Street from Hancock to Marcy Streets. Multiple residents have made similar requests to slow traffic in this very narrow stretch of Pleasant Street. This is a major traffic route to/from Newcastel, the road has no linemarkings and traffic travels this stretch faster than posted speed limits particularly in the early morning hours. Commercial vehicles (landscapers, food service, marine traffic) passing in this section nearly impinge upon the sidewalks. Previous requests have implied a resistance by fire and police services to implementing speed bumps or tables; however the increasing predominance of speed bumps throughout other areas of the city would suggest this should not be an impediment.	Mary Cline	395 Pleasant St Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This project has the potential to be CIP Eligible under the current CIP Project "Traffic Calming" (FY24 CIP Project# TSM-21-PW-77) but should begin with a review from the Parking, Traffic and Safety Committee. Staff recommends interested parties contact Parking, Traffic and Safety Committee with this request.
2025	Confluence of Pleasant, Marcy, South Mill and South Street	Pedestrian crosswalk safety - Please install pedestrian crossing signage and lighting at the crosswalks on these intersections. These crosswalks are partially obscured by parked cars (Pleasant Street and Marcy Streets) and or the orientation (Marcy Street) of the streets/ traffic flow (see red marks in photo). Summer tourist traffic exacerbates the safety issues as people unfamiliar with the roads are more focused on travel than on pedestrians. Many residents and canines also cross Marcy and South Streets to visit the green space bounded by Salter Street (see yellow marks in photo). There are no marked crosswalks here waitsoever and traffic approaching these intersections often do not anticipate and/or look for pedestrians.	Mary Cline	395 Pleasant St Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This project does not meet the qualifications to be a CIP Project and instead should be forwarded to the Parking, Traffic and Safety Committee. Staff recommends interested parties contact the Parking, Traffic and Safety Committee with this request.
2025	Woodlands neighborhood	Our side walks are in dreadful shape forcing pedestrians to walk in the street.	Joan Rice	460 FW Hartford Dr Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.
2025	Neighborhood of Boos & Lawrence	I have lived here for 16 years. The road and sidewalk condition was bad when we moved in and is terrible now.	Hannah Marchand	44 Lawrence Street Portsmouth, NH 03801	Existing CIP Projects	Street paving is prioritized based on the volume of traffic, the condition of pavement, and the City's Pavement Management Program. This request is existing in CIP24 Project#: TSM-94-PW-78: Street Paving, Management, and Rehabilitation plan documents the upcoming streets to be paved.
2025	Could be anywhere in Portsmouth	Submitted on behalf of the City's Public Art Review Committee (PARC), include \$25,000 annually in the CIP for \$ to be added to the Public Art Trust Fund to commission public art for the city's parks, neighborhoods, gateways, and public buildings.	M. Christine Dwyer (On Behalf of the City's Public Art Review Committee PARC)	600 Broad Street Portsmouth, NH 03801	Eligible to be a CIP Project	The Economic Development Department support this standing Committee (the Public Art Review Committee). This Committee will be responsible for reviewing and making recommendations to the City Council on all issues related to Public Art on City property. They will be responsible for administering the 1% for Art that results from large city projects. This request is to establish a baseline of funds for the purposes outlined in the request. This committee also plans to apply for state and federal grants in the future. In speaking with Finance Department staff, the correct place to hold these funds, should they be approved, is the Public Art Trust fund.
2025	Citywide	Please consider the purchase of many portable bike racks for use at concerts, races, civic and school events. They can be placed in auto parking spaces, the city can advertise there will be hundreds of parking/locking spaces for bikes and accommodate/encourage the cycling public.	Elizabeth Dinan	639 Maplewood Ave Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").

2025	I95 from Woodbury overpass to Market Street underpass	<p>Create structural sound barriers along this stretch of I95 to promote and maintain health in the noise polluted neighborhoods close by. According to the EPA (and numerous other agencies,) "Studies have shown that there are direct links between noise and health. Problems related to noise include stress related illnesses, high blood pressure, speech interference, hearing loss, sleep disruption, and lost productivity. Noise Induced Hearing Loss (NIHL) is the most common and often discussed health effect, but research has shown that exposure to constant or high levels of noise can cause countless adverse health affects."</p> <p>https://www.epa.gov/clean-air-act-overview/clean-air-act-title-iv-noise-pollution#:~:text=Health%20Effects,sleep%20disruption%2C%20and%20lost%20productivity.</p> <p>Please also reference</p> <p>-- Clean Air Act (Title IV – Noise Pollution)</p> <p>-- The Noise Control Act of 1972 (42USC7641)[21 pp, 890K, About PDF], from U.S. General Services Administration (GSA)</p> <p>-- The Quiet Communities Act of 1978</p>	Jessica Dolan	635 Maplewood Avenue Portsmouth, NH 03801	Existing CIP Projects	<p>There is an existing CIP project (FY24 #BI-07-PW/NH-44 "Sound Barriers in Residential Area Along I-95") that addresses this issue. The NHDOT has determined east side of I-95 is not eligible for State and Federal Funding. Staff has reached out to determine if a solely City funded project could be completed. Previously allocated funds can be used to study this request and determine the appropriate funding level for a sound barrier project. Please see the Sound Barrier project page on City's website for the most current information https://www.cityofportsmouth.com/publicworks/sound-barriers</p>
2025	Portsmouth	<p>In the CIP, policy makers should set aside 2% (\$2.7 million in FY24) of the budget annually for the purpose of land conservation and open space protection. We should be prepared to quickly purchase new properties that are contiguous with our existing conservation areas. The one thing that there is no more of is land. Additionally, we should be ready to protect our core downtown open spaces, which today are parking lots, by obtaining voluntary first rights of refusal from current land owners. For instance, an example is the TD Bank lot next to the Old South Church. Wouldn't it be better for the city to put a future pocket park there instead of a 70 foot tall development built curbline to curbline?</p>	Thaddeus Jankowski	27 Franklin Street Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	<p>Although there is an existing CIP item for Land Acquisition for conservation purposes (CIP FY24 Project #BI-95-PL-21), the creation of a funding level policy/percentage is a policy decision of the City Council and not a capital request.</p>
2025	All of the local public schools	<p>AC units for the many classrooms that don't have it. Kindergarteners shouldn't be in 90 deg rooms. If necessary, also increase the electrical capacity of the schools to support more AC units.</p>	Charles Smith	139 South Street, Unit A Portsmouth, NH 03801	Eligible to be a CIP Project	<p>In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.</p>
2025	Portsmouth Elementary Schools	<p>Air Conditioning in all schools!</p>	Meg Aldrich	225 Marcy Street Portsmouth, NH 03801	Eligible to be a CIP Project	<p>In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.</p>
2025	Little Harbour School/ Elementary Schools	<p>See above</p>	Saroj Fleming	391 Miller Avenue Portsmouth, NH 03801	Eligible to be a CIP Project	<p>In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. 2025	Little Harbour Scool	Add AC to little Harbour school	Emily Doe	127 Willard Ave Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Little Harbour Elementary and Dondero Elementary Schools will require upgrades to electrical service and is estimated to cost approximately \$6 to \$8 million. Staff does not recommend putting forward this project in its entirety in the timeline of this CIP (FY25 - FY30) due to funding constraints and competing priorities for school capital needs.
2025	Portsmouth Schools	Add Air Conditioning to the Schools	Sarah Carter	145 Thaxter Rd Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.
2025	Portsmout hSchools	Add ACs to the schools	Katie Swenson	103 Wibird Street Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.
2025	Schools	Add air conditioning to schools	Molly Shaw Wilson	1360 South st Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. 2025	Schools in Portsmouth	Add air conditioners at the schools. The heat wave this past week underscores the need for this. Teachers and school kids need a cooler, healthier environment for learning.	Sarah Holly	122 Thaxter Road Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.
2025	Little Harbour Elementary & all public schools	Schools need AC, it's too hot to learn, too hot to think	Corey McAweeney	282 Rockland St Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.
2025	Public schools	Air Conditioning in public schools please.	Jenna Thomson	225 Spinney Rd Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.
2025	Portsmouth Schools	Air conditioning for our schools. The extreme heat this summer has highlighted the fact that some of our schools do not have air conditioning. This type of heat is predicted to become a regular occurrence here and our city should plan for the future. It is a detriment to our kids, the teachers and staff to try and function in such incredibly hot conditions. It's unreasonable to expect kids, especially elementary kids, to focus or learn anything when they are sweltering. Even before this summer the south facing classrooms at LHS would become saunas on sunny and hot days. With the added restrictions of keeping doors closed (AUICE protocols) and teachers not being allowed to bring in window units (both reasonable policies), we owe it to our kids and staff to provide a solution. The kids and staff deserve a comfortable and safe learning environment which means we must add central air conditioning to schools that do not have it.	Shannon Palace	35 Elwyn Avenue Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Dondero and Little Harbour Elementary Schools will require upgrades to electrical service and is estimated to cost between \$6 and \$8 million. The need for air conditioning of spaces at Portsmouth High School and the Career and Technical Education Center can most efficiently be addressed as part of the anticipated capital renovation of that building and its systems in the years FY30 to FY35. The beginning of that work is reflected in the School Department's CIP 25-30 submission. Staff does not recommend putting forward this project in its entirety due to funding constraints and competing priorities for other school capital needs.

2025	Maple Haven	Remove old sidewalks and grass over.	Sarah Jarvis	26 Winchester St Portsmouth, NH 03801	Existing CIP Projects	This project is part of a larger, existing project (CIP FY24 Project #: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program).
2025	Maple Haven	Pedestrian, bicycle, non-motorized study of neighborhood and surrounding areas. (Additional Note added later) "The failed sidewalk project brought up many issues with the neighborhood and surrounding area in regards to how residents use the streets. It was also brought up how our neighborhood will be connected into the rail trail as well as future multi use paths on route 1."	Sarah Jarvis	26 Winchester St Portsmouth, NH 03801	Existing CIP Projects	An update to the Bicycle/Pedestrian Plan is in progress with an RFP going out in the fall of 2023 to update the 2014 plan.
2025	Maple Haven	Bicycle access from Maple Haven to currently in construction rail trail. Options discussed have been multi use path on Ocean Road or possible trail construction behind playground. (Additional Note added) "Maple Haven has the opportunity to be one of the most connected neighborhoods in the City. With the construction of the rail trail we have fantastic off road access to downtown. I usually bike with my kids down route one and then Heritage to Banfield to get to the trail. We need better and safer access."	Sarah Jarvis	26 Winchester St Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	South End	<p>(see notes) While priority here are a number of issues addressed in this request. 1) determining, protecting and making accessible the water public rights of way for public physical and view access. 2) Climate change and the increasing storms with high tides and flooding 3) Protecting sewer and water access to the south end in the area of Sanders Lobster Pound.</p> <p>There are numerous public right of ways to the water throughout the city that have been on historic maps for a century. But to my knowledge the city has not formally nor publicly addressed them. (I have asked for clarification and not received any legal finding). My understanding has been that the roads ending at the water on the map (in our neighborhood that would be I feel strongly that these right's of way are just that, protections for the public to access and enjoy the water and that it is the city's responsibility to address these fairly. We have chosen to live and pay high taxes in Portsmouth for the proximity and access to the water. This access is being threatened by benign neglect, indifference, or fear of repercussions from abutters, encroaching and at times assuming the right of way as their own public property.</p> <p>The most pressing issue/ example of this is the Sanders dumpster blocking the end of the right of way at Partridge, an area that used to be the town boat launch. There is a danger that dumpster placing in public right of ways will become a permanent solution for preventing access and impeding the view for all that live or visit here. There is a danger that the landowner will therefore be granted de facto ownership.</p> <p>This site is also subject to major climate change rampage, the erosion of the road at the end of Partridge is seemingly undermining the water and sewer infrastructure there. There is increased flooding at that location. I do not see a CIP to address this. It is not clear to me who owns the land that the sewer and water main drain are located nor if there is a legal agreement with the owners to run that infrastructure under the road. The Sanders have posted this area as private making Partridge and Pray dead ends. I would like Legal clarification and explanation of the City/Sanders arrangement.</p> <p>A sea wall at this location similar to that at the end of Pickering between the South End Yacht Club and Gino's INCLUDING stairs down to the water, with street markings that say "No Parking Public Access" could be a solution to this problem. (I am not familiar with current climate change recommendations. Possibly this as been addressed? if so I'd like to be informed of that.) At the same time as the upgrade is made to the infrastructure I would like to see a storm drain installed so that the neighborhood can send the sump water into it. The road is very icy in the winter.</p> <p>DES has approved the moving of the boat house owned by Thompson's at the end of Salter providing they upgrade the retaining wall. Adjacent to this is an identified and marked public right of way. I suggest that should this project go forward the city piggyback on that project and extend the sea wall the extent of the right of way INCLUDING stairs such as those at the end of Pickering. Should the sea wall be extended without stairs I believe you will be preventing free and public access. Those of us without docks or direct water access go over the rocks there to get in to the water. It's precarious but at least we do not have to</p>	Susan MacDougall	39 Pray St. Portsmouth, NH	Better Served by Another Process or Ineligible as a CIP Project	This submission does not qualify as a City Capital Project. The City will evaluate if coordination with the private project is feasible for City eligible portions.

2025	Portsmouth High School (Language wing)	Right now the language wing is one of the few areas of Portsmouth High School lacking air conditioning. Teachers rely on large fans that make it harder to hear lessons. The heat also makes it challenging for students to focus, and lots of students feel tired, out of it, and lacking motivation on hot days. These conditions are even more detrimental to teachers who are expected to spend their entire day in classrooms lacking air conditioning. It would be incredibly beneficial if the school board helped the language wing get AC, encouraging language learning and making it a better experience for students and staff.	Kay Rapaport	139 South Street, Unit A Portsmouth, NH 03801	Existing CIP Projects	The current Portsmouth High School (PHS) facility and its systems are nearing 25 years of service. Additionally, the Career and Technical Education Center (CTE) is also reaching 25 years and is expected to receive state support of 50%-75% for renovations in the 2030-31 biennium. The period of anticipated renovation in the years FY30 to FY35 would provide the most cost-effective opportunity with least possible program disruption for extending air conditioning into those portions of PHS and CTE not currently served by that technology.
2025	Little Harbour School	The LHS playground is in desperate need of a total overhaul. The structures haven't been updated since the 1990's and many parts are in a state of disrepair. There are shards of exposed metal/rust, exposed concrete, and other malfunctions/safety issues due to the age and state of the playground that need to be addressed as soon as possible. This project is long overdue and the LHS PTA has created a committee to begin addressing this project. We desperately need the support of the city to make this project a reality for the children of LHS and the community that uses this outdoor space.	Kate Hatem	1 Ash St. Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	The School Department validates the need for upgrades to the Little Harbour School playground. Staff appreciates that the location of this play space will likely necessitate careful attention to compliance with local wetlands and state ocean wetlands regulations. This project can be addressed through continued collaboration between the LHS PTA and the School Department.
2025	Coakley Road and Larry Lane	Repaving of Coakley Road and Larry Lane is desperately needed!	Thomas Morley	30 Coakley Road Portsmouth, NH 03801	Existing CIP Projects	Street paving is prioritized based on the volume of traffic, the condition of pavement, and the City's Pavement Management Program. This request is existing in CIP24 Project#: TSM-94-PW-78: Street Paving, Management, and Rehabilitation plan documents the upcoming streets to be paved.
2025	Little Harbour Elementary School	It is TOO HOT in LHS! The temps last week provided an unsafe learning environment for our students and teachers. Schools are suppose to keep our kids safe! No a/c is not safe in these temps. Please install a/c in all Portsmouth Schools that are without. LHS, Dondero, PHS language wing	Lindsay Pappas	2 Brackett Lane Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Little Harbour Elementary and Dondero Elementary Schools will require upgrades to electrical service and is estimated to cost approximately \$6 to \$8 million. Staff does not recommend putting forward this project in its entirety in the timeline of this CIP (FY25 - FY30) due to funding constraints and competing priorities for school capital needs.

