Subject

New 'No Dog's' signs at Little Harbor

Address

7 Brackett Lane

Message

After a week of torment from the Animal Control Officer about people walking their licensed dogs around Little Harbor School, the city has decided that six (6), yes six 'No Dogs Allowed' signs needed to be erected around the field at Little Harbor. I'm sorry but I have become tired of the sign pollution that has overtaken this city and the complete waste of taxpayer money spend on the purchase and installation of six signs when there doesn't appear to be an issue with dogs running in that field. The only animals dumping in that field are the out-of-control geese at Little Harbor or the South Mill Pond. Please remove these signs immediately and focus real problems within this city.

Geese droppings at Prescott Park

Address

536 Middle Road

Message

The Canadian geese at Prescott Park have become more than a cool thing to see. They are a health hazard. Bird droppings are abundant where children play, people place their blankets for shows and where people walk. When my son was young the pigeons played in the water pools, and it was easy to say don't go there. I'm sure other Citys have had this problem as the geese have migrated. Years ago, I lived in a town north shore of Boston that bordered a golf course. At certain times of the year, you could walk your dog. The geese hated dogs. Maybe letting people walk their dogs leashed at the park would help. I am not a dog owner but just a suggestion.
