

This message helps the City meet its educational Picking up our dog's waste and throwing outreach requirements for the USEPA is a small effort that can make a big dif

Stormwater is a pollution problem that affects everyone and if we all do our part to help, we can reach our goal of clean and healthy waterways.

MS4 Stormwater Permit.

Many NH towns have over 1,000 dogs living in them, and each dog "goes" once or twice a day. That's a lot of poop! Not only is it gross when it's left around, it can also be dangerous. Harmful bacteria and parasites—such as Giardia or Salmonella—that live in pet waste can come into contact with people or other pets, or wash into waterways and storm drains.

Picking up our dog's waste and throwing it out properly is a small effort that can make a big difference in keeping our waters clean.

We love our dogs! But dog waste carries

unsafe for drinking or swimming. So

harmful bacteria that can make our waters

always pick it up and throw it in the trash!