2025	Madison Street b/t Austin St. and State St.	Residents are parking on the front lawn of the Madison Street Apartments. Madison Street residents are requesting curbing, tree plantings, and other roadway improvements, including parking. This project was added to CIP in 2019 to be completed in 2025, but was then delayed to 2029. Residents are requesting it be restored to its original 2025 timeline.	Lee Frank	169 Madison Street Portsmouth, NH 03801	Existing CIP Projects	This project already exists in the Capital Improvement Plan (FY24 Project # TSM-20-PW-82). Funding for this project is current shown in out-years due to funding available.
2025	Portsmouth School Department at Little Harbor Elementary, Dondero Elementary and PHS Foreign Language Wing	Currently, Little Harbor Elementary School, Dondero Elementary School and the PHS Foreign Language wing do not have Central AC and should be a priority to update. With increasing temperatures, we need to add central air conditioning in these places in order to allow children and teachers to pursue education in workable, humane conditions and provide equity to what we have in other school buildings, and what we have in Portsmouth City Offices as a whole. Last week, in the period of high heat and humidity, classrooms were hitting 90 degrees for multiple days. This is inhumane and unsafe for education to be prioritized. Box fans that push warm, humid air around is not a healthy solution. Last summer, people surrounded a car in the Market Basket parking lot on a hot day with a dog locked inside, and broke the windows to save the dog. However, we march our children and teachers into a building without central air on the hottest days and ask them to endure this. Schools should be for educating and not for learning how to endure unhealthy air in their working building. We keep giving a pile of weak excuses on why we allow this to continue, like this: * Well, it is only for a couple of days until school gets out or in the beginning...they can do it. Reality is that these buildings are used year round with people in them all during the summer who deserve to work in tolerable conditions. *Well, I dealt with hot classrooms when I was a kid. Reality is that we are seeing undeniable signs of global temperature change and going forward, there are no signs that this will reduce. *Most of the schools have AC already. Reality is that the inequity of this makes it even worse, that this should be an expectation of our school system and city that we are able to work and educate in tolerable and humane conditions....last week was not. I have heard from several councilors that they did not know that there are still schools/spaces without AC. I think we need to let them know this. *Let's drop some window/portable AC's in to save money. Well, last week we tried this experiment. Parents at LHS responded and sent in portable AC units to try. My survey results from LHS show that this definitely helped with humidity and temp by a few degrees, and was worth the quick time to install, but that there were electricity interruptions and teachers needed to adapt and unplug other devices. Message heard loud and clear that this was worth it to try and is better than going without, but not in any way a solution that negates needing central air installation. Great NHPR article about how portable units don't account for electric grids and what they can handle.	Erin Bakkom	1275 Maplewood Ave #12 Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. The amount of work completed depends on available funds and construction bid prices.
2025	Maplewood Avenue between the Route 1 Bypass and Congress St	Please return the "Maplewood Downtown Complete Streets" project that was removed from the CIP last year. This is an overly wide and dangerous street created during "urban renewal" and a prime candidate for narrower/reduced driving lanes, buffered bike lanes, pedestrian islands, and improved pedestrian crossings. Lane reconfiguration/stripping could be done at little cost, or a bigger streetscape rebuild would greatly benefit this growing area as a pedestrian space. It is a high priority in the Bike/Ped plan to connect the outer Maplewood bike lanes to the downtown core and make a real network, including a safe route to school for residential neighborhoods to the north. In places parking could remain or even be added if it benefits traffic calming, but proximity to both parking garages makes street parking less essential. Seacoast Area Bicycle Riders, the Transportation and Climate Action Group, and many of the people we speak with would like to request this project for the CIP.	MATTHEW GLENN	34 Harrison Ave portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Update the 2014 City of Portsmouth Bicycle and Pedestrian Plan	Bring the plan up to date with community needs, align with new Climate Action Plan, reprioritize infrastructure investments to move toward intended future complete bicycle network.	William Lyons	62 Mendum Avenue Portsmouth, New Hampshire 03801	Existing CIP Projects	An update to the Bicycle/Pedestrian Plan is in progress with an RFP going out in the fall of 2023 to update the 2014 plan.

Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	City Hall	Conservation Assessment is a necessary first step in creating a public/private archival facility. It will determine the scale and scope of the collections held by multiple city departments including Finance, City Clerk, Library, Legal, School Department, Police and Fire, along with collections held by the Portsmouth Athenaeum, Strawberry Banke and the Portsmouth Historical Society. This public/private facility will reduce redundancies and make a more cost effective long-term solution to the broad shared interests in protecting Portsmouth history for future generations. (see 2 attachments)	Vincent Lombardi (on behalf of the Archive Blue Ribbon Committee)	75 Aldrich Rd Portsmouth, NH 03801	Eligible to be a CIP Project	The City has been challenged with the housing and maintenance of its historic records and artifacts. A Public/Private Partnership (PPP) to provide a museum quality historic archival facility would be beneficial to the whole city in helping preserve and make available historic documents and artifacts as well as offering a single location for all historic citywide records (aiding in the cost effectiveness of the construction and running of said facility). An assessment of City Records (volume, locations, etc.) would be beneficial to the city for both this potential shared archival project as well as its own records management needs. The City has a vast wealth of required documentation as well as numerous historic artifacts to review for preservation needs and cost. Upon the completion of the records and artifact assessment, the second proposed study (that of architectural needs) would be necessary to ascertain an archive location, building size needs, as well as any security and environmental needs of each specific organization within this public/private partnership. The Archive Committee should also work closely with the City Staff to ensure that any project moving forward would be in tandem with Local, State and Federal Laws. This project could also potentially benefit from grant funding.
2025	Woodlands	replace most of the existing sidewalks on FW Hartford and TJ Gamester. They are in horrible condions in many sections	Ted Ristaino	35 FW Hartford Dr Portsmouth, NH 03801	Existing CIP Projects	Mayor's Blue Ribbon Task Force on Historical Archives Committee Page
2025	Gosling Rd	Complete the Multi Use path on Gosling Rd, as recommended in the Bike/Ped plan: Remove travel lane and/or median for two-way cycle track on south side of road from Woodbury Ave to Spaulding Tpk ramps.	Anne Poubeau	160 Bartlett Street Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Woodbury Ave between Gosling Rd and Market St Ext	Create a multi-use path/protected bike lanes on Woodbury Ave between Market St extension and Gosling Rd to connect the residential (Gosling Meadows, Oriental Gardens) and commercial areas to the rest of the town.	Anne Poubeau	160 Bartlett Street Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Woodbury Ave	Install traffic calming measures all along Woodbury Ave from Market Street Extension intersection to the Bartlett Street intersection with a specific attention to the area between I-95 and Dennett.	Anne Poubeau	160 Bartlett Street Portsmouth, NH 03801	Existing CIP Projects	Buildings and Infrastructure - Parks, Playgrounds & Recreation

2025	Maplewood Ave	Reinstate Maplewood Downtown project for bike network connectivity and better walking downtown.	Anne Poubeau	160 Bartlett Street Portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Citywide	Update the 2014 Bicycle and Pedestrian Plan as informed by the Climate Action Plan with realistic goals for what can be accomplished in the next five years	Anne Poubeau	160 Bartlett Street Portsmouth, NH 03801	Existing CIP Projects	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Jones Ave	Sidewalk on Jones Ave	Donald Stickney	213 Jones Ave Portsmouth, New Hampshire 03801	Better Served by Another Process or Ineligible as a CIP Project	Sidewalk expansion requires a consensus from the entire neighborhood, and documentation from the neighborhood is required of this consensus. Staff recommends that the interested parties send this request to Parking, Traffic and Safety Committee to gain neighborhood consensus. This is potentially a future CIP Eligible project.
2025	Portsmouth Elementary Schools	Little Harbour School and Dondero Elementary School and one wing of the High School need to be upgraded with air conditioning to have all school buildings have the same conditions.	Lisa Lisbon	37 Taft Rd Portsmouth, New Hampshire 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Little Harbour Elementary and Dondero Elementary Schools will require upgrades to electrical service and is estimated to cost approximately \$6 to \$8 million. Staff does not recommend putting forward this project in its entirety in the timeline of this CIP (FY25 - FY30) due to funding constraints and competing priorities for school capital needs.
2025	Woodlands Neighborhood FW Hartford Drive	Please prioritize sidewalk replacement/repair at the Woodlands (FW Hartford Drive/TI Gamester). Older adults are using the street to avoid falls which is dangerous. There are many holes and uneven surfaces. Thank you	Suzanne Dinsmore	85 FW Hartford Drive Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.
2025	Little Harbour School	Our family is writing to request the city invest in an air conditioning system to cover all of Little Harbour Elementary school. The first two weeks of school were unbearably hot for our third and fifth graders, making them sick and unable to learn. There are sure to be other hot days this fall and then again in the spring. Even when we brought in a portable air conditioner for our son's fifth grade class to use, they were only able to use it when the classroom next door wasn't using theirs, or a circuit would blow. The temperature was 85 degrees and the portable AC brought it down to 80 degrees before they had to shut it off to allow another class to use the circuit. Temperatures are getting warmer, and schools should have modern HVAC systems for their teachers and children without relying on the kindness of parents to lend air conditioners, especially with circuits already overloaded on plugs in the classroom.	Duncan Craig	175 State Street Portsmouth, NH 03801	Eligible to be a CIP Project	In the earliest and latest days of the school year there are times when the temperature and humidity in some school spaces are driven way up. Considered only by itself, the need for air conditioning is simple and compelling. But given a limit to the capital resources available, other capital improvement projects outweigh the need for air conditioning on a relatively small number of school days. Air conditioning throughout Little Harbour Elementary and Dondero Elementary Schools will require upgrades to electrical service and is estimated to cost approximately \$6 to \$8 million. Staff does not recommend putting forward this project in its entirety in the timeline of this CIP (FY25 - FY30) due to funding constraints and competing priorities for school capital needs.
2025	Buckminster Way/Ocean Road	Sidewalk between two Buckminster Way entrances. (Additional Note Added) "Hello. Our Stonegate neighborhood includes 30+ homes representing several families, young children and pets. Although we understand that Ocean is a state road, we have observed several sidewalks installed over the years. Our residents walk along the stretch between the Buckminster Way entrances where there is not only no sidewalk, but no safe shoulder either. Several residents have voiced the need for this safety improvement over the years, even requesting it to the sitting mayor and city council years ago. We look forward to your consideration. "	Wendy Formichelli	550 Ocean Road Portsmouth, NH 03801	Existing CIP Projects	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2025	Middle Street Downtown bike lanes/ Complete Street	This project, TSM-21-PL-53, was dropped from the previous CIP due to "changing priorities", but the Bike Friendly Community Policy and Complete Streets Policy remain. Both street and sidewalks are due for improvement between Congress and Highland, and it should be a complete streets improvement including bicycles to allow an essential link at the center of the downtown network. Improved bus stops and crossings should be included. This request is a priority of Seacoast Area Bicycle Riders as well as the Transportation and Climate Action Group.	Matthew Glenn	34 Harrison Ave portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	US Route 1 New Sidepath from Andrew Jarvis to Wilson	This project is described in the CIP as TSM-08-PL/NH-61, but the scope of that state DOT project #29640 is now from Wilson south to Ocean road. Safe bicycle and pedestrian sidepaths are needed on both segments of this high traffic corridor, but they may need to be separate CIP entries. The portion between Jarvis and Wilson is highlighted in Portsmouth's 2025 Master Plan as a gateway district to benefit from new housing, better transit, walking, and biking. Several new housing projects are now in the works and there is a need to start planning a complete streets project for Route 1 as well. This is a priority of Seacoast Area Bicycle Riders and the Transportation and Climate Action Group.	Matthew Glenn	34 Harrison Ave portsmouth, NH 03801	Better Served by Another Process or Ineligible as a CIP Project	This request will be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. Pending the results of that review this may be a future eligible CIP project. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY24 # TSM-15-PL-59 "Bicycle/Pedestrian Plan Implementation").
2025	Bicycle and Pedestrian Plan Update	There is a need for an updated Bicycle and Pedestrian Plan. This planning effort was last done in 2014, and there was one staff update or progress report to the council in 2018. Ideally there would be annual reporting and regular updating. This Plan should be informed by the Climate Action Plan and have realistic goals to prioritize projects that can be completed in the next five years. This request is a priority of Seacoast Area Bicycle Riders and the Transportation and Climate Action Group, a subgroup of Portsmouth Climate Action.	Matthew Glenn	34 Harrison Ave portsmouth, NH 03801	Existing CIP Projects	An update to the Bicycle/Pedestrian Plan is in progress with an RFP going out in the fall of 2023 to update the 2014 plan.
2025		Active Purification Installed Within the HVAC Systems in the School District (See attachment for details)	David Leigh Hudson	384 Lang Rd Portsmouth, NH 03801	Eligible to be a CIP Project	This request proposes a specific commercial solution about which the School Department staff have only cursory knowledge. The administration's preliminary estimates for purchase and implementation exceed \$2.2 million and are predicted to require approximately \$250k in electrical and service upgrades for completion. Annual maintenance and support costs are projected at \$168k. Further, a project of this scope would require professional design and comprehensive planning at additional expense. Efforts are ongoing through the CIP to fund HVAC upgrades and improvements to indoor air quality as well as HVAC efficiencies while operating our schools in a cost-effective manner that meets today's recommended HVAC standards. This process started with the high school in 2004, middle school in 2011, and with our most recent elementary school HVAC upgrades from 2015 to 2019. Proposed FY30 funding will begin the process of evaluating and upgrading the high school HVAC systems alongside anticipated Career Technical Center renovation. The selected mechanical engineering firm will be requested to evaluate school air purification options, filtration options, and cost analysis to install and maintain. The School Department will consider contemporary solutions through that process and may continue to consider implementing solutions like the one proposed as future renovations are completed throughout the district.
2025	Peirce Island, Outdoor Pool	Splash Pad at the Outdoor Pool	Deavan Quinn	199 Gates St, Portsmouth	Existing CIP Projects	In the recent updated Recreation Needs Study, there is support for building a splash pad somewhere in the city. We have been looking at various options for where to plan for this. One of the most important aspects of the location of the splash pad is in regard to equity and accessibility. The outdoor pool location is not one that is recommended due to the lack of bus service or bike lane access to the island. In creating the Greenland Road Recreation Facility (CIP24 Project # BI-20-RC-31), the thought was to add a splash pad to an upcoming phase, which is currently in FY30, but also continuing to analyze other locations that might be better for accessibility.
2025	FW Hartford Dr/ TJ Gamester Ave	Sidewalk repavement in the Woodlands neighborhood. The current sidewalks are very uneven and unsafe for pedestrians (especially children). It's very difficult to use a stroller or for my child to ride a scooter/bike safely. We've had numerous falls due to uneven, cracked and poorly repaired pavement on these sidewalks.	Riddy Quinney	160 FW Hartford Dr Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.
2025	Cate Street Bridge	Reconstruct Cate Street Bridge over Hodgson Brook. Its a NHDOT red listed bridge. Its only rated for 6,000 lbs. Fire equipment can not cross it and therefore endangering life and property on the Cottage Street Area. Its been on CIP for like 15 years.	Jim Hewitt	726 Middle Road Portsmouth, NH 03801	Existing CIP Projects	This project is already found in the CIP (FY24 CIP # TSM-18-PW-74 - "Citywide Bridge Improvements") for FY24 and FY25.

2025	Peverly Hill Road Reconstruction	Reconstructed Peverly Hill Road. Its been on CIPs for like 15 years then it disappeared. What is the construction date / year ?	Jim Hewitt	726 Middle Road Portsmouth, NH 03801	Existing CIP Projects	This project is moving forward, please see the City's website for the most up-to-date status of this project.. The project was removed from the CIP once it was fully funded. Projects are removed from the CIP for two distinct reasons 1) They are fully funded. 2) They are no longer possible given the current project conditions within the CIP timeline or are no longer desired by the City's Policy making bodies. Projects that are fully funded and are in process are found on the City's Project Page https://www.cityofportsmouth.com/publicworks/projects .
2025	Bartlett Street RR Trestle	Widen and raise RR underpass. This project was in CIPs for like 15 years then it disappeared in the 2016 CIP. What is the plan to get this bridge out of the Model T era ?	Jim Hewitt	726 Middle Road Portsmouth, NH 03801	Existing CIP Projects	The City has secured grant funding to study the reconfiguration of the RR bridge and intersection which will determine the feasibility and cost of these changes.
2025	Between Fox Point, Newington and Wagon Hill, Durham	Seacoast Drinking Water Reliability Project - New Water 20 in Diameter Main under Little Bay. Project Bids opened on September 5, 2023 and low bid was \$ 27 million. City budgeted \$ 5 million. Need new CIP allotment of \$ 22 million needed to cover this project	Jim Hewitt	726 Middle Road Portsmouth, NH 03801	Existing CIP Projects	This project is currently funded and in redesign. This project will be completed in phases. The first phase will be out to bid in 2024.
2025	The Woodlands	Our sidewalks are i walkable, and our roads need to be re-saved (as the city if doing in our neighbors Elwin Park)	Susan Tober	55 TJ Gamester Ave Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Woodland sidewalks added to CIP list. The City's Sidewalk Reconstruction Program Sidewalk List represents a backlog of high priority sidewalk projects as identified by the Sidewalk Conditional Assessment and other capital projects. The amount of work completed depends on available funds and construction bid prices.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2025	Maple Haven Neighborhood - North Side	<p>This CIP request is regarding the improvement/optimization of the existing sidewalks in the North side of the Maple Haven neighborhood and is submitted on behalf of the Maple Haven Neighborhood Association (MHNA). In late 2021/early 2022, the City of Portsmouth was planning a multi-phase project to improve/optimize the sidewalks throughout all of Maple Haven because they've consistently been identified as being in fair or poor condition by the City since the adoption of the 2017 CIP. They were also going to add a sidewalk along Winchester St and crosswalk across Ocean Road to connect the two neighborhoods for safer walkability. However, the project was put on hold due to some questions/concerns raised by residents and the inability to easily add a new sidewalk on Winchester St due to public ROW restrictions & easement requirements with the proposed crosswalk design. After 3 public meetings in 2022, the City requested the neighborhood gain consensus on how to move forward with the various proposed improvements, thus the MHNA was formed in conjunction with the Citywide Neighborhood Committee. Based on the issues encountered in 2022, it was decided the best path forward would be to split the proposed improvements into 3 separate CIP requests: 1) Fixing/optimizing existing sidewalks on Maple Haven North (which is this CIP request) 2) Fixing/optimizing existing sidewalks on Maple Haven South 3) Adding a crosswalk across Ocean Road to safely connect the North/Side sides of the neighborhood</p> <p>Fixing the sidewalks will generally improve the overall safety and walkability within Maple Haven for all residents since the current sidewalks are essentially unusable and people have to walk in the street. Based on door-to-door surveys conducted by residents, more than 50% of the Maple Haven North residents generally support the City's proposal along with 24 residents in Maple Haven South, as long as any tree that gets removed be replaced with appropriate, low root-growing tree that won't damage the new sidewalks in the future. See signatures attached to this request. Since the City's proposal was made and many of the signatures were obtained, a stop sign was installed at the corner of Suzanne/Simonds Rd. So, the location of the Simonds Rd sidewalk would now appear to make more sense on the opposite side of the original proposal. See the attached markup of the City's proposal with this potential adjustment to Simonds Rd.</p>	Charles Raye	21 Wallis Road Portsmouth, NH 03801	Existing CIP Projects	This project is an existing project (TSM-95-PW-69: Citywide Sidewalk Reconstruction Program). Maple Haven sidewalks are on the CIP list.
2025	Maple Haven Neighborhood - North Side	<p>This CIP request is regarding exploring options for the addition of a crosswalk on Ocean Rd to safely connect the North and South sides of Maple Haven neighborhoods and is submitted on behalf of the Maple Haven Neighborhood Association (MHNA) more safely. In late 2021/early 2022, the City of Portsmouth was planning a multi-phase project to improve/optimize the sidewalks throughout all of Maple Haven because they've consistently been identified as being in fair or poor condition by the City since the adoption of the 2017 CIP. They were also going to add a sidewalk along Winchester St and crosswalk across Ocean Road to connect the two neighborhoods for safer walkability. However, the project was put on hold due to some questions/concerns raised by residents and challenges with adding a new sidewalk on Winchester St due to confusion about public ROW locations & easement requirements with the proposed crosswalk design.</p> <p>After 3 public meetings in 2022, the City requested the neighborhood gain consensus on how to move forward with the various proposed improvements, thus the MHNA was formed in conjunction with the Citywide Neighborhood Committee. Based on the issues encountered in 2022, it was decided the best path forward would be to split the proposed improvements into 3 separate CIP requests: 1) Fixing/optimizing existing sidewalks on Maple Haven North 2) Fixing/optimizing existing sidewalks on Maple Haven South 3) Adding crosswalk across Ocean Road to connect the two sides of the neighborhood (which is this CIP request)</p> <p>Adding a crosswalk is something that nearly all residents expressed interest in, with over 50% of Maple Haven North residents and another 24 residents in the South in support. See signatures attached to this request. However, due to the issues City's original plan requiring an easement that has not yet been obtained, the MHNA requests the City look reassess all potential options for the location of the crosswalk within the closest proximity to both Suzanne Rd and Winchester St. See attached screenshot for an example of some potential crosswalk locations that could make the project more viable, but there may be other options the City could propose that would be great to discuss.</p>	Charles Raye	21 Wallis Road Portsmouth, NH 03801	Existing CIP Projects	Existing Project: TSM-95-PW-69: Citywide Sidewalk Reconstruction Program. Maple Haven sidewalks added to CIP list.
2025	Maple Haven Neighborhood - South Side	<p>This CIP request is regarding the improvement/optimization of the existing sidewalks in the South side of the Maple Haven neighborhood and is submitted on behalf of the Maple Haven Neighborhood Association (MHNA). In late 2021/early 2022, the City of Portsmouth was planning a multi-phase project to improve/optimize the sidewalks throughout all of Maple Haven because they've consistently been identified as being in fair or poor condition by the City since the adoption of the 2017 CIP. They were also going to add a sidewalk along Winchester St and crosswalk across Ocean Road to connect the two neighborhoods for safer walkability. However, the project was put on hold due to some questions/concerns raised by residents and the challenges with adding a new sidewalk on Winchester St due to confusion about public ROW locations & easement requirements with the proposed crosswalk design. 2024	Cate Street Bridge over Hodgson Brook	Replace NHDOT Red-Listed Cate Street Bridge (under documents cited: Project in CIP through 2022-2027)	James Hewitt		Existing Project in the CIP	This project is already found in the CIP (FY23 CIP # TSM-08-PW-68 - "Cate Street Bridge Replacement"). The FY23 CIP lists funding for FY24 and FY25.
2024	City Buildings	Switch interior and exterior lighting at City properties with energy-efficient LEDs. A) Investigate what types of bulbs/lamps are used inside buildings (corridors, rooms, desk lamps etc.) and on the outside of buildings (Security Lights) b) calculate electricity cost savings and CO2 Savings to be gained from switching from less-efficient to most efficient lighting options c) investigate, and if indicated, replace, lighting automation systems- so that most lights and switched off when not in use, or go to a suitable low-power mode.	James Christie		Existing Project in the CIP	This is an on-going City initiative that is being funded through an existing CIP item (FY23 #BI-01-PW-42 "Citywide Facilities Capital Improvements").
2024	Citywide	This is to create a budget to plant trees in the City of Portsmouth. The City should designate a number of trees to be planted each year, not just the 400th Anniversary year. The City should use it's bulk buying power to buy trees for planting by the City as well as for residents to plant on their properties. More trees will help decrease green house gases and reduce heat island effects with the shade trees can provide. (under documents identifies "Portsmouth Master plan, should also be in the Climate Action Plan")	Allison Tanner		Existing Project in the CIP	There is an existing, ongoing CIP item (FY23 # BI-04-PW-32 "Citywide Tree & Public Greenery Program") that provides funds annually for this program.
2024	Citywide	At the September 14, 2022 Portsmouth Conservation Commission meeting, the commission voted to request a \$500,000 land acquisition item in the FY 2023 - FY28 CIP be funded for the purchase of conservation lands and/or easements. Funding was removed for this item in last year's CIP and the conservation commission requests funding for the next 5 years starting this year. For the last several years, the conservation commission has worked closely with city staff to identify and prioritize undeveloped properties that follow recommendations from the Open Space Plan (2020). The Open Space Plan is a comprehensive plan following the Portsmouth Public Undeveloped Lands Assessment (PULA) study (2010), and included a public process to research and prioritize additional undeveloped land for protection, provide land stewardship guidance for existing open space lands, and identify opportunities to expand connectivity between existing open space assets, neighborhoods and trails. The Plan also considers integration of climate resiliency objectives as they relate to open space. Having funds available to respond to conservation land opportunities as they become available is crucial to implementing the plan and conservation commission and city staff follow-up research and planning. As a sustainable community, there are many additional benefits to securing these funds for conservation lands: 1) Preserving open space has been one of the primary concerns of the citizens of Portsmouth and is prominent in the Master Plan. 2) Open space provides a balance for increasing density of development and urbanization occurring in Portsmouth. 3) Purchasing land for conservation is the only sure method to permanently preserve land for future generations. 4) Limited existing Current Use conservation funds can be leveraged along with potential grant funding. 5) Conserved land can improve air and water quality, provide habitat that supports biodiversity and support reductions in greenhouse gases. 6) Maintaining this line item in the CIP is an action that this council can take to keep our environment healthy and sustainable for residents of Portsmouth now and in the future.	Barbara McMillan (Portsmouth Conservation Commission Chair - on behalf of the commission)		Existing Project in the CIP	There is an existing CIP item for this project (FY23 CIP # BI-95-PL-16 "Land Acquisition") with current funding for FY24 set at \$500,000. Changes to the funding can be made by either the Planning Board or City Council throughout the CIP process.
2024	Citywide Cemeteries (Union Cemetery, North Cemetery, Point of Graves, Pleasant Street, Old Hall, Cotton Cemetery, and Elmwood Cemeteries)	Completion of the 2013 Existing Conditions Assessment Report and Restoration Plan. The remaining twelve projects are starting to become time sensitive. Conditions have become worse in the last 10 years. We are writing grants and planning a capital fundraising plan, however those are not guaranteed. The following are options that you might consider during the budgeting process. \$50,000 would finish seawall at North. \$30,000 would start wrought iron replacement or headstone repair, \$15,000 would complete three small projects that are equally important in the restoration. (also see provided project list totaling \$408,000 for project suggestions).	Portsmouth Historic Cemetery Committee		Existing Project in the CIP	There is an item in the CIP project (FY23 # BI-05-PW-39 "Historic Cemetery Improvements") that is funded at \$40,000 per year, providing annually for this program. A sheet naming the Cemetery Committee's list of backlog projects can be added to the existing project. Funding adjustments can be made during the CIP process.
2024	Community Campus turf field to DPW Driveway	The new athletic fields were proposed to include direct bike/ped access from the DPW Driveway on Peverly Hill Road, but that piece was cut out of Phase 1. Please allow public access immediately and construct a side path past the Pike Industries driveway before the Peverly Hill project is completed. https://www.cityofportsmouth.com/sites/default/files/2019-11/RecreationFieldsBikePathPhase1.pdf .	Matthew Glenn		Existing Project in the CIP	Funding for this project has been identified in an existing CIP project (FY23 # BI-12-RC-24 "Additional Outdoor Recreation Fields").
2024	Elwyn Road Side Path	Elwyn Road Side Path (identified in document FY2021-2026 CIP. . Then it disappeared).	James Hewitt		Existing Project in the CIP	The project has been funded and is in the design phase. The project was removed from the CIP once it was fully funded. Projects are removed from the CIP for two reasons 1) They are fully funded. 2) They are no longer possible given the current project conditions within the CIP timeline or are no longer desired by the City's Policy making bodies. The majority of projects that are fully funded and in process are found on the City's Project Page https://www.cityofportsmouth.com/publicworks/projects .

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Four Tree Island	This spring I observed that one of the lamp posts was tipped over and submitted a picture to Portsmouth DPW via the Click Fix App. Yesterday I received a notification that the lamp post has been removed but the staff determined that the scope is a capital project that goes beyond routine maintenance. They suggested that a new lighting system should be requested through the CIP Process. I don't believe that any of the lamp posts have been lighted all summer.	Julie Cousins		Existing Project in the CIP	Four Tree Island is managed as part of Prescott Park. Capital Funding is identified in the CIP project (FY23 #BI-11-PW-34 - "Prescott Park Facilities Capital Improvements") for upgrades to Prescott Park's infrastructure. This item will be added to projects to be completed.
	Frank Jones Farm Neighborhood for the area from Woodbury Avenue between Granite Street and Bartlett Street Intersections as well as involved connecting streets	Major traffic and safety challenges have impacted the 1.10 mile distance that includes residential Woodbury Avenue and connecting streets. This application is in reference to the current accesses and egresses to and from residential Woodbury Avenue: This one-mile-plus stretch of Woodbury Avenue between Market Street Extension/Granite Street traffic lights and the Bartlett Street intersection has: No stop signs, One radar speed-limit sign, without data collection, on one side of street, No speed humps or tables, One raised pedestrian crossing. No crossing signs at school bus stop intersections , No signage or pedestrian crossing at access and egress for New Franklin Elementary School. The last vehicle count on this stretch was over 57,000 vehicles per week in a then SR2-zoned neighborhood. The most recent count public records online are from 1998. There is no current count available. In summary, there are 23 accesses and egresses on residential Woodbury Avenue, not including more than 50 residential driveways, at which vehicles are not ever required to stop. Two persons have been killed in traffic accidents on Woodbury Avenue, one on nearby commercial section and one at the intersection of Dennett Street. The number of minor and major accidents involving vehicles, pedestrians, pets, property damage, and near misses, are numerous. Those reported are available in City records, have been reported in local newspapers and recounted by Frank Jones Farm Neighborhood residents and witnesses. This acute traffic and safety situation demands a systemic, complete solution, rather than a piecemeal, temporary response. Residents and homeowners in the Frank Jones Farm Neighborhood have submitted numerous requests and petitions with detailed measures that should be implemented to make our neighborhood safe, many of which are included in this request.	Lenore Bronson		Existing Project in the CIP	Traffic calming along Woodbury Avenue is currently funded and in design. Funds were previously approved to make improvements to the gateway to this neighborhood which will include traffic calming.
2024	Haven Park, Pleasant Street	Improve Lighting - The park is very dark at night, please find some way to provide lighting along the path.	Mary Cline		Existing Project in the CIP	There is an existing CIP project (FY23 #BI-02-PW-31 "Citywide Park & Monument Improvements") that may address this project. This item can be added to the list of maintenance upgrades.
2024	I-95 Sound Walls (2 Requests)	Construct Sound Walls for Pannaway Manor, from Woodbury to Maplewood, and New Franklin School (under document "Identified in CIPS from 2007 to 2022). The constant noise pollution coming from this major highway through the Portsmouth neighborhoods along this section is tremendous and has increased over the years. My family and neighbors can no longer leave their porch doors and windows open while inside having a conversation, phone call, or work meeting or have a gathering outside due to the noise and inability to hear anything else. The intense noise has brought the property value of this neighborhood down, along with the litter created. Unfortunately speed humps and medians have been added to Maplewood Avenue: trucks, trucks with trailers & equipment, dump trucks, school buses, campers & RVs (all scrape, clang, people that drive over them intentionally with increased speed, people that "Whooooo!" when driven over them, have added to the loud constant baseline from 95. I could go on if needed and will if that helps get something, anything initiated to alleviate this problem. (Identified in document: Identified in CIPS from 2007 to 2022)	James Hewitt & Jessica Dolan		Existing Project in the CIP	There is an existing CIP project (FY23 #BI-07-PW/NH-41 "Sound Barriers in Residential Area Along I-95") that addresses this issue. The NHDOT has determined east side of I-95 is not eligible for State and Federal Funding. Staff has reached out to determine if a solely City funded project could be completed. Previously allocated funds can be used to study this request and determine the appropriate funding level for a sound barrier project.
2024	Maplewood Ave Culvert / Bridge	Replace NHDOT Red-Listed Bridge (under documents cited: Portsmouth CIP to FY 2022-2027 CIP)	James Hewitt		Existing Project in the CIP	This project is in design and has already been funded. The project was removed from the CIP once it was fully funded. Projects are removed from the CIP for two distinct reasons 1) They are fully funded. 2) They are no longer possible given the current project conditions within the CIP timeline or are no longer desired by the City's Policy making bodies. Projects that are fully funded and are in process are found on the City's Project Page https://www.cityofportsmouth.com/publicworks/projects
2024	Market Street and Russell Street	Potential Roundabout Intersection (Identified in document: Last year's CIP TSM-16-PL-66)	James Hewitt		Existing Project in the CIP	This intersection is an existing CIP project (FY23 #TSM-16-PL-57 "Russell/Market Intersection Upgrade").
2024	Market St from Kearsarge Way to Woodbury Avenue	Expanding/reconstruction of existing asphalt pedestrian path to a multimodal path for pedestrians, biking, and micro mobility vehicles. To include priority crossing at all road crossings (Kearsarge Way, Spinnaker Way, Portsmouth Blvd), improve wayfinding, and pedestrian focus illumination along paths.	Kenneth Ferrer		Existing Project in the CIP	There is an existing project that could encompass this request (FY23 #TSM-21-PL-56 "Market Street Sidewalk").

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Middle Street and Middle Road	The slip lane at Middle St/Middle Rd was blocked off to increase traffic calming on Middle Rd. The removal of the slip lane has reduced the speed, as was intended. For two years, bollards have been installed to block off the slip lane. When winter comes, jersey barriers from downtown dining are moved into place for the winter months. It seems time to make the removal of the slip lane permanent and more attractive. There is an active CIP request in the CIP concerning traffic calming measures for Middle Rd. It would be nice if the slip lane removal could be rolled into that projected work, with money added to accomplish the work if necessary.	Liza Hewitt		Existing Project in the CIP	This request is currently in the planning process and will be completed with funds identified in CIP item (FY23 #TSM-21-PW-71 "Traffic Calming")
2024	Pannaway Manor	Complete Street Program - Pannaway Manor was established in 1940 making utilities (water, sewer & drainage) 82 years old and past their designed lifespan. Sidewalks and roadway reconstruction are scheduled in 2023. Pannaway is in need of a complete street makeover and not just sidewalks and roadway repairs.	Tyler Dow		Existing Project in the CIP	Roadway paving is scheduled based on the City's Pavement Management Plan which is revised annually. Sidewalks are programmed to be upgraded starting in 2023. No further action is recommended.
2024	Parrot Avenue	On parrot Avenue there is no sidewalk from Junkins Avenue to Fleet Street. Request that a sidewalk be installed in this area.	Ken Goldman		Existing Project in the CIP	This project is part of an existing project (FY23 TSM-15-PW-74 "Junkins Avenue Improvements").
2024	Robert Lister Academy - Far right side of the driveway located in front	Sidewalk - continue the concrete sidewalk with curbs where needed to Borthwick Avenue. The existing sidewalk disappears in places. What is existing is unsafe to walk on.	Donna J. Garganta		Existing Project in the CIP	CIP item exists. Will be included in the Pannaway Manor Sidewalk project.
2024	South Playground	There is a desperate need for public restrooms for Spring-Summer and Fall use of the South Playground. Currently what exists are 3 porta-potties which are very unhealthy. The fields are used daily by 100's of pickleball players, dog park attendees, playground attendees, tennis courts, basketball courts, ballfields, etc. The construction of seasonal restrooms for public use between hours of 8am and 8pm and months of April to November would be a huge addition to our beautiful recreation facility. To be able to use the facility/ wash hands/ privacy etc. would be a highly appreciated for the hundreds of South Playground users. Perhaps similar to what is at Prescott Park	Brooks Stevens		Existing Project in the CIP	This project is part of a new recreation project submission for FY24.
2024	Thorton Street Extension	Create a safer and less busy road, making this street one way or adding sidewalk	Nathan Krakow		Existing Project in the CIP	Part of an existing CIP project COM-22-PW-99 "Creek Neighborhood Reconstruction" Funding FY25
2024	Coakley Road and Larry Lane	Repaving of Coakley and Larry Ln, additional length of sidewalk along Coakley to entrance of neighborhood.	Thomas Morley		Sidewalks & Roadways	Roadway paving is scheduled based on the City's Pavement Management Plan which is revised annually. Addition of sidewalk can be added as a CIP project for sidewalk upgrades.
2024	Edmond Avenue (16 Requests)	(Combined) New Sidewalk - Edmond Ave needs a sidewalk. There are many cars that use that road along with many children that take that road to go to school or home. It becomes very dangerous at night where there is no clear path for pedestrians.	Beatriz Alden, Mari Lister, Ryan Cress, Cayleigh Dalrymple, Tray George, Bill Shea, Cassandra L Jones Rev Trust, Brianna Spechvilli, Marie Lyford, Tyler Bradbury, Katheryn Avger-Campbell, George Silva, Phyllis O'Connell, Kellie O'Connell Lang, Ralph Minderhoud, and Caitlin Burke		Sidewalks & Roadways	This request can be incorporated into the existing Edmond Avenue Capital Project COM-23-PW-95. This request will require additional funds to be included and will extend the timeline of the project.
2024	Lafayette Rd, southbound side from Ocean Road to the entrance to Portsmouth Green (McKinnon's)	Sidewalk - This is a fairly high speed, and very highly trafficked area, with many pedestrians from Hillcrest, Beech stone, Patriot Park and the like. Accidents involving pedestrians, scooters, and bicycles are not uncommon here.	Scott Bornstein		Sidewalks & Roadways	There is an existing CIP Project (FY23 # TSM-08-PL/NH-57 "US Route 1 New Side path Construction") that would be able to encompass this request if desired. It could be added to the existing list of projects.
2024	Ocean Road (4 Requests)	(Combined) Construct a sidewalk along Ocean Road starting at Winchester Street and ending at the rail trail. I'm aware this is a state road so it would require state approval, but it would provide a safe way for residents of the Maple Haven neighborhood, Ocean Road and other adjacent neighborhoods to walk to the rail trail. - and- As discussed in the suburban Master Plan, connecting the suburban amenities through sidewalks, and bike paths will both connect the suburbs with downtown, as well as allow pedestrian and bike access to all of the amenities from Green Rd over to Rt 1/Lafayette and in between.	Charles Raye & Phil Casey & Fred & Elaine Butts (2 requests)		Sidewalks & Roadways	This is a busy street and would warrant a side path. Further investigation is needed for implementation.
2024	Corner of Topaz & Onyx	The blind turn on Topaz/ Onyx is so dangerous. Cars can't see kids and 3 with about 21 kids in the neighborhood biking/ walking. Someone will get hit.	Briana Spechvilli		Sidewalks & Roadways	This request can be incorporated into the existing Edmond Avenue Capital Project COM-23-PW-95. This request will require additional funds to be included.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Peverly Hill Road	Add sidewalks for Peverly Hill Road (under documents cited: Portsmouth CIP until 2020-2025 then it stopped)	James Hewitt		Sidewalks & Roadways	Funds have been allocated for this project. Additional funds will be requested if the opinion of cost indicates more funding is needed.
2024	TJ Gamester Ave/FW Hartford Drive	Replace sidewalks, which are mostly deteriorated and not in good shape. Sidewalks are about 30 years old and are cracking, uneven, eroded. I think maintaining existing sidewalks should take precedence over constructing new sidewalks.	David Heller		Sidewalks & Roadways	There is funds currently identified for sidewalk improvements every 2 years (TSM-95-PW-64 "City Sidewalk Reconstruction"). This request can be put on the list of sidewalk projects to be scheduled to be rehabilitated.
2024	Banfield Rd - 850 BANFIELD RD, map-lot 0275-0005-0000 (City Owned parcel)	Parking for the rail trail will be necessary for many of the residents in the suburban area because bike paths are not available to get to the Rail Trail. Equally important, having a small park where riders can pull off the trail and eat lunch or rest would significantly increase the enjoyment of the trail for riders and local residents. I will be submitting other CIP's for an increase in parks in the greater Ocean Rd and Banfield Rd Suburban areas as well.	Fred & Elaine Butts		Bicycle & Pedestrian	During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current project set aside to fund projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Citywide (with an emphasis on school and downtown areas)	(abridged) "The goal of this proposal is comprehensive, safe bicycling infrastructure for the city of Portsmouth". Example Project #1 Congress and State Street reroute. Shut down Congress street to automobile traffic from Maplewood all the way through Daniel Street up to Bow St/Scott Ave. Example Project #2 Create a bike and pedestrian centric route from Market Street to Gosling Road; Market Street all the way from the heart of downtown to Gosling Road and into Newington and into the commercial entities there achieved through road narrowing and bike/ped path widening as well as other road and street modifications. Example Project #3) New Franklin School - Safe Routes to School path for the kids to bike to school. Example #4) North Mill Pond Trail and Greenway: Improved Bike/ped accommodations along the bank of North Mill Pond as well as access roads such as Bartlett and Maplewood.	Rebecca M. Hanley		Bicycle & Pedestrian	During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Downtown	Expanding Sidewalks along popular streets. Downtown Portsmouth has narrow sidewalks but large number of on street parking spaces. This proposal asks that the City consider eliminating some parking spaces and widening sidewalks. This would help redesign the downtown experience, making it a much more pleasant place to visit. Multiple other benefits can be realized: wider sidewalks are needed for ADA reasons, as well as giving pedestrians enough space to move in busy months; wider sidewalks give opportunity to plan more social space as well as on-street dining options; air quality improves due to fewer cars, less idling, etc.; widening the sidewalks creates more opportunities to plant trees, thereby increasing shade and reducing the urban heat island effect. More trees help clean the air also; reducing parking is shown to actually encourage commercial activity - shops won't lose customers, but may gain; Removing all spots (except handicapped) from streets reduces the amount of cars cruising for a spot Two key locations to consider: Market St between Bow and Daniel St: remove all parking except for handicapped. & Top of Congress St: narrow road to one or two lanes instead of three. Remove all parking except for handicapped. Supporting material: Reducing parking makes cities more livable(EESI) https://www.eesi.org/articles/view/how-eliminating-parking-actually-makes-cities-better , Eliminating parking does not reduce visitor count or commercial activity. https://content.tfl.gov.uk/walking-cycling-economic-benefits-summary-pack.pdf	James Christie		Bicycle & Pedestrian	This is a broad request but can be reviewed as a part of the update to the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current project set aside to fund projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Gosling Rd from Pease Blvd to Woodbury Ave	Cycle track or Multi Use path on Gosling Rd, as recommended in the Bike/Ped plan: Remove travel lane and/or median for two-way cycle track on south side of road from Woodbury Ave to Spaulding Tpk ramps. Install sidewalks on both sides in conjunction with cycle track reconstruction.	Matthew Glenn		Bicycle & Pedestrian	A section of this project has been completed, from the McDonalds on Gosling Rd to Woodbury Ave. The remainder of this request could be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Hampton Branch Rail Trail	(Combined) To make the soon to be created Hampton Branch Rail Trail as useful as possible the city should consider adding bike lanes to the roads that connect to the business corridor on Route 1 South. And so there should be bike lanes on Heritage Ave and Ocean Road. - and - improve bike/ped access to the new Rail Trail, Skate Park and Peverly Hill path. From the 2018 update to the Bike/ped plan: Project 19: "Widen existing sidewalk on south side of Portsmouth Plains Field for side path connection from Peverly Hill Rd to Hampton Branch Trail. Provide side path connection through future athletic fields with parking access for trail users. " Project 20: "Provide trail link to existing sidewalk at NH 33 overpass. Widen existing sidewalk for side path from tail to Greenland Rd. Reconstruct sidewalk on Greenland Rd. Bike boulevard on Greenland Rd requires traffic calming near intersection with NH33 to provide low-stress connection to Borthwick Ave over existing pedestrian bridge."	Jonathan Sandberg		Bicycle & Pedestrian	There is a current CIP project that exists that can be used to accomplish this request (FY23 # CIP-15-PL/NH-51 "Hampton Branch Rail Trail"). Currently there are a number of projects identified that will improve bicycle access to the new rail trail. This request can be added to the list of identified projects for this CIP funding.
2024	Lafayette Road from Wilson Rd to Andrew Jarvis Drive	Construct Side paths on both sides of Route 1. The state project (#29640) from Wilson south to Rye is crawling along, but there is a real need for a safe bike route across Sagamore Creek. From the Bike/Ped plan: Based on NHDOT existing Rte. 1 corridor study, construct side paths on each side of road in available ROW. No alteration of existing traffic patterns necessary.	Matthew Glenn		Bicycle & Pedestrian	Parts of this request are addressed in a number of other capital projects.
2024	Mirona Rd and Lafayette Rd (at the intersection). On the side of Lafayette Rd.	Creating walking and biking access to the Urban Forestry from Lafayette Rd would allow people to gain access to the park without having to walk or bike along dangerous sections of Lafayette Rd and Elwyn Rd. There is actually a makeshift path that goes from the UF trails to Lafayette, but it's not intentional or particularly safe as its overgrown.	Fred & Elaine Butts		Bicycle & Pedestrian	There is an existing CIP Project (FY23 # TSM-08-PL/NH-56 "US Route 1 New Sidepath Construction") that would be able to encompass this request if desired. It could be added to the existing list of projects.
2024	Ocean Road	Multi-use path on Ocean, connecting Maple Haven to Rail Trail	Sarah Jarvis		Bicycle & Pedestrian	This request could be reviewed in conjunction with the update to the Bicycle/Pedestrian Plan. During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current ongoing CIP project to fund capital projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Urban Forestry Center connection to Gosport Road	With the Elwyn Road side path project starting soon, there should be a better bike/ped connection on through to Gosport Road. At a minimum the existing narrow dirt trail could be leveled and widened with signage. From the 2018 update to the Bike/ped Plan. "Shared-use path through Urban Forestry Center connecting to Gosport Rd/ Odiorne Point partially through existing utility easement. Signed bicycle route on Gosport Rd/ Odiorne Point to connect to Sagamore Rd."	Matthew Glen		Bicycle & Pedestrian	During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current project set aside to fund projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Woodbury Ave from Gosling Rd to Market Street	Bike ped improvements to Woodbury Ave, as outlined in the 2018 Bike/ped plan update: Cycle track one-way each side for access to shopping and residential areas. Short term, may be street-level with flexible bollard separation; long term, full reconstruction with permanent separation. Lane narrowing and/or travel lane reduction require. Reconstruct and widen sidewalks on two sides for improved and ADA access to shopping and transit. Short term, make all crosswalks ADA-compliant. Long term, reconfigure travel lanes and create vegetated center median to facilitate pedestrian and bicycle crossing.	Matthew Glen		Bicycle & Pedestrian	During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current project set aside to fund projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").
2024	Woodbury Ave	Woodbury Ave Complete Street Reconstruction (City of Portsmouth Bicycle and Pedestrian Plan 2014) Project ID: 60 Sub Project ID 4. Cycle track one-way each side for access to shopping and residential areas. Short term, may be street-level with flexible bollard separation; long term, full reconstruction with permanent separation. Lane narrowing and/or travel lane reduction require. Reconstruct and widen sidewalks on two sides for improved and ADA access to shopping and transit. Short term, make all cross walks ADA compliant. Long term reconfigure travel lanes and create vegetated center median to facilitate pedestrian and bicycle crossing.	Kenneth Ferrer		Bicycle & Pedestrian	During the updating of the 2014 Bicycle/Pedestrian Master Plan, this project could be considered as an addition to the project list. The Updated Bike/Ped Master Plan seeks to consider current community needs and values in its choices and prioritization of projects. There is a current project set aside to fund projects that are listed in the Bicycle/Pedestrian Plan (FY23 # TSM-15-PL-52 "Bicycle/Pedestrian Plan Implementation").

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Prescott Park	Make use of the rectangular cutout to the left of existing piers by adding floats so boats can dock. The use of existing granite stairs can be restored. Look at what Newburyport Mass did with their waterfront for ideas. More floats along the existing areas will allow visitors by boat to doc and explore the park and Portsmouth. There is significant room for expansion along the city waterfront for adding places for visitors to come by water.	Marc Stettner			This project would be eligible for consideration as part of Project FY23 BI-19-PW-33 "Prescott Park Master Plan Implementation."
2024	Citywide	In the CIP the city should include funding of \$500,000 per year for the transition of gas powered maintenance equipment to all electric, in the both city and school departments.	Ted Jankowski		Climate Action Plan	This should be included as part of the Climate Action Plan (CAP) where technical analysis or public input can be completed. This item introduces a climate action capital investment priority in advance of the CAP. The CAP will engage the community and technical experts in a citywide discussion to determine the most impactful climate related investment priorities and timelines for implementation.
2024	TBD	Plan, design and build a solar power array and battery storage facility of sufficient capacity to power all City buildings. The purpose is to provide a local, clean energy source that can offset the electricity used by City building and vehicles. Power generated is metered and fed into the local grid. Solar panels could be sited on City Building roofs, or aggregated into one site. The Public Undeveloped Land Assessment lists several sites that may be suitable. This project is intended to bring long-term efficiency savings to the city; the initial planning and construction costs should be paid back by the reduction in the city's utility bill.	James Christie		Climate Action Plan	This should be included as part of the Climate Action Plan (CAP) where technical analysis or public input can be completed. This item introduces a climate action capital investment priority in advance of the CAP. The CAP will engage the community and technical experts in a citywide discussion to determine the most impactful climate related investment priorities and timelines for implementation.
2024	Downtown	Plant a Shade way to give pedestrians shade and reduce urban heat. There seem to be many opportunities for placing more trees along popular routes through town. Examples: State Street in downtown, Parrot Ave from the Library to Jenkins. This proposal asks that the city consider planting trees where there are wide gaps between trees now. The intention is to give pedestrians nearly unbroken shade during the hottest parts of the day. EPA: "Trees and vegetation lower surface and air temperatures by providing shade and through evapotranspiration. Shaded surfaces, for example, may be 20–45°F (11–25°C) cooler than the peak temperatures of unshaded materials." Reduced energy use: Trees and vegetation that directly shade buildings decrease demand for air conditioning. Improved air quality and lower greenhouse gas emissions: By reducing energy demand, trees and vegetation decrease the production of associated air pollution and greenhouse gas emissions. They also remove air pollutants and store and sequester carbon dioxide. Enhanced stormwater management and water quality: Vegetation reduces runoff and improves water quality by absorbing and filtering rainwater. Reduced pavement maintenance: Tree shade can slow deterioration of street pavement, decreasing the amount of maintenance needed. Improved quality of life: Trees and vegetation provide aesthetic value, habitat for many species, and can reduce noise.	James Christie		Climate Action Plan	This should be included as part of the Climate Action Plan (CAP) where technical analysis or public input can be completed. This item introduces a climate action capital investment priority in advance of the CAP. The CAP will engage the community and technical experts in a citywide discussion to determine the most impactful climate related investment priorities and timelines for implementation.
2024	Maplewood Avenue Bridge	Amendment to Existing Maplewood Avenue Bridge Replacement CIP Project - Please consider the addition of a self regulating tide gate or sluice gate to the Maplewood Avenue Bridge culvert to limit the impacts of sea level rise and flooding in the North Mill Pond neighborhoods. Such a gate would mute the high tide elevation in North Mill Pond, especially during storm events. The tide gate system should be designed in such a way that it does not inhibit recreational use of North Mill Pond (i.e. kayaks and canoes that currently pass through the culvert).	James Golden		Climate Action Plan	This should be included as part of the Climate Action Plan (CAP) where technical analysis or public input can be completed. This item introduces a climate action capital investment priority in advance of the CAP. The CAP will engage the community and technical experts in a citywide discussion to determine most impactful climate action related investment, priorities and timelines for investment and implementation. This bridge has been identified for complete replacement in the State's 10-Year Plan, this project may be best to be revisited upon scheduling of that project.
2024	South Meeting House Marcy & Meetinghouse Hill	This building is in a terrible state of disrepair - it is historic and will soon be beyond repair if not addressed soon.	Mary Cline		Facilities & Infrastructure	This project is part of a city building and should be referred to staff for review. This is part of an Existing CIP item (BI-01-PW-42 "Citywide Facilities Capital Improvements"). This request will be added to back log of facilities projects.
2024	165 Woodlawn Circle - Portsmouth	I have lived in this home for over (45) years. Since new housing has been built in my neighborhood my finished basement has been flooded (3) times the last (10) years. I am not the only resident that has been affected by the ground water re-direction due to the new residences have been approved and built. If you need validation please poll all of the residents in the Woodlawn / Hillcrest and Echo Ave. neighborhoods. We would appreciate new storm water catch basins, under street culverts to mitigate this increased flooding. The underground water tables have now shifted permanently and this issue will only get worse as time goes by. If you have any questions or concerns related to this request please contact me	Jeffrey Abrams		Facilities & Infrastructure	There is an item in the CIP COM-15-PW-96 that provides funds annually for stormwater management. This project can be added to the list of drainage projects to be completed.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Bohenko Gateway Park	Imagine a public sculpture garden welcoming visitors to Portsmouth as they take the Market Street Gateway from Interstate 95 into the city's downtown? That's the vision of the Portsmouth NH 400 Legacy Committee which is tasked with creating a project that will last well beyond the 400th anniversary in 2023, enriching the city for years to come. Located in the city's already existing Bohenko Gateway Park, this new sculpture garden will have a maritime theme, celebrating the river and all that is connected with it through public art. Just a short walk from our bustling downtown, this sculpture garden will attract visitors and residents of our Seacoast community, providing the perfect location for quiet reflection, a family picnic, or educational programs on the city's maritime history. According to city staff, the site could accommodate 6 to 8 sculptures. The task force recognizes this would be ideal but, because of time and resource limitations, it's not feasible to complete this project during the Portsmouth 400 celebration in 2023. The goal will be to start with one or two sculptures in 2023, funded through private and individual donations and grants, with plans to expand after the celebration. Over 30 artists, many of them local, have responded to the RFP, which was released in August of 2022, sharing exciting ideas for public art. In the next couple of months, the first artist will be selected by a review team including representatives from the city and from the community, chosen for their expertise in public art. The plan is to build on this in the years ahead. We are requesting \$50,000 a year each year in Capital Improvement Program funding, which should provide for one new sculpture each year. This project connects with the city's action item to encourage public access, use and enjoyment of the downtown waterfront, which is included on p. 174 of the city's master plan.	Ernie (Ernestine) Greenslade		Better Served by Another Process - Purview of Another Board, Committee or City Department	The City is forming a Public Arts Committee and this initiative should be directed to that group for consideration and prioritization.
2024	Citywide	In the CIP the city should include funding of \$42,000 in FY24 for a deep tine aerator to help the DPW to efficiently aerate our parks and playing fields. Deep tine aeration allows oxygen and water to reach the roots of plants and grasses allowing them to thrive and grow. You may have noticed that many of our parks and playgrounds have become hard and impacted. Last year the DPW received a quote for \$42,151 for a deep tine aerator, and I urge the city to support this needed machine and add it on the CIP.	Ted Jankowski			This equipment would be beneficial for the maintenance of the City's parks and fields, however, this request would be better served through the City's Rolling Stock Program which plans for future equipment purchases.
2024	Citywide (Where Street Signs Do Not Now Exist)	I moved to Portsmouth from Pennsylvania in November, 2021 and have experienced difficulty in finding my way around, mainly because of the lack of street signs. The main streets need to be identified at every cross street, not only where the main streets begin. For example, the streets leading from the light at the CVS and Islington Street to the service center on Cottage Street is poorly marked.	Mary Lou Green			This is not a capital request. The Department of Public Works (DPW) has a Signs and Lines group and this request will be passed on to the DPW staff.
2024	Community Campus	Quaint though it is, Puddle Duck is inadequate and over-subscribed. The city needs a municipal ice skating rink that serves everyone from hockey players to figure skaters. ... All of whom have to travel far afield to city-owned rinks elsewhere, if they can. And we are in New England! One possible model for this is Bryant Park in Manhattan - a public-private partnership that operates an outdoor rink during winter months. The contractor that installs and operates the rink removes it at winter's end, and the area returns to park land. There are fees to skate and rent skates. Portsmouth might adjust those depending on the whether the skaters reside in town. The city also might sell advertising, as pro sports stadiums do, to interested businesses.	Elizabeth Mooney			This project is currently under review as part of a Recreation Needs Study and may be moved forward as a capital project in a future year.
2024	Elwyn Rd, Regina Rd, Gosport	Resident is requesting a cross-walk and cross-walk signs be erected at the intersection of Elwyn Rd, Regina Rd, and Gosport Rd. When leaving Regina Rd to Elwyn Rd, there are 2 blind corners on either side. A sidewalk would increase safety for pedestrians crossing Elwyn Rd. Frequently cars do not abide by the speed limits on Elwyn Rd and a crosswalk with signage would help alert motorists to slow to pedestrians especially when approaching the blind corners.	Joshua Carlson			Signage and crosswalks can be completed without a capital project. This request will be forwarded to the Parking and Traffic Safety Committee for consideration. The addition of a sidewalk or multi-use trail to improve accessibility and safety along Elwyn Road has been identified in the 2014 Bicycle and Pedestrian Plan.
2024	Emery Street	Add sidewalks and street lights so that elementary students from Cutts Cove neighborhood can safely walk to New Franklin School, and middle school students on Myrtle avenue can safely walk to the bus stop. Emery street can be dangerous with vehicle traffic, especially in winter when there are snow banks and it gets dark earlier.	Justin Maji			It would be most beneficial if this project were sent to the Parking, Traffic and Safety Committee for review and recommendation.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Gosling Road	Construction of Pedestrian Crosswalk with LED Signaling on Gosling Road (in the section separating Gosling Meadows from the Mall businesses in Newington). It is proposed that at least one pedestrian crosswalk path be constructed allowing Gosling Meadow residents to safely cross Gosling Road to access the businesses and the bus stop on the other side of the street including the mall businesses. The crosswalk should include LED flashing lights and an adequate timed duration so that safe crossing of the street is possible for seniors, mothers with baby-carriages as well as everyone else. The design and location should be determined after consulting with Gosling Meadows residents and the Portsmouth Housing Authority, which oversees the Gosling Meadows neighborhood.	Joan Hamblet & Peter Somssich			Mid-block crossings are not considered safe. Crosswalks with pedestrian signals already exist on Gosling Rd. This project should be reviewed by the Parking, Traffic and Safety Commission for further review of potential changes to this roadway.
2024	Greenleaf Avenue	Speed Bump or table on Greenleaf Avenue just southwest of where it intersects Lafayette Road. Traffic traveling southwest on Greenleaf Avenue using it as a shortcut to the Route 1 bypass travels at speeds well beyond the posted 20 MPH. A Zoom was conducted to two years ago to discuss road alterations, though a speed bump may be a more cost-effective solution.	Gregory Hebert			Traffic calming is identified in the CIP item TSM-21-PW-71. This item will need review and approval by the Parking and Traffic Safety Committee.
2024	Historic Areas	Replace all aluminum square sign (Stop, No Turn, Etc.) posts in/near market square - All the Stop, No Turn, etc. square aluminum sign posts need to be replaced. They are very ugly, dilapidated and do not match the street lamp posts. The city should form a committee just for this purpose to see what types of street sign posts are available that better match the lamp posts. Also the sign placement is confusing in some location and should be reviewed if these sign posts are replaced.	Marc Stettner			These sign posts can be replaced with crashworthy posts that meet current safety standards and are black. This can be done as part of regular sign maintenance. This would benefit from being referred to the Parking, Traffic and Safety Committee for further direction.
2024	Maple Haven Park	Water fountain upgrade.	Scott Young			This request should be referred to the City's Public Works Department. There is covered by an existing CIP project that covers upgrades to park infrastructure of this nature, and it could be added to the repair schedule for the maintenance of parks program.
2024	Marcy Street from Pleasant to Hancock	Traffic Calming - Marcy Street is a narrow two-way street. It is a cut-through for Maine and NH commuters in the morning and the evening. It serves as a corridor for commercial vehicles trying to bypass downtown Portsmouth. There are multiple blind driveways, multiple blind intersections and this area is frequented by pedestrians, bicyclists and pets. The speed limit is 20mph, but traffic routinely exceeds this - often by a factor of 1.5X to 2.0X (30-40mph). I would like to see speed tables - as have introduced in other areas of Portsmouth - one on either side of the highest point on Marcy Street at the south meeting house. Its only a matter of time before serious injury or property damage occurs.	Cris Forkel			This request falls into an existing CIP item TSM-21-PW-71. This request should start with a Parking and Traffic Safety Committee request. If deemed eligible, funding is already identified in the CIP. The next course of action is to request the Parking and Traffic Safety Committee to review.
2024	10 Middle Street	Accessibility access at Portsmouth Historical Society is in severe need of upgrading. The access makes no sense, the incline is incorrect & people with mobility issues are having difficulty accessing the building. This is a city owned building. To redesign and upgrade the accessible entrance to the Portsmouth Historical Society. The city assisted in getting our restrooms accessible now we need help getting the entrance/exit done.	Robin Lurie-Meyerkopf (on behalf of Portsmouth Historical Society)			This is part off a City-owned building and should be referred to city staff to review. There is an Existing CIP item BI-01-PW-21. that could fund this item. This request could be added to the back log of facilities projects.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	New Franklin School	(abridged) Proposed Safety Fence would be located on public land surrounding New Franklin School, in two locations: (1) between an abutting hotel parking lot and NFS Nature Path & Playground (see purple dotted line at right angle in map below); (2) between NFS playground and Route 1 (see purple dotted line in upper-right-hand corner). Additional detail/background for this project: On behalf of the New Franklin School PTO (of which all New Franklin School parents and teachers are members), we propose the construction of a tall, non-scalable "Safety Fence," at the sites described above, for the following, important safety reasons. Due in part to increased homelessness and lack of affordable housing in Portsmouth, it has become increasingly common for Portsmouth's homeless population to camp, and individuals to consume alcohol, smoke, and use drugs, in the public "green spaces" in and around two private hotels abutting New Franklin School - Anchorage Inn & Suites and Howard Johnson (both are visible in map above) - and in and around the Stark Street bridge crossing Route 1 (see upper-right-hand corner of map above). Our safety concerns are two-fold: First, without a proper physical barrier between these areas of known drug activity and the above pictured play areas (including the nature path and playgrounds), individuals who are camping out and/or using drugs (regardless of housing status) have access to our children. Second, without a secure barrier, beer cans, cigarette "butts," and drug paraphernalia are accessible to our children. Parents have recently witnessed many instances of these items and other evidence of drug use. This presents a serious safety issue. New England has seen multiple recent cases of children overdosing from mistakenly handling fentanyl residue. Without securing them from areas of known drug activity, our children are needlessly exposed to this risk. For all of the above reasons, building a Safety Fence on public land must be a top priority for the City of Portsmouth for as long as New Franklin School's children play and learn in immediate proximity to these corridors and hotels.	New Franklin School PTO			School department staff affirm the needs referenced in this proposal. This work can be better addressed as a part of the regular property maintenance and safety item through other local or federal funds. Staff will actively pursue resolution of this concern.
2024	Ocean Rd in the vicinity of the junction of map-lot 0282-0001-0000 and 0283-0018-0000	The traffic on Ocean Rd seems to only be increasing in volume and speed. It does not seem that DOT will allow speed tables on Ocean Rd. But the radar speed-reading devices are said to be effective by Portsmouth Police Department and could help slow traffic.	Fred & Elaine Butts			This can be done without a capital project and should be referred to the Parking, Traffic and Safety Committee.
2024	65 Onyx Road	Our small "jewel" neighborhood has exploded with young children over the past few years. The neighborhood is more of a loop, rather than "no outlet." Unfortunately, some drivers come through thinking that it's a quick exit to Maplewood Ave and they drive way too fast. Some delivery trucks are also guilty of excessive speed. We in the neighborhood feel that a mirror at the end of Onyx/ Topaz would be helpful for drivers to see any children that are playing and also those of us who walk. There are roughly 25 - 30 kids under 10 in our neighborhood. Thank you for your consideration.	Christine Randall			Mirrors are not an authorized traffic control device. A request to the Parking and Traffic Safety Committee should be made to review the road configuration.
2024	Pleasant Street at Howard Street	Speed table installation - Too many speeding vehicles, please add a speed table w speed detection corner off Howard St at Pleasant St. Ever since pleasant St was replaced and narrowed, it has become unsafe with two way traffic and for pedestrians. So many pickups in morning and late afternoons come flying down pleasant doing 35-40 mph. The same should be considered for Marcy Street between Gates and Meeting house on Marcy Street.	Peter Harris			This request falls into an existing CIP item TSM-21-PW-71. This request should start with a Parking and Traffic Safety Committee request. If deemed eligible Funding are already identified in the CIP. The next course of action is to request the Parking and Traffic Safety Committee to review.
2024	35 Sherburne Road, 40 Bedford Way, 25 Granite Street	(Abridged) According to the recently released 2022 Portsmouth Housing Market Report, the short supply of affordable housing in Portsmouth has, among other trends, resulted in valued residents reluctantly migrating out of the city, current residents being severely cost-burdened, and seniors being underserved by the lack of affordable options without modern accessibility features. The private market has responded to this demand by building a significant amount of rental housing in recent years, but the Report found the increase in housing supply has not offset the sharp rent increases in the city.	Craig Welch (on behalf of the Portsmouth Housing Authority)			This request, which is ultimately a policy decision by the Council, would be well served if it were referred to the City's incoming Housing Navigator for support and coordination with Planning and Public Works Departments for a possible future CIP Project(s).
2024	Spinnaker Point Adult Rec Center	This facility is fantastic as to the variety of activities it offers for adults of all ages. It is strategically located and serves a wide catchment area. The city should own it because doing so would be a better bang for taxpayer bucks than rental and certainly cheaper than building from scratch. The building warrants an energy audit, which doesn't cost a lot to do. Until and Eversource have rebate programs to offset capital costs of at least some kinds of energy efficiency upgrades. There may be shared savings programs available so that up-front out-of-pocket costs are minimized. I think energy audits for all municipal buildings should be undertaken in this capital budget cycle and money set aside now for implementing recommendations. We will save green by going green.	Elizabeth Mooney			This request should go through the Recreation Board. An energy audit and facilities evaluation for Spinnaker has been completed and the City has implemented a number of upgrades recommended in that report. Further investments are not warranted unless the City purchased the facility.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Spinnaker Point Fitness Center	Completion of Spinnaker Point Fitness Center Ventilation/Heating/Cooling Projects. During the pandemic period and with the help of federal funding, the Spinnaker Point Fitness Center was significantly rehabilitated, with many deferred maintenance repairs finally being able to be completed. However, two outstanding issues were not completely dealt with: the inadequate ventilation in the Men's Locker Room, and the lack of proper heating and cooling on the Indoor Track. The adequate ventilation continues to pose a health issue, with many members having complained of respiratory illnesses such as colds and similar symptoms, stemming from the use of the Men's Locker Room. The heating, cooling and ventilation system on the track has not been properly functioning for at least a decade, resulting in members requiring coats in the winter and excessive heat/humidity in the summer. These issues have been repeatedly mentioned at various forums, e.g. City Council meetings and Citywide Neighborhood Committee forums and have been noted. It is worth suggesting that since the ventilation and heating/cooling issues may be a building-wide problem, a comprehensive Energy Audit (provided by the utilities at no cost) should be undertaken Prior To any new measures being implemented. This would be also financially relevant since many energy efficiency measures would qualify for energy rebates of up to 50% from our 2 utilities (Eversource and Unitil).	Peter Somssich & Larry Cataldo (Citywide Neighborhood Committee)			This request should go through the Recreation Board. An energy audit and facilities evaluation for Spinnaker has been completed and the City has implemented a number of upgrades recommended in that report. Further investments are not warranted unless the City were to purchase the facility.
2024	Bartlett Street RR trestle	Raise and widen the underpass of the Bartleet St RR trestle (under planning document cited: Portsmouth CIP for 20 years until 2016-2021 CIP).	James Hewitt			The City does not own or control this infrastructure. Previous funding has been contributed by a developer to study potential upgrades to the RR bridge. The City is exploring contracting with a consultant that specializes in RR projects to provide assistance in applying for a Consolidated Rail Infrastructure and Safety Improvements (CRISI) grant which would fund a study to develop alterations or possible replacement of the RR bridge. The RR has to be a partner in this effort.
2024	Islington Street and Bartlett Street and Jewell Court	Re-Align Bartlett Street to create a 4 way intersection with Jewell Court (under documents cited: Was in CIPs until 2015-2020 and then it disappeared).	James Hewitt			This project is not practical at this time. It would require purchasing or the taking of property.
2024	Portsmouth Harbor Wharf near Sarah Long Bridge	New Wharf / Pier (identified in document: NH DOT Ten Year Plan)	James Hewitt			This is not a City project.
2024	Portsmouth Traffic Circle	Modernize antiquated 1950s era single lane rotary a modern 2 lane Roundabout. (under planning document cited: Modernizing the Portsmouth Traffic Circle was in the CIP for years until the 2016-2021 CIP. Then it mysteriously disappeared)	James Hewitt			State Project NHDOT. This project is the highest priority project being requested to be added to the state's Ten Year Plan by the Rockingham Planning Commission.
2024	Sagamore Avenue (Route 1A)	TSMW-19-PW-62 Sagamore Avenue Sidewalk - This project extends the current sidewalk from "the old Moose Club access road" (the entrance to the Sea Star Cove Condominium Association) to Ordione Point Road in FY2024. As part of the approval for development of the 1169/1171 parcel, the developer will pay for about one third of this distance. This requirement should be enforced, and the project should be extended south to the Rye border. This is a developing part of town on a dangerous road: the 10unit Sea Star Cove association; the 6 unit development at the former Golden Egg property; The 10 unit development at 1169/1171; the sewer project. Residents walk to the Urban Forest and points in Rye such as the Atlantic Grill.	Bill Bowen			A portion of this project is currently in the CIP under project # (FY23 # TSM-19-PW-63 "Sagamore Ave Sidewalks") addressing the section of Sagamore Avenue that is in Portsmouth. Extending the sidewalk to Foyes Corner would entail constructing sidewalk outside the City limit in the Town of Rye. Doing this second portion of the sidewalks would require a Intermunicipal agreement between the City Council and the Town of Rye in conjunction with an agreement from the NH DOT. The secondary portion would require a policy decision and is not a capital request at this time.
2024	between the entrance to Tidewatch Condominium and Sagamore Creek Bridge on Sagamore Ave (2 Requests)	(combined) Sagamore Avenue is a popular route for cyclists traveling between Portsmouth and Rye and the southern NH seacoast. The southbound bike lane on Sagamore Ave. ends at the entrance to the Tidewatch Condominiums. Sagamore Ave at that point begins an ascent to the top of a ridge and the shoulder of the road narrows to about 12" and is bound by a curb on a riders' right. Southbound motorists cannot see approaching traffic due to the crest of the ridge. Nevertheless, impatient motorists, of which there are plenty, will attempt to pass cyclists and do not provide the required 3 feet of distance between their vehicle and a cyclist. A cyclist has no chance to move to the right due to the curb. A cyclist is very likely to be seriously injured or an automobile is likely to collide with a northbound motorist if a proper bike lane is not extended over the crest of Sagamore Ave.	Peter Wissel & Andrew Jaffee			Given the right-of-way, there are limited adjustments that can be completed. The current sewer project will be working to improve bicycle safety along this section. Additional upgrades to widen the road shoulder or creating a multi-use path will require adjusting the width of the road right-of-way, requiring procurement of private property.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	US 1 By-Pass and Cottage Street and Coakley Road	Remove Traffic Signal. Make the Cottage Street and Coakley Road Right-In, Right Out only on to US 1 By-Pass TSM 20-PL-71 (Under documentation : TSM-20-PL-71)	James Hewitt			This is a State Road and intersection. A companion project TSM-20-PL-70 has been included in the CIP in anticipation of a modification to this intersection by NHDOT. The City Council can request this is project be moved in priority by NH DOT.
2024	Full Length of Banfield Road from Ocean Road, across Peverly Road and to Rt 1	As discussed in the suburban master plan, connecting the suburban amenities through sidewalks, and bike paths will both connect the suburbs with downtown, as well as allow pedestrian and bike access to all of the amenities from Green Rd over to Rt 1/Lafayette	Fred & Elaine Butts			This project request is unclear.
2024	710 Middle Road	Monster DADU 4,000 Warehouse	James Hewitt			Not clear as to the request.
2024	2-4 Woodbury Avenue	New Deck - Construction of Ground Level Deck in Rear	Steven Cook			Do not understand this request. Private Residence.
2024	Greater Ocean Rd and Banfield Rd Suburban area.	The expansion and growth of the Banfield and Greater Ocean Rd neighborhoods with single-family homes, condos, and workforce housing leave thousands of existing and future residents without any nearby access to parks, fields, and courts. While there is a park down in Maplevillen, it's tucked away and not heavily used by the residents outside of Maplevillen. I am proposing a committee to consider the location, design, and construction of parks, fields, and courts on one of the many City of Portsmouth Parcels of land that are scattered throughout this suburb.	Fred & Elaine Butts			This is a request for a committee formation which is performed by the City Council as a policy request. This is not a capital request.
2024	Citywide	Property Acquisition Fund - In the CIP, policy makers should set aside 1% (\$1.3 million in FY24) of the budget annually for the purpose of land conservation and open space protection. We should be prepared to quickly purchase new properties that are contiguous with our existing conservation areas. The one thing that there is no more of is land. Additionally, we should be ready to protect our core downtown open spaces, which today are parking lots, by obtaining voluntary first rights of refusal from current land owners. For instance, an example is the TD Bank Lot next to the Old South Church. Wouldn't it be better for the city to put a future pocket park there instead of a 70 foot tall development built curb line to curb line?	Ted Jankowski			Although there is an existing CIP item for this type of funding (FY23 CIP # BI-95-PL-16 "Land Acquisition"), the creation of a fund or funding level policy/percentage is a decision of the City Council and not a capital request.
2024	Citywide	The city should include funding of \$225,000 in FY24 for a commercial grade steamer that can kill weeds without chemicals, remove graffiti, sanitize anything (sidewalks, playground equipment, etc.), can unfreeze manhole covers, and is a year round tool. Please see this one link http://weedtechnic.com as an example of one European manufacture. While there are currently no US manufactures, there are also US contractors that have bought the machines and could provide the service. However, I would support city staff doing the work. I urge the City to support this chemical free machine and add it to the CIP for FY24.	Ted Jankowski			The City's Public Works Department has piloted this equipment in conjunction with reviewing how Dover is using their equipment and determined that a mechanical means of weed control such as weedwackers or manually weeding is more effective.
2024	Citywide	Collecting Compost from residents and businesses in the City, either at designated locations throughout the City or curbside, to divert organics from the waste stream.	Allison Tanner (on behalf of Portsmouth Climate Solutions & WRAD)			This is not a capital project. It is an operational request. This can be considered by the City Council during the City's Annual Budget Process.
2024	Islington Corridor	Hello. As part of the 2009 Islington Street Corridor Action Plan, it was identified to work with Art-Speak to implement an art program. Details can be found here: https://files.cityofportsmouth.com/economic/FINALACTIONPLAN100212_islington_actionmatrix.pdf The ask is to fund this program. Thanks.	Gregory LaCamera			This is a policy question not a capital project request.
2024	95 Mechanic Street	Conduct repairs and upgrades to make this 7 bedroom City Owned apartment building ready for occupancy	James Hewitt			This property was purchased to facilitate construction of a new wastewater pumping station. Investments in this property for any long term use is not recommended.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2024	Spinnaker Point Fitness Center	Purchase of the Spinnaker Point Fitness Center. The City of Portsmouth currently leases the Spinnaker Point Fitness Center from the Spinnaker Point Association. Our current lease is in place for the next 8 years. However, the association would most likely sell this property if the City were not leasing it, and paying for its maintenance. Even though the center has been designated as the City's premier senior fitness center, there is currently no replacement in sight should the City decide not to extend the lease. At the same time, at least for the next 8 years, the City will continue spending money on maintenance and upkeep for the facility, even if they do not own it, and it only makes this asset more valuable for the owners. Any consideration of a purchase should however only be made after a thorough review of energy and maintenance needs that are identified by way of an inspection and energy audit. Some kind of a collaboration with the residents of the Spinnaker Point Association should also be part of any negotiations. Membership fees, which have held steady for many years must also be part of any new ownership transition, helping to financially support a new and improved fitness center.	Peter Somssich & Larry Cataldo (Citywide Neighborhood Committee)			The purchase of this facility is a policy decision that should be reviewed and discussed by the City Council.
2024	Spinney Road	Construction of approximately 430 feet of curbing and sidewalk from Islington Street to Spinney Rd where no sidewalk currently exists. There is a very dangerous area to walk on the road due to the curve and elevation change on Spinney Rd resulting in a reduced sight distance.	Eric Doremus			This is an existing project that has been funded. Impacted property owners have not agreed to grant easements. Council will need to do a public necessity determination and initiate a condemnation to be able to complete the sidewalk
2023	Elwyn Road from Harding 300 feet eastward	The Elwyn Side Path project that is currently in planning would be greatly improved by extending it eastward by 300 feet to the last gate into Urban Forestry Center. The purpose of that existing project is Congestion Mitigation through bicycle and pedestrian connectivity, so of course it should connect to the broad dirt road that already exists within Urban Forestry. This will also open up the half of the Urban Forestry Center that is not currently accessible to those with disabilities. Otherwise there will effectively be a half mile paved road and a half mile dirt road that are only linked by one short and seriously degraded hiking trail. This 300 foot connection is important to do now in preparation for a future goal of the bike/ped plan, a right of way and path through to Gosport Road. This would in the future allow for a route almost entirely separated from traffic all the way from Sagamore Road to the Plains ballfield and the new athletic fields.	Matthew Glenn			This project has been expanded to include this request no additional CIP funding needed.
2023	Grant Ave.	Grant Ave. Greenspace rehab prjoect. City Property. Clear cut trees and shrubs and remove excessive ground debris. This will allow sunlight to a very enclosed, dark section of narrow roadway thus increasiong visibility and safety for motorist, cyclist and pedestrians. It will aide with increasing the aesthetic value of the neighborhood and decrease random waste disposal and abutter vegetation debris dumping on city property.	Mark Syracuse			This level of maintenance is above typical level of service recommend the project to Adopt a Spot
2023	Gosport Road/Urban Forestry Center	Connect Tuckers Cove to the Elwyn Side Path in Urban Forestry Center with a bike/ped path, allowing a safe route all the way from Plains Ballfield to Sagamore Rd. These two were identified in Bike/Ped Plan: 13 Bike/Ped 2A/B/Lafayette ; 5A/B/South High Elwyn Rd Alternative Route Shared-use path through Urban Forestry Center connecting to Gosport Rd/Odiorne Point partially through existing utility easement. Signed bicycle route on Gosport Rd/Odiorne Point to connect to Sagamore Rd.	Matthew Glenn			This request appears to be across private property to which the City does not have pedestrian easements.
2023	Lafayette/Peeverly Hill/Elwyn intersection	Add a walk signal & crosswalk to connect the planned side path to the Yokens plaza and Peeverly Hill bike lanes. This is the only leg of the intersection without a crosswalk, but there needs to be a way to connect to the new multi use path. In bike/ped plan, project ID 7, and in CIP as TSM-10-PW-66: CITYWIDE TRAFFIC SIGNAL UPGRADE PROGRAM)	Matthew Glenn			Working to expand scope of th e Elwyn Road side path to include this recommendation

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2023	Route 33 between Plains Ballfield and NH Seacoast Greenway at the future skate park	Convert the sidewalk alongside 33 to a multi use path between the Plains Ballfield and the new skatepark & rail trail accessExisting project #TSM-21-PL-56: GREENLAND RD/MIDDLE RD CORRIDOR TRAFFIC CALMING AND BICYCLE/PEDESTRIAN IMPROVEMENTSIn bike/ped plan: 19 Bike/Ped 4A/B:Greenland/Borthwick High Hampton Branch Trail Connection at Middle Rd Widen existing sidewalk on south side of Portsmouth Plains Field for sidepath connection from Peverly Hill Rd to Hampton Branch Trail. Provide sidepath connection through future athletic fields with parking access for trail users.	Matthew Glenn			This request will be added to the backlog of pedestrian/bicycle requests
2023	Peverly Hill and Middle Road intersection	Add a walk or bike signal & crosswalk connecting the new multi use path directly to the Plains ballfield. There should be a way to cross directly-- most bike riders will not press and wait for two crosswalk signals that take them an extra distance, but darting across traffic on route 33 is not a safe option. This is also important to connect to the future skate park.	Matthew Glenn			Will be part of Peverly Hill road upgrade project
2023	Dept of Public Works Driveway to Athletic Fields	Allow Bike/Ped access to the new Athletic Field from the DPW driveway on Peverly Hill Road. This was planned when the fields were built, but hasn't been opened to the public yet. Ideally there should be a separated multi use path from Peverly Hill Rd through the shared DPW and Pike Industries driveway.	Matthew Glenn			This is part of the next phase of improvements for this property
2023	Borthwick Ave	Build a multi-use path on Borthwick from the Route 1 Bypass to Eileen Dondero Foley Drive or further, and install a bike crossing signal at the Bypass to the new multi use path on Hodgdon Way. This would connect the future North Mill Pond Greenway to many businesses and to the NH Seacoast Greenway, and would become the primary NH Seacoast Greenway route as identified in the city's own plans. If the Coakley/Borthwick connector is built it will be necessary to at least build a sidewalk here, but a shared path would be better. There is also a bus stop at this location.	Matthew Glenn			This is in the CIP
2023	Rte 1 and Elwyn Road	Requesting a crosswalk from the northwest side of rte 1 intersection at the corner of Peverly Hill to the north east side at the corner of Elwyn road to connect to Elwyn road sidewalk project. All of the lights at that intersection, including at Wilson road and rte 1, need to be red with no turn on red when cross sign is initiated. Furthermore, consideration of an expanded sidewalk all the way down Elwyn road is requested.	Amy-Mae Court			This request is covered as part of the Elwyn Road side path project
2023	Hampton Branch rail trail	TSM-15-PL/NH-51: HAMPTON BRANCH RAIL TRAIL (NH SEACOAST GREENWAY)	Anne Poubeau			This project is underway by NHDOT
2023	MIDDLE STREET BIKE LANES CONNECTION TO DOWNTOWN	Middle St between Highland Standislington Street/ Congress Street intersection	Charles Fleck Jr			There are sharos in place for this section of roadway
2023	Middle Road and Greenland Roadfrom Spinney Road to Harvard Street	TSM-21-PL-56: GREENLAND RD/MIDDLE RD CORRIDOR TRAFFIC CALMING AND BICYCLE/PEDESTRIAN IMPROVEMENTS	Charles Fleck Jr			this is a future project part of the bicyle master plan
2023	Market Streetbetween Kearsarge Way and Maplewood Ave	TSM-21-PL-57: MARKET STREET SIDE PATH	Charles Fleck Jr			future project of the bicyle master plan
2023	Maplewood Ave from Congress Stto Raynes Ave	TSM-16-PL-60: MAPLEWOOD AVE DOWNTOWN COMPLETE STREET	Charles Fleck Jr			this is on the sate NHDOT list
2023	US Route 1 from Andrew Jarvis to Elwyn Rd	TSM-08-PL/NH-58: US ROUTE 1 NEW SIDE PATH CONSTRUCTION	Charles Fleck Jr			Currently in CIP
2023	Former Hampton Branch Rail Line	TSM-15-PL/NH-51: HAMPTON BRANCH RAIL TRAIL (NH SEACOAST GREENWAY)	Charles Fleck Jr			Currently in CIP
2023	Elwyn road near Tucker's Cover/Urban Forestry Center	Alternative Route/Shared-use path through Urban Forestry Center connecting to Gosport Rd/Odiorne Point partially through existing utility easement.	Charles Fleck Jr			This is private property
2023	33 Near Plains Ballfield and New Skate Park location	Convert the sidewalk alongside 33 to a multi use path between the Plains Ballfield and the new skatepark & rail trail access	Charles Fleck Jr			Add this to listof backloged projects
2023	Peverly Hill Rd.	Peverly Hill Rd. has major safety issues due to poor road conditions (potholes, crumbling asphalt) and heavy and speeding traffic. While some issues will be addressed with the Peverly Hill Road Improvement project (sidewalk and multi-use lane), we absolutely need some speed and traffic control. I propose adding speed bumps/ speed tables to slow down the traffic, similar to Banfield Rd. set-up, as well as signs illuminating speed if you go too fast.	Eugene Zakharov			This is part of an existing project

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2023	South Mill Pond Tennis Courts	Tennis courts (specifically the nets) have been completely destroyed by pickle ball players. We need new nets and the courts need to be resurfaced. It's the only facility with lights that allow to play in the evening and is a critical piece of infrastructure that needs attention.	Eugene Zakharov			This is a maintenance project not appropriate for CIP
2023	Portsmouth; multiple	I support SABR and all their ideas as below:Support existing projects [http://files.cityofportsmouth.com/files/planning/cip/CityCouncilCIP_FY22FY27.pdf]:TSM-15-PL/NH-51: HAMPTON BRANCH RAIL TRAIL (NH SEACOAST GREENWAY)TSM-21-PL-54: MIDDLE STREET BIKE LANES CONNECTION TO DOWNTOWNTSM-21-PL-56: GREENLAND RD/MIDDLE RD CORRIDOR TRAFFIC CALMING AND BICYCLE/PEDESTRIAN IMPROVEMENTSTSM-21-PL-57: MARKET STREET SIDE PATHTSM-08-PL/NH-58: US ROUTE 1 NEW SIDE PATH CONSTRUCTIONTSM-16-PL-60: MAPLEWOOD AVE DOWNTOWN COMPLETE STREETBuild a multi-use path on Borthwick from the Route 1 Bypass to Eileen Dondero Foley Dr or further, and install a bike crossing signal at the Bypass. This would connect the future North Mill Pond Greenway to many businesses and to the NH Seacoast Greenway, and would become the primary NH Seacoast Greenway route.Peverly/Middle Road/33 IntersectionAdd a walk or bike signal & crosswalk connecting the new Peverly Hill multi use path directly to Plains ballfield.Convert the sidewalk alongside 33 to a multi use path between the Plains Ballfield and the new skatepark & rail trail access.Extend the planned Elwyn Road Sidelpath 300 feet to the east to make a connection to the existing dirt road headed toward Tucker's Cove, then connect Tuckers Cove to Urban Forestry Center with a bike/ped path, allowing a safe route all the way from Plains Ballfield to Sagamore Rd.Allow Bike/Ped access to the new Athletic Field at Community Campus from the DPW driveway on Peverly Hill Road	Anne Schwartzman			These projects have been covered in other CIP requests above
2023	(Continued from above)	Tucker's Cove, then connect Tuckers Cove to Urban Forestry Center with a bike/ped path, allowing a safe route all the way from Plains Ballfield to Sagamore Rd.Allow Bike/Ped access to the new Athletic Field at Community Campus from the DPW driveway on Peverly Hill Road				
2023	South Mill Pond at 438 and 444 Pleasant Street	Design and Planning for repair and rehabilitation of historic seawall with related landscaping and access improvements along the North side of the South Mill Pond.	Portsmouth Housing Authority Craig Welch			The wall in question is on PHA property. It will be investigated but no funding at this time for that work.
2023	Borthwick Avenue	Build a multiuse path along Borthwick Avenue that allows users of the existing path on Hodgdon Way/Cate Street to continue across the bypass, to access the soon-to-be built Hampton Branch Rail Trail via Eileen Foley Drive, as well as the hospital and Pannaway Manor.	Jonathan Sandberg			This project is in the CIP currently
2023	Foundry Garage	Buyout Pan Am Railroad (B&M RR) deeded right to an office in the Foundry Garage. This action would significantly reduce the need for trains to idle in the Portsmouth Yard while crews utilize the office. Reducing time trains spend in Portsmouth would have a significant impact on air quality, noise, hazards and general quality of life for the Isington Creek Neighborhood and Portsmouth in general.	Tom Hiney			This is a policy issue more suited to the legal department.
2023	Maplewood Ave.	New bicycle lanes painted on both sides of Maplewood Ave, just after the rail crossing. There is a risk of a cyclist colliding with a door opening from a parked car (getting doored), unless the cyclist is riding to the extreme outside of the lane. Bear in mind that a cyclist heading toward downtown could be moving very fast. I suggest "share the road" stripes instead.	Thomas Smart			This is not a CIP project. Request should be made to Parking Traffic and Safety Committee
2023	Intersection of Middle Street and Middle Road	Make permanent the pilot removal of the slip lane at the intersection of Middle Street and Middle Road and construct a permanent "T" intersection there.(see attached)	Jim Hewitt			This is part of the CIP currently
2023	Cate & Bartlett	Remove the pilot slip lane that the City created at Cate & Bartlett on July 16 and make that a permanent "T" intersection like the one to be constructed at Middle Street and Middle Road	Jim Hewitt			This is not the recommended approach
2023	Citywide	Do not install any more tourist "Wayfinding" signs. The signs pointing tourists toward City Hall and the Indoor Swimming pool are ridiculous for obvious reasons. (\$ 1.5 million total cost ?!/?)	Jim Hewitt			This is a policy comment not a CIP request
2023	Bartlett Street	Return the Bartlett Street RR bridge replacement project to the CIP as it was from 1997 to 2016. Use the \$ 20,000 that Torrington Properties gave the City for a bridge replacement feasibility study as a condition of West End Yards approval. See attached	Jim Hewitt			This is a policy issue will review prior CIP requests

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2023	Citywide	The most important request is a project to restructure how the CIP is prepared. In keeping with the City's motto of "City of Open Door " and its goal to maximize transparency , the CIP introduction needs to include the following upgrades-	Jim Hewitt			This is an issue of City policy
2022	Elwyn Road between Harding Road and Foyers Corner	Extend a sidewalk or path the entire length of Elwyn Road from Route 1 to Foyes Corner. It's such a dangerous road to walk or ride bikes on. It would be great to be able to walk safely to the shops and restaurants at Foyes Corner. Similarly, it would be great to have a sidewalk from Foyes Corner along Sagamore Road to Odiorne Point Road for the same reason. It would be a tremendous benefit to those businesses.	Michael Bloom			Consider adding to CIP once existing Elwyn Road side path project is complete
2022	Elwyn Road between Harding Road and Foyers Corner	Continue Elwyn Rd sidepath or sidewalk further down Elwyn beyond Harding toward Rye line.	Emma Chamberlain			Consider adding to CIP once existing Elwyn Road side path project is complete
2022	Mendum Avenue	We are writing as neighbors who reside on the one block-long Mendum Avenue to ask the city of Portsmouth to restore sidewalks to the odd-numbered side of our street.	Janet Polasky			DPW to address as part of city-wide sidewalk maintenance program
2022	Middle Rd (Bypass to Plains Field) & Islington St (Bypass to Plains Field)	Traffic control and space for bikes. The new sidewalks on Islington are nice, but very frightening to bring little kids on with speeds so high, same goes for Middle Rd side. The bridge over the bypass on Middle Rd is incredibly dangerous for bicycles. Blind corner with degrading asphalt shoulder. One major accident taking out telephone pole has already occurred. Speed to high over bridge. Heavily used by DPW trucks.	Stephen Parsons			Middle Road is part of an existing CIP project, Islington Street bike lanes not recommended in City-wide bike ped plan, future Hampton Branch Rail Trail is alternate route
2022	Middle Road	My wife and I have lived at 726 Middle Road for 6 years, which is located directly across from the 73 units at Riverbrook Condominiums. We chat regularly with many neighborhood pedestrians as our front porch is directly in front of the crosswalk from Riverbrook to the Middle Road sidewalk. Over the years we have learned our neighbors' top priorities for improvements to Middle Road are: 1) pedestrian safety and, 2) getting traffic to slow down. Therefore, I believe the City should listen to what the Middle Road residents want and spend 100% of the \$650,000.00 allocated for project TSM- 21-PL-60 (attached) to achieve these two goals. With regard to pedestrian safety, the less pedestrians need to cross Middle Road, the less likely they are likely to be struck by a car. Since so many Riverbrook residents need to cross Middle Road to get to the sidewalk heading toward, or away from, downtown, the solution would be to build a sidewalk on the Riverbrook side (north) side of Middle Road. This would eliminate the need to cross Middle Road twice, once at the Riverbrook entrance and once at the crosswalk at Lois. As shown on the attached, the proposed sidewalk would run from Essex to Peverly Hill Road for approximately 2,000 ft. Assuming 4 ft wide sidewalk is \$ 100/SY and granite curb is \$80/LF to build, that sidewalk would only cost about \$300,000.00. The remaining \$350,000.00 could go towards traffic slowing raised crosswalk tables, new signage, a westbound automated speed indicator and extra police details. I look forward to the implementation of this CIP project based on addressing Middle Road residents' top priorities, namely 1) pedestrian safety and 2) slower traffic.	Jim Hewitt			Existing CIP project

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2022	Pease Tradeport	I would like to see a true bike path on New Hampshire Ave, International Dr, Corporate Dr & Arboretum Dr. I would like the city, Pease Authority & Newington to collaborate on getting this under-used area to be more user-friendly for employees in the area, residents & even tourists to have the ability to get to the Wildlife Refuge area in a fun, safe & healthy way. The sidewalks are underused; the frontage of the businesses would allow for a nice wide path. The Market St pedestrian/ bike overpass and Rockingham Ave access to the bike bridge/trail are ideal and to further that into the Pease Tradeport area is a win-win. Portsmouth should be promoting this as a biking destination. We have opportunity to improve our biking infrastructure in many areas; this is just one. I encourage future bike lanes, painted sharrows and share the road signs throughout Portsmouth. Our small parks can be linked with bike & walk options and walking options are plentiful. Biking takes less time and is expanding in interest; let the city truly guide the ability for safe biking to tie in our parks, eateries and many cultural activities in the area. Tourism begs for choices such as this. Bike share abilities without safe opportunities will not work, but with safe accessss such as separated lanes & distinct paths is a win-win. I know the rail trail is in the works too, and that is great, but we can do more. Complete Streets for all. Thanks!	Anne Schwartzman	199 Concord Way		Review with Pease staff for future CIP project in collaboration with Newington
2022	Sidewalks on FW Hartford Drive and TJ Gamester Drive (The Woodlands)	Replace sidewalks on FW Hartford & TJ Gamester Drives in the Woodlands neighborhood. The sidewalks are owned & maintained by the City, but as President of the Woodlands HOA, I have received numerous complaints about the sidewalks (potholes, roots/bumps, uneven, etc.) over the past year with many residents stating that they walk in the street because the sidewalks are deteriorating in areas or too uneven and a safety hazard. Thank you very much for your consideration.	Todd Spencer			DPW to address as part of city-wide sidewalk maintenance program
2021	140-160 Court Street	Requested improvements related to construction of new residential apartments (driveway) , stormwater upgrades, pedestrian and park improvements, and eletrical infrastructure	Craig Welch			These are being put forward as new CIP projects for FY21.
2021	1030 South Street	Implementation of granite curbing along the front of my house.	Linda Plumer			Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	City of Portsmouth Parks and Playgrounds	Following on the City's Open Space Planning process, conduct a Parks and Playgrounds Planning Study. The Study would examine and assess existing conditions and maintenance needs, the diversity of uses and programming, recreational value, equity of distribution throughout the City, opportunities for ecologically-focused design, etc. Looking at parks and playgrounds together as a collection of City assets, this study would result in actionable priorities that involve replacement/renovation of existing parks and playgrounds, and identify opportunities for constructing new ones. This set of planning goals should focus on providing a diverse and progressive set of landscape experiences throughout the City, using the latest in landscape and playscape design practices.	Alice Carey			Recommend addressing through CIP project for playground improvements, which is an existing project in the CIP.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2021	Creek Neighborhood	The repaving of the cross streets between Dennett and Clinton with associated sidewalk improvements	Johnathan Wyckoff			Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Dondero Elementary (32 Van Buren Avenue)	Completion of Dondero Elementary School Nature Playground and Green Schoolyard Master Plan. Design and construction is ongoing, along with fundraising by the Dondero PTA. Considerable issues involving site drainage from the building and throughout the site have not been addressed to complete the full vision. City and School Department funding has previously matched private fundraising efforts, but more help is needed (beyond volunteer and PTA efforts) to realize the potential of this plan as a living/learning natural playscape and schoolyard environment, to benefit not only Dondero students but the surrounding neighborhood, for which this site serves as a public park. This request is for additional collaboration and leveraging of City resources and expertise for the completion of this important project.	Alice Carey			Recommend ongoing collaboration with School Department on this project.
2021	Elm Court	Paving of Elm Court	Jeffry Kiesel	199 Concord Way		Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Foundry Garage	The Foundry Garage lightening system needs to be completed. We were told that screens would be implemented to dim the lights. The garage lighting is still a concern and problem for us across the pond.	Dawn Przychoazien			Recommend addressing through the City's operations and management funding for parking garage.
2021	Harvard Street	While the city has occasionally repaired potholes on this side street, it has not kept up with the traffic on this road which consists of both residential and city truck traffic, given that both the temporary dog park and the city pump/well are along this road. Requesting that the city completely repave this side street in what feels like a forgotten neighborhood.	Jane Begala			Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Heritage Avenue	Complete bicycle and pedestrian plan for Heritage Road. This would allow for some access to Greenway trail, connecting Maple Haven when Route 1 improvements completed. Current state of Banfield Road and Ocean Road is unsafe for bicycle and pedestrian access to rail trail. Current shoulder on Route 1 wide enough to accommodate adult usage to Heritage, and then to trail. Further improvements would be needed for use by children or those uncomfortable biking on Route 1.	Sarah Jarvis			Recommend coordinating with NHDOT to pursue funding for connections along Ocean Road, which is a state roadway. Consider Heritage Road improvements once NHDOT Route 1 Corridor Improvements have been designed.
2021	Maplewood Avenue Bridge	Amend the current CIP project to address the impacts from climate change and the related sea level rise on the neighborhoods surrounding the North Mill Pond, by including this in the planning, design, and implementation of this project. See attachments hereto.	Douglas Woodward			Recommend incorporating into existing CIP project for Maplewood Ave bridge replacement.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2021	Market Square	When Market Square is updated with underground utilities or sewer and water pipes please consider installing a sidewalk warming system to make it manageable in the winter. Holland, Michigan uses a water system from one of its utility plants. Not sure this is workable for Portsmouth, however, there are alternatives (similar to roof ice preventing electrical cords) that could be used. Below is an informational video on Holland's system, and a Chicago Tribune article https://www.youtube.com/watch?v=xFWzDB7WvNI [https://www.youtube.com/watch?v=xFWzDB7WvNI][https://www.chicagotribune.com/news/ct-xpm-2014-02-01-ct-heated-sidewalks-met-20140201-story.html] [https://www.chicagotribune.com/news/ct-xpm-2014-02-01-ct-heated-sidewalks-met-20140201-story.html]	Jane Nilles			Recommend considering as part of existing CIP project for Market Square.
2021	Middle Road	Planning study on traffic calming and safety for autos, pedestrians, and bicycles on Middle Rd and South Street. Reconfigure intersection, sidewalks, street narrowing with parking.	Rebecca McBeath			This is being put forward as a new CIP project for FY21.
2021	Middle Road and South Street Triangle	Crosswalk paint and reflective sticks. 1. crosswalk at Spinney and Middle -- add reflecting sticks 2. crosswalk added to cross South Street where it meets the triangle island. Place markers liked used on Middle Street bike lanes in center and in center o	Rebecca McBeath			Corridor-wide traffic calming and streetscape improvements are being put forward as a new CIP project for FY21. Consider implementing interim measures through the City's Neighborhood Traffic Calming program.
2021	Middle Road between Essex and Peverly	Propose curbing along sidewalk as cars use sidewalk as parking and passing lane frequently and this is the neighborhood's pedestrian access to the plains park	Janelle Clark			Corridor-wide traffic calming and streetscape improvements are being put forward as a new CIP project for FY21.
2021	Mill Pond Way	Improvements to city owned property to create low impact kayak launching area,offstreet parking,picnic area, and signage to inform residents.	Johnathan Wyckoff			This is being put forward as a new CIP project for FY21.
2021	Mill Pond Way	Build picnic tables and shelters and paths similar to Four Tree Island to encourage public access to the mill pond. Access is extremely limited on that side of the pond.	Dave Beadling			Recommend considering as part of existing CIP project for Market Square.
2021	Northwest Street	Pave Existing dirt turn around at the end of Northwest Street near Pump Station.	Jeffry Kisiel			Recommend addressing through CIP project for park improvements, which is an existing project in the CIP.
2021	Pannaway Manor	Pannaway Manor was established in 1941 making utilities, roads, sidewalks and park past their designed lifespan. Sidewalks are not walkable and are noted in the 2020-2025 CIP plan as "high priority." Pannaway Manor is in need of a complete street makeover.	Tyler Dow			Recommend addressing through the City's annual sidewalk improvement program and bike ped plan implementation funding which are ongoing CIP projects.
2021	Portsmouth Foundry Garage	Efforts to reduce the light pollution from the Foundry Garage have not resolved the issue for residents around the garage and across the North Mill Pond. Further efforts are needed!	Elizabeth Jefferson			Recommend addressing through the City's operations and management funding for parking garage.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2021	South street between middle and Lafayette	The residents of south street have requested assistance from PTS for more than a year because of speed and volume concerns impacting safety in the area. Reconfiguration of the triangle at south/middle, sidewalks on the south side of south street, curbing to lower speeds and a crosswalk to aid pedestrians move around this neighborhood to access the high school and playground is requested.	Molly Shaw Wilson			This is being put forward as a new CIP project for FY20.
2021	Sparhawk and Burkitt	Vehicles are speeding down the hill with many small children and families posing a grave danger. Once cars continue through Stark stop, they speed. With construction on Islington people are driving dangerously thru the neighborhood.	Dawn Przychozien			Recommend addressing through the City's Neighborhood Traffic Calming program.
2021	Sparhawk Street	I was told by the city four years ago that Sparhawk Street would be repaved in 1-2 years. I have had two sprains from the Potholes, there is grass growing up in the STREET cracks and sidewalks, The sidewalk is unwalkable and the street is quite narrow, My property has a "temporary" retaining wall that was installed almost 5 years ago, When will we see some improvement in the west end?	Elizabeth Jefferson			Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	Sparkhawk and Burkitt	We've been waiting 11 years to have our road paved. It has been patched every other year and when we see ALL of the capital improvements all over town, we are beyond frustrated. We were told it was going to be paved 6 years ago.	Dawn Przychozien			Recommend addressing through the City's street paving, management, and rehabilitation program.
2021	The Woodlands	I'd like to see the entire city modernized and have high speed fiber available to all citizens. This project would further Portsmouth a leader in technology in New Hampshire. It would also save the citizens a significant amount of money in the long run as fiber internet is significantly cheaper and high quality than the Comcast provided Xfinity internet. Comcast charges \$90 for inconsistent 150mb download speeds and fiber costs about half that for 1TB of speed and would open the door for additional saving through using online streaming services instead of paying for cable. Some neighborhoods already have this service available and I think it's time for the entire town to have the opportunity to use fiber. Selfishly, if I had to choose a neighborhood to start with, I'd choose the Woodlands where the Comcast internet often drops and Comcast contractors don't seem to be improving it. They have also cut Consolidated Communication lines here so needless to say it hasn't been a good experience with Comcast being the only option for internet.	Jonathan Weeks			This project is not being recommended at this time.
2021	West Road (from Lafayette to Campus Drive)	Add a sidewalk on the south side of West Rd from Lafayette Rd to the Community Campus. The bicycle/ pedestrian master plan specifies sidewalks on both sides and bicycle lanes, but to start, a sidewalk on one side would be a huge improvement for access to the senior center, Families First, New Heights, and Seacoast Community School.	Matthew Glenn			Consider incorporating these improvements into the City's construction of fields off Campus Drive which is an existing CIP project.
2021	Willard Ave, Orchard St, Ash St, Specifically 86-88 Orchard St	Alleviate ponding in low areas where Orchard St and driveways meet	Vicki Robinson			Recommend addressing through the City's street paving, management, and rehabilitation program.
2020	Atlantic Heights	The Atlantic Heights Centennial Committee would like to identify a public amenity within the neighborhood that can be rehabilitated or built in honor of its centennial. The neighborhood has offered to fundraise. They are also interested in efforts that may make Maynard Park (now closed) safe and accessible to the public again.	Crisy Cardoso	199 Concord Way		The City is already coordinating with the Centennial Committee related to this request. Staff does not recommend adding a new CIP project for this item at this time.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	New/improved drainage, sidewalks, utility and pavement	Carrie Blake and Deirde Wallace	2 Beechwood St		This is being put forward as a new CIP project for FY20.
2020	Cutts St, Central Ave, Beechwood St, Ashland St, Leslie Drive	New/improved drainage, sidewalks, utility and pavement	Sergio Bonilla	171 Leslie Drive		This is being put forward as a new CIP project for FY20.

2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	William Davis	339 Bartlett Street		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Carla Dow	6 Cuttts Ave		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Claire Dube	173 Start St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Julia Gindele	229 Clinton St.		This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Benjamin Goss	6 Pine St		This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	James Gould	248 Thornton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Catherine Harris	166 Clinton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Theresa Hill	340 Thornton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Pamela Hodgkins	303 Bartlett St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Marianne Janik	21 Burkitt St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Elizabeth Jefferson	111 Sparhawk St		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Nancy and Brian Johnson	81 Clinton St		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Elizabeth Kinney	337 Thornton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Scott McDermott	120Thornton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Sarah McLaughlin	161 Thornton St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Mireille Salmon (mimi)	232 Bartlett St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Lindsey Mogren	11 Burkitt St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Melinda Mulligan	130 Thornton St.		This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Jennifer Neslon	149 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Michael O'Connor	153 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Anne Poubeau	160 Bartlett St.		This was put forward as a new CIP project for FY19.
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Louie A. Prince	302A Bartlett St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Dawn Przychodzien	111 Sparhawk St		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Johnathan Sandberg	160 Bartlett St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Matthew Schaepe	149 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Jim Sparling	108 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Swanne M. Stawartz	891 Elwyn Rd.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Barbara Timmons	26 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Sam and Amanda Tombarelli	382 Bartlett St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Cate Street Connector	A desire to reroute traffic away from Bartlett St by way of a Cate Street Connector	Joann Wyckoff	135 Sparhawk St.		This was added to the CIP in FY2019 (TSM-19-PW-74)
2019	Greenleaf Ave (Intersection at Greenleaf Ave and Lafayette Road)	Close access to Greenleaf Ave from Lafayette Road for Reasons of Safety	Stephen and Suzy Gagnon	29 Hillside Drive		Recommend evaluating through the City's Neighborhood Traffic Calming Program process.
2019	Islington St. Crosswalk	Desire for a crosswalk at Albany St on Islington St.	Sara Curry	800 Islington St, 10C		This is already planned as part of the City's Islington Street Corridor project, which is currently in design. Construction is anticipated to begin in 2018.
2019	Maynard Park	Expressing a desire to reopen the park under the I-95 Bridge after the high rise rehab project is complete including an extension similar to that of the Memorial Bridge.	Jon McBride	505 Kearsarge Way		Once the rehab project on the bridge is complete, the City is planning to coordinate with the state about the potential for re-opening the park.
2019	Spaulding Turnpike (200)	Purchase land for public park space	Sarah Gatchell	120 Hillcrest Dr		Staff is not recommending this project at this time.
2019	Willard Ave	Sidewalk Repair	Lennie Mullaney	248 Willard Ave		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Andrew Jarvis (Intersection of Andrew Jarvis Drive and Lafayette Road)	Add new traffic signal	Stephen Bergeron	199 Wibird Street		This was added to the CIP in FY2018 (TSM-PW-21)
2018	Elwyn Road	Install safe bike and pedestrian path along road	Christine Groleau	30 Oakwood Drive		This was added to the CIP in FY2018 (TSM-PW-15)
2018	Goodwin Park	Update / install new lighting for Park	Tom Waterman	43 Cornwall Street		Recommended addressing through the CIP project for parks and playgrounds, which is an ongoing item in the CIP.
2018	Haven Park	Park path improvements and lighting	Mary Cline	395 Pleasant Street		Recommend addressing through the CIP project for parks and playgrounds, which is an ongoing item in the CIP.
2018	Madison Street (between State Street and Austin Street)	Install curbs and sidewalks, plant street trees	Lee Frank	169 Madison Street		This is being put forward as a new CIP project for FY20.
2018	Manning Street (18)	Reconstruct curbing and build sidewalk in front of 18 Manning St	Judith L. Hiller	18 Manning Street		Staff is not recommending this project at this time.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2018	Mark Street	Repave street	Jason Jenkins	35 Mark Street		Recommended addressing through the City's street paving, management, and rehabilitation program.
2018	Parrot/ Rogers Street	Reduce of corner radius at the intersection of Parrot and Rogers Street to slow traffic speeds	Jason Jenkins	35 Mark Street		Recommended evaluating through the City's Neighborhood Traffic Calming Program process.
2018	Penhallow St (126-128)	Repair / regrade brick sidewalk in front of property	Cynthia & Everett Barnes	136 High Street, Exeter, NH		Recommended addressing through the City's annual sidewalk improvement program.
2018	Pleasant Street	Repair/ replace sidewalks, improve street lighting, re-surface road, improve drainage	Mary Cline	395 Pleasant Street		This was added to the CIP in FY2018 (TSM-PW-31).
2018	Sagamore (from 150' south of Little Harbor Road to Shaw Road including)	Reconstruction of Sagamore Ave road and sidewalks from south of Little Harbor Road to Shaw Road	Board of Directors Tidewatch Condominium Association	579 Sagamore Avenue, Units #1 through #122		Recommended holding this project for future consideration as a CIP project. Sidewalk issues may be addressed through the annual sidewalk program.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Don and Judy Albertson	345 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Michael and Julie Bean	236 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Angie and Michael Bloom	34 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	William Cassidy	180 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Michael and Gail Clark	175 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Kevin and Vergie Clover	20 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	William Cassidy (duplicate)	180 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Mildre and Joseph Errico	154 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Jack and Rosemarney Gardner	50 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Michael and Donna Glodziak	68 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Gricel Goodman	120 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Erica and Joshua Greenspan	193 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Alexandra Heidinger	81 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Carla Henderson	205 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Lee Horgan	148 Gosport Road		This was put forward as a new CIP project for FY19.

2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Chiran and Jan Jayartne	101 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Rebecca Spencer and Shawn Kulikowski	149 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Jeff Londres	340 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Richard Lyons	92 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Joan Lyons	92 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Carolyn Mannering	340 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Don and Joyce Marchand	63 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Michael and Lynn Marsh	69 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Kevin and Julie McCana	210 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Daniela and Chris O'Neill	199 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Joyce and John O'Reilly	119 Gosport Ave.		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Keith Orr	260 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Kelly Orr	260 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Ashlie and Tim Peters	104 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Ron and Nancy Polind	166 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	William and Susan Riffer	163 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Kate Hester Siler	75 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Nancy and Zachary Slater	101 Odiorne Point Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Susan Stevens	43 Gosport Road		This was put forward as a new CIP project for FY19.
2018	Sagamore Ave (Approx #1163 to Odiorne Point Road Intersection)	Extend sidewalk to Tuckers Cove neighborhood	Janis Timerman	55 Gosport Road		This was put forward as a new CIP project for FY19.

CIP Year	Location	Description	Submitter	Submitter Address	Staff Analysis Category	Staff Comment
2018	Sherburne School to Borthwick Avenue	Replacement of sidewalk with concrete and curbing	Manuel S. Garganta	471 Colonial Drive		Recommended addressing through the City's annual sidewalk improvement program.
2018	Spinney Road (Eastern Side)	Add new sidewalk from Islington Street to Middle Road	Robert Patterson	180 Spinney Road		This is an existing CIP project.
2018	Willard Ave	Complete road improvements, sidewalk repairs, improve drainage	William Collins	111 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave		Patricia Edwards	23 Willard Ave		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Sidewalk repairs, improve drainage	Curtis and Julianne Johnson	192 Willard Ave		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Sidewalk repairs, improve drainage	Deborah Luff and David Luff	97 Ash Street		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Sidewalk repairs, improve drainage	Tim Malinowski	91 Lafayette Road		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Complete road and sidewalk reconstruction and address odors	Rhiis Buswell, Rachel Minnihan and Patrick Minnihan	150 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Completion of Willard Ave sidewalk and sewer project	John and Denise Pettigrew	67 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Complete road and sidewalk reconstruction, address drainage and odors	Brian and Martha Ratay	139 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave	Completion of Willard Ave sidewalk and sewer project	Kevin and Jill Underwood	238 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.
2018	Willard Ave (Between Marsten and Lafayette)	Sidewalk repairs	Thomas Silverman	171 Willard Avenue		Recommend addressing through the City's annual sewer line replacement and sidewalk program.

Appendix II. NHDOT Portsmouth Projects

44404	I-95	TRR	Underdeck painting of the High Level Bridge	2026	\$ 2,957,265	State Draft 10-year Plan 2025-2034

*Projects may have been funded in prior years. Total funding includes prior years as well.

**NHDOT prepares updates to the State Ten Year Transportation Improvement Plan (STYP) every two years.

The STYP outlines planned projects and programs funded with Federal and State transportation dollars for the next 10 years.

The Statewide Transportation Improvement Program (STIP) is the four-year state project listing for federally-funded projects.
